Great speeches of the 20th century: Emmeline Pankhurst's Freedom or death

This speech was delivered in Hartford, Connecticut on November 13 1913

I do not come here as an advocate, because whatever position the suffrage movement may occupy in the United States of America, in England it has passed beyond the realm of advocacy and it has entered into the sphere of practical politics. It has become the subject of revolution and civil war, and so tonight I am not here to advocate woman suffrage. American suffragists can do that very well for themselves.

I am here as a soldier who has temporarily left the field of battle in order to explain - it seems strange it should have to be explained - what civil war is like when civil war is waged by women. I am not only here as a soldier temporarily absent from the field at battle; I am here - and that, I think, is the strangest part of my coming - I am here as a person who, according to the law courts of my country, it has been decided, is of no value to the community at all; and I am adjudged because of my life to be a dangerous person, under sentence of penal servitude in a convict prison.

Freedom Of Death:

Freedom or Death Markus Sabo Gabriel, 2024-10-01 This book covers the planned destruction of the Patriot Movement in the United States and the main reasons that caused it The author will demonstrate how easy it was for the Plutocrats to divert this vital patriotic reactionary movement against communism into nationalism and even national socialism By supplying demagogues and counter intelligence to take it over It contains furthermore a perspective on the Crown Virus that started in 2020 and how mankind should face the threat of the new age the Era of Technocracy The reader will learn that the few very important concepts in this book are enough to shake the foundation of the corrupted establishment of this world Its solidity is founded on images and illusions *Freedom or Death* , Love. Life. Death. Freedom. Karolina Magdalena, 2022-09-30 How many times have you snoozed your alarm clock in the morning to postpone living an unhappy life What does happiness mean to you and why is everything else more important What would need to happen for you to finally decide to follow your heart and create the happiest life journey without looking back Karolina finally made the scariest decision that followed her for a while and left her comfortable life behind to reunite with her confused heart Not knowing what her happiness was about she decided to follow the guidance of four big forces Love Life Death and Freedom that took a human form and came together to transform her during an insightful journey all around the world Join Karolina in learning how to discover your path understand love grow your strength through heart breaking moments celebrate life and eventually connect it all together to be happy and feel truly alive In her spiritual memoir Love Life Death Freedom Karolina chronicles her transformative journey in the form of short stories with life lessons inviting you to look into every corner of your heart and reflect on what truly matters in your life *Freedom or death* Emmeline Pankhurst, 2022-05-29 In *Freedom or Death* Emmeline Pankhurst delivers a powerful call to action for women s suffrage articulating the struggles of the early 20th century feminist movement in Britain With a passionate and evocative prose style Pankhurst interweaves personal anecdotes and political rhetoric highlighting the moral imperative of women s rights The text serves not only as a historical document but also as a timeless manifesto that challenges societal norms underscoring the urgent need for equality and justice in a world defined by patriarchy The book s context emerging from a backdrop of political unrest and the rise of radical activism provides a profound lens through which to view the fight for suffrage as not just a women s issue but a broader human rights struggle Emmeline Pankhurst 1858 1928 was a pioneering suffragette whose activism was shaped by her upbringing in a politically conscious household and her subsequent experiences in the women s movement Her experiences including imprisonment for her beliefs and her leadership of the Women s Social and Political Union shaped her resolute stance on militancy as a necessary strategy for change Pankhurst s unwavering determination is a testament to her character making her a formidable figure in the history of social justice *Freedom or Death* is not merely a historical account it is an impassioned appeal that resonates with contemporary audiences Scholars activists and anyone interested in social justice

will find Pankhurst's insights invaluable This book is a reminder of the sacrifices made for progress and serves as a guide for those who continue to fight for equality today

