Iran And The Former Soviet South:

Iran and the Former Soviet South Edmund Herzig, 1995 In the immediate aftermath of the break up of the USSR there was widespread concern that Iran would seize the opportunity to export its ideology of Islamic Revolution to the destabilized region This paper suggests however that Iran s policy has been driven more by domestic economic concerns the desire to break out of international isolation and a determination not to jeopardise the important relationship with Russia It examines Iran s political economic and ideological interests in the new states across its northern borders and also considers Central Asian and Transcaucasian perceptions of the benefits and problems of developing links with Iran Iran's Foreign Policy in the Post-Soviet Era Shireen T. Hunter, 2010-05-20 A comprehensive exploration of postrevolution Iranian foreign policy analyzes the country s relations with key nations and regions and the impact of both Iran s domestic situation and the developing global system Iran s Foreign Policy in the Post Soviet Era Resisting the New International Order provides the first truly comprehensive in depth survey of Iranian foreign policy issue by issue and country by country since the Islamic Revolution To help readers understand both the what and the why of Iran s role in the world and formulate useful responses to that role the author provides a detailed analysis of Iranian foreign policy in all its dimensions The first part of the book places Iranian actions particularly its relations with the United States and other key players within the context of the emerging international system while also showing how domestic developments impact foreign policy The second part surveys Iranian relations with specific actors notably the United States and Russia and with key regions including Europe Central Asia the Arab world Latin America and Africa Providing an antidote to existing preconceptions this incisive analysis lays an analytically sound basis for shaping policies toward Iran policies with potentially high payoff in terms of regional security and stability Central Asian Security Roy Allison, Lena Jonson, 2004-05-13 This volume is the first comprehensive scholarly analysis of the strategic reconfiguration of Central Asia as Russia has become more disengaged from the nations in the region and as these nations have developed new relations to the south east and west The international implications are enormous because of the rich energy sources oil and natural gas located in the Caspian Sea area The authors assess a variety of internal security policy challenges confronting these states for example the potential for conflict arising from such factors as a mixed ethnic population resource scarcity particularly in relation to water management and an Islamic revival They also examine the security policy content of relations between the Central Asian states and regional and international powers specifically the stakes interests and policies of Russia China Iran Turkey and the United States These internal challenges and the evolution of relations with external powers may result in new cooperative relationships but they may also lead to destabilizing rivalry and interstate enmity in Central Asia It is important to identify new patterns of relevance for future security cooperation in the region but the potential for a new security system or for new institutions to manage security in the region remains uncertain These issues are explored by a team of prominent specialists from Western Europe the United

