Halberstam,2025-05-15 What can early Jewish courtroom narratives tell us about the capacity and limits of human justice By exploring how judges and the act of judging are depicted in these narratives Trial Stories in Jewish Antiquity Counternarratives of Justice challenges the prevailing notion both then and now of the ideal impartial judge As a work of intellectual history the book also contributes to contemporary debates about the role of legal decision making in shaping a just society Chaya T Halberstam shows that instead of modelling a system in which lofty inaccessible judges follow objective and rational rules ancient Jewish trial narratives depict a legal practice dependent upon the individual judge s personal relationships reactive emotions and impulse to care Drawing from affect theory and feminist legal thought Halberstam offers original readings of some of the most famous trials in ancient Jewish writings alongside minor case stories in Josephus and rabbinic literature She shows both the consistency of a counter tradition that sees legal practice as contingent upon relationship and emotion and the specific ways in which that perspective was manifest in changing times and contexts