From Death Row to Freedom Phillip A. Hubbard, 2023-06-13 Florida Book Awards Silver Medal for Florida Nonfiction Florida Historical Society Harry T and Harriette V Moore Award An insider's account of a wrongful conviction and the fight to overturn it during the civil rights era This book is an insider's account of the case of Freddie Pitts and Wilbert Lee two Black men who were wrongfully charged and convicted of the murder of two white gas station attendants in Port St Joe Florida in 1963 and sentenced to death Phillip Hubbard a defense lawyer for Pitts and Lee for more than 10 years examines the crime the trial and the appeals with both a keen legal perspective and an awareness of the endemic racism that pervaded the case and obstructed justice Hubbard discusses how the case against Pitts and Lee was based entirely on confessions obtained from the defendants and an alleged eyewitness through prolonged violent interrogations and how local authorities repeatedly rejected later evidence pointing to the real killer a white man well known to the Port St Joe police The book follows the case's tortuous route through the Florida courts to the defendants' eventual exoneration in 1975 by the Florida governor and cabinet *From Death Row to Freedom* is a thorough chronicle of deep prejudice in the courts and brutality at the hands of police during the civil rights era of the 1960s Hubbard argues that the Pitts Lee case is a piece of American history that must be remembered along with other similar incidents in order for the country to make any progress toward racial reconciliation today Publication of this work made possible by a Sustaining the Humanities through the American Rescue Plan grant from the National Endowment for the Humanities

Dying for Freedom Jacob Dlamini, 2024-07-09 What happens when death becomes the ultimate marker of one's commitment to one's freedom What happens when the opposite of freedom is not unfreedom but death not slavery but mortality How are we to think of the right to life when a political demand for dignity and honor might be more important than life itself *Dying for Freedom* explores these questions by drawing on archival evidence from South Africa to show how death and conflicting notions of sacrifice dominated the struggle for political equality in that country This political investment in death as a marker of commitment to the anti-apartheid struggle encouraged a masculinist style of politics in which the fight for freedom was seen and understood by many activists as a struggle literally for manhood This investment generated a notion of political sacrifice so absolute that anything less than death was rendered suspect More importantly it resulted in a hierarchy of death whereby some deaths were more important than others and where some deaths could be mourned and others not This highly original account of the necropolitics of the liberation struggle will be of interest to students and scholars throughout the humanities and social sciences and to anyone interested in South Africa

Death as Transformation Dr Henry L Novello, 2013-06-28 A key tenet of Christian faith is that the crucifixion of Jesus Christ is a unique death by which the powers of death in the world have been conquered so that Christian life in the Spirit is marked by the promise and hope of new life already anticipated in the community of baptized believers Notwithstanding this basic tenet regarding the Christian life as a participation in the redemptive death of Jesus Christ theology in the past as well as much contemporary theology tends to assign no salvific significance to the event of our own death focusing instead on death in negative terms as the wages of sin This work is a significant retort to theological neglect both Catholic and Protestant of the positive and transformative aspect of our death when conceived as a dying into the redemptive death of Jesus Christ The development of Henry L Novello s proposed theology of death takes place in conversation with the pre eminent contemporary contributors to this field of theological inquiry By offering comprehensive critiques of Karl Rahner Hans Urs von Balthasar Karl Barth Eberhard J ngel and J rgen Moltmann Novello painstakingly pieces together a positive construal of death as salvific and transformative What is

especially distinctive about Novello's work is that he develops the idea of death as a sharing in the admirable exchange of natures in the person of Jesus Christ from which emerges his theory of resurrection at death for all. The reach of the work is extended by exploring some pastoral and liturgical implications of a theology of death conceived as the privileged moment for the actualization of God's grace in Jesus Christ and thus being created anew in the power of the Spirit. *Death to Freedom* Keith Hickman, 2008-08-27

Death to freedom is a short story that starts in the future and ends in the past. This is the first of two novels. This first novel is about the near future where society has been transformed. A common man writes a compelling article about how to fix society. This article takes notice and a movement that radically takes over all the world's governments and abolishes religion. The New World Social Society (N.W.S.S.) is a Social Fascist Regime that takes over the whole world. A person's ability to master skill levels in the educational system determines a person's placement in society. The story revolves around a group of teenagers and their grandparents. The teens are all in different parts of the educational system while their grandparents live in a commune outside of the city. The grandparents' commune is comprised of retired military and scientists. They are working in a secret underground complex trying to produce a black hole in order to find another planet to live on. All the while the N.W.S.S. is getting closer to finding them out. The next novel is about them going back in time to ancient Greece in search of Atlantis. If they can't find it, then they are going to make their own. **Breaking the Thread of Life** Robert Laurence Barry, 1994-01-01