States Russia and China **Iran's Policies Toward Central Asia and the Caucasus** Dr. Ahmed Daifullah al-Garni, 2024-12-09 In a striking departure from its traditional foreign policy approach Tehran's pragmatic stance toward Central Asia and the Caucasus is analyzed in compelling detail in Iran's Policy Toward Central Asia and the Caucasus Investing in Opportunities and Ousting Competitors Infused with historical depth the book explains the complex geopolitics of the region known as Eurasia the longstanding great power competition that continues to prevail and Iran's ambitions to entrench its influence across the countries of the region Iran's soft power policy toward the region's countries is discussed as well as the cultural and linguistic commonalities Iran shares with the region which it uses as a basis to expand relations in an attempt to strengthen its battered economy break its international isolation and contain the advancement of regional rivals like Turkey and Saudi Arabia The book includes an in depth examination of several prominent issues such as Iran's interests in the resources of the Caspian Sea the highly prized energy pipeline projects passing through the region the International North South Transport Corridor Iran's inclusion in prominent regional blocs and the impact of Iran's role in the Second Nagorno Karabakh War **After Empire** Jed C. Mehrabi,2007-11-30 Iran and Its Place among Nations takes a bird s eye view of where Iran has been in the international community where it is today and where it may ideally end up in the future Is Iran an Eastern country bound by traditions that hinder economic development Or does it also have some attributes of Western countries given its history geographic location culture and politics Among the key insights in this book is the observation that Iran is a bridge between East and West Is Iran a fomenter of Islamic radicalism in the Middle East and beyond or can it be a promoter of moderation and reform within its own borders and in other Muslim countries How effectively can the religious and national sources of Iran s identity be reconciled or must the country choose one over the other and overcome the inherent tensions of this dual identity This book addresses these and similar questions regarding one of the most important and newsworthy countries in the world Combining description and prescription the authors shed light on the tumultuous history of Iran in the twentieth century and uncover the domestic and foreign factors that have aided and retarded the country s development in modern times Providing a close look at the backgrounds and identities of key pre and post revolutionary leaders in Iran the authors make insightful recommendations to Iranians and the international community on how to integrate Iran into harmonious and stable relationships that benefit Iranians the region that surrounds them and the world Grounded in solid scholarship yet written accessibly this is a must read for all Iran watchers today Reformers and Revolutionaries in Modern Iran Dr Stephanie Cronin,2013-04-15 Even though the left has never held power in Iran its impact on the political intellectual and cultural development of modern Iran has been profound This book s authors undertake a fundamental re examination and re appraisal of the phenomenon of leftist activism in Iran interpreted in the broadest sense throughout the period of its existence up to and including the present 30 Years since the Fall of the Berlin Wall Alexandr Akimov,Gennadi Kazakevitch,2020-01-08 The year 2019 marks 30 years since the fall of the Berlin wall This symbolic event led to German unification and the collapse of communist party rule in countries of the Soviet led Eastern bloc Since then the post communist countries of Central Eastern and South eastern Europe have tied their post communist transition to deep integration into the West including EU accession Most of the states in Central and Eastern Europe have been able to relatively successfully transform their previous communist political and economic systems In contrast the non Baltic post Soviet states have generally been less successful in doing so This book with an internationally respected list of contributors seeks to address and compare those diverse developments in communist and post communist countries and their relationship with the West from various angles The book has three parts The first part addresses the progress of post communist transition in comparative terms including regional focus on Eastern and South Eastern Europe CIS and Central Asia The second focuses on Russia and its foreign relationship and internal politics The third explores in detail economies and societies in Central Asia The final part of the book draws some historical comparisons of recent issues in post communism with the past experiences **Russia, the Caucasus, and Central Asia** Rajan Menon,Yuri E. Fedorov,Ghia Nodia,East West

Insitute,2016-07-01 This comprehensive exploration of the international environment examines not only traditional political military concerns but also economic ethnic and environmental issues and the role of crime terrorism the drug trade and migration in the security environment of Russia and its neighbours to the south This approach takes account of both the internal and external aspects of security problems and their interplay The participation of international authors facilitates the consideration of each problem from all relevant points of view **Rus, Caucasus, C.as: 21st Cent Sec Env ,**

Iran-U.S.S.R. Boundary United States. Department of State. Office of the Geographer,1963 Negotiating Armenian-Azerbaijani Peace Ohannes Geukjian,2016-04-22 Conflict resolution conflict management and conflict transformations are major themes in this unique book which examines explores and analyses the mediation attempts of the Organization for Security and Cooperation in Europe in the Nagorno Karabakh conflict Ohannes Geukjian shows the most striking characteristic of a protracted internal conflict such as this is its asymmetry and explains that without meeting basic human needs like identity recognition security and participation resolving any protracted social conflict is very difficult The Armenian Azerbaijani case demonstrates how official diplomacy may not be able to solve protracted internal conflicts as without addressing the real causes of the problematic relationship attempts at peace making will always be sporadic and the space for mutual understanding and compromise shrink Geukjian shows that conflict transformation has a particular salience in asymmetric conflicts such as this where the goal is to transform unjust relationships and where a high degree of polarisation between the disputants has taken root Using the Nagorno Karabakh case this book focuses on the anatomy and causes of deadlock in negotiations and highlights the many difficulties in achieving a breakthrough Iran in a Reconnecting Eurasia Mohsen Milani,2016-04-27 Iran in a Reconnecting Eurasia examines the full scope of Iranian national interests in the South Caucasus and Central Asia and analyzes the broad outlines of Iranian engagement over the coming years It is part of a six part CSIS series Eurasia from the Outside In which includes studies focusing on Turkey the European Union Iran India Russia and China **Small Nations and Great Powers** Svante Cornell,2005-06-28 A thorough in depth analysis of the current and potential conflicts in the Caucasus including the geographical historical and ethno linguistic framework of the Caucasus the individual conflicts and the place of the Caucasus in world affairs **Turkey's Foreign Policy in the 21st Century** Mustafa Aydin,2019-06-04 Title first published in 2003 In this insightful book the authors explore Turkey s role within a globalizing world and as a new century unfolds examine a nation at the crossroads of both time and space within the international political order Chapters consider Turkey s policy history its prospects and policy issues and discuss them with positive alternatives outlined for Turkish policy makers and the academics who examine them **Turkish-Iranian Relations in a Changing Middle East** F. Stephen Larrabee,Alireza Nader,2013-08-26 Turkish Iranian cooperation has visibly intensified in recent years thanks in part to Turkish energy needs and Iran s vast oil and natural gas resources However Turkey and Iran tend to be rivals rather than close partners While they may share certain

economic and security interests especially regarding the Kurdish issue their interests are at odds in many areas across the Middle East Turkey's support for the opposition in Syria Iran's only true state ally in the Middle East is one example Iraq has also become a field of growing competition between Turkey and Iran Iran's nuclear program has been a source of strain and divergence in U.S. Turkish relations However the differences between the United States and Turkey regarding Iran's nuclear program are largely over tactics not strategic goals Turkey's main fear is that Iran's acquisition of nuclear arms could lead to a nuclear arms race in the Middle East This in turn could increase pressure on the Turkish government to consider developing its own nuclear weapon capability U.S. and Turkish interests have become more convergent since the onset of the Syrian crisis However while U.S. and Turkish interests in the Middle East closely overlap they are not identical Thus the United States should not expect Turkey to follow its policy toward Iran unconditionally Turkey has enforced United Nations sanctions against Iran but given Ankara's close energy ties to Tehran may be reluctant to undertake the harshest measures against Iran

Transitions in Post-Soviet Eurasia Archana Upadhyay, 2021-08-23 This book discusses the ideological and historical relevance of the term Eurasia as a concept in the global geopolitical and ethno cultural discourse It focuses on the contested meanings attached to the idea and traces its historical evolution and interpretations The volume examines the contours and characteristics of power politics in the Eurasian landscape by exploring the dynamics of the contending and competing interests that have come to occupy the region particularly in the aftermath of the disintegration of the Soviet Union It further examines the multiple narratives that define the socio political realities of the region and also the policies of the state actors involved by reflecting upon the multifaceted dimensions of the Eurasian issues These include nation building strategies identity ethnic conflicts security democratization globalization international migration climate change and energy extraction The geopolitical and civilizational aspects of Eurasianism in which Russia occupies a pivotal geo political place creates both opportunities and anxieties for other stakeholders in the region The book also holistically analyses the developmental dimensions of the post Soviet space and Eurasianism as a concept and political practice in domestic regional and global affairs The book also analyses the developmental dimensions of the post Soviet space and Eurasianism as a concept and political practice in domestic regional and global affairs

Nuclear Iran: The Birth of an Atomic State David Patrikarakos, 2020-12-17 The Iranian nuclear crisis has dominated world politics since the beginning of the century with the country now facing increasing diplomatic isolation talk of military strikes against its nuclear facilities and a disastrous Middle East war What is Iran's nuclear programme all about What is its genesis There is little real understanding of Iran's nuclear programme in particular its history which is now over fifty years old This ground breaking book is unprecedented in its scope It argues that the history of Iran's nuclear programme and the modern history of the country itself are irretrievably linked and only by understanding one can we understand the other From the programme's beginnings under the Shah of Iran the book details the central role of the US in the birth of nuclear Iran and through the relationship

between the programme's founder and the Shah of Iran himself the role that nuclear weapons have played in the programme since the beginning The author's unique access to the father of Iran's nuclear programme as well as to key scientific personnel under the early Islamic Republic and to senior Iranian and Western officials at the centre of today's negotiations sheds new light on the uranium enrichment programme that lies at the heart of global concerns What emerges is a programme that has for a variety of reasons a deep resonance to Iran This is why it has persisted with it for over half a century in the face of such widespread opposition Drawing on years of research across the world David Patrikarakos has produced the most comprehensive examination of Iran's nuclear programme in all its forms to date