Suicide and how civilized people should respond to it is an increasingly controversial topic in modern society. In Holland, suicide is the third leading cause of death of people between the ages of fifteen and forty. In the United States, it is the second leading cause of death among older teenagers. Laws prohibiting assisted suicide are being directly and boldly confronted by activists in the United States, most notably Jack Kevorkian. Meanwhile, the American Civil Liberties Union has publicly declared suicide a fundamental human right that should be protected under the Constitution. The Hemlock Society has introduced referenda in California, Washington, and Oregon to legalize suicide and assisted suicide. The most vocal opposition to these initiatives has come from the Roman Catholic Church. *Breaking the Thread of Life* marshalls philosophical, moral, medical, historical, and theological arguments in support of the Roman Catholic position against suicide. In a comprehensive study of the history of suicide, Barry shows that Christian civilization was one of only a few early societies that was able to bring suicide under control. He counters claims that Catholicism and the Bible endorse rational suicide. Barry also analyzes arguments in support of the rationality of suicide and illuminates their biases, inadequacies, and dangers. Barry presents the rationale for the Roman Catholic Church's strong, extensive, and articulate opposition to efforts to gain legal and social endorsement of suicide and assisted suicide. His book represents the most complete study of the classical Roman Catholic view of rational suicide to date and it will be of significant interest to philosophers, theologians, physicians, and lawyers. *The Contradictions of Freedom* Sally J. Perspectives considers how these two faith communities have historically addressed freedom Through a series of essays historical and scriptural texts and reflections this unique interreligious dialogue provides needed context for deeper understanding of interfaith relations from ancient to modern times **Death, Time and the Other** Saitya Brata Das,2020-01-27 This book addresses the limits of metaphysics and the question of the possibility of ethics in this context It is divided into six chapters the first of which broadens readers understanding of difference as difference with specific reference to the works of Hegel The second chapter discusses the works of Emmanuel Levinas and the question of the ethical In turn the concepts of sovereignty and the eternal return are discussed in chapters three and four while chapter five poses the question of literature in a new way The book concludes with chapter six The book represents an important contribution to the field of contemporary philosophical debates on the possibility of ethics beyond all possible metaphysical and political closures As such it will be of interest to scholars and researchers in both the humanities and social sciences Beyond the academic world the book will also appeal to readers journalists intellectuals social activists etc for whom the question of the ethical is the decisive question of our time **The Indian Quarterly Register** ,1929 **A Strange Freedom** Howard Thurman,1999-07-01 A spiritual advisor to Martin Luther King Jr the first black dean at a white university cofounder of the first interracial pastored intercultural church in the United States Howard Thurman offered a transcendent vision of our world This lyrical collection of select published and unpublished works traces his struggle with the particular manifestations of violence and hatred that mark the twentieth century His words remind us all that out of religious faith emerges social responsibility and the power to transform lives **The Freedom to Choose Life** Scott W. Gustafson,2024-05-28 In *The Brothers Karamazov* Fyodor Dostoevsky proposes ministry as the way to resist and overcome the world's evil He employs two plotlines to do so The action plot concerns the events surrounding the murder of Fyodor Karamazov All evidence points to Dmitri Karamazov Rational circumstantial evidence convicts him yet the reader knows he is innocent The ministry plot occurs in this dark context where small acts of love are performed by The Elder Zosima Alyosha Karamazov and many others These acts of love all answer this unspoken question What can be said and done in Jesus name that opens the future to new possibilities in contexts heretofore deemed closed and without hope Asking and answering this question is the essence of ministry and since the question can be asked in any context ministry is possible anywhere Dostoevsky's unabashed antisemitism however undermines his brilliant analysis The concluding chapters document how unconfessed sins like antisemitism exert a death dealing power that undermines our cultures our communities and our ministries *The Freedom to Choose Life* shows how ministry resists and overcomes evil by these small acts of love and by the global effects of repenting of humanity's unconfessed sins *The Institutes of Vishnu* Julius Jolly,1900 **The Bhagavadgita with the Sanatsugatiya and the Anugita.
