**Tara's Exposé** Tom O Connor, 2023-12-08 This work stretches from deep prehistoric times up to the 12th century AD and beyond After a short preamble from the Megalithic to the Bronze Age scanning Tara's Golden Age it deals with Celtic Europe's decline due to Roman and Germanic conquest It follows Celtic tribes fleeing to Britain and Ireland where they set up settlements Ptolemy of Alexandria's 2nd century record debunks early Irish pseudo history and ratifies the archaic Ulidian

Tales This work exposes the monumental hoax projecting Tara of Meath as the capital of Ireland and the seat of the High Kingship The work draws on a compelling compilation of acclaimed authors and specialist studies that list the aforesaid as a medieval forgery Prehistoric Tara had a much older status an archaic Golden Age This work tracks extensive research and archaeological analysis into British oppida from which Celtic Belgic tribes migrated and set up similar oppida in Ireland A concentration on the early history of these neglected areas was at the core of the early Irish historical records Ireland, Sweden, and the Great European Migration, 1815-1914 Donald Harman Akenson, 2011-08-23 This book is the product of Donald Akenson's decades of research and writing on Irish social history and its relationship to the Irish diaspora it is also the product of a lifetime of trying to figure out where Swedish America actually came from and why These two matters Akenson shows are intimately related Ireland and Sweden each provide a tight case study of a larger phenomenon one that for better or worse shaped the modern world the Great European Diaspora of the true nineteenth century Akenson's book parts company with the great bulk of recent emigration research by employing sharp transnational comparisons and by situating the two case studies in the larger context of the Great European Migration and of what determines the physics of a diaspora no small matter as the concept of diaspora has become central to twenty first century transnational studies He argues against the increasing refusal of mainstream historians to use empirical databases that the history community still has a lot to learn from economic historians and simultaneously that despite the self confidence of their proponents narrow economically based explanations of the Great European Migration leave out many of the most important aspects of the whole complex transaction Akenson believes that culture and economic matters both count and that leaving either one on the margins of explanation yields no valid explanation at all Readers' Guide to Periodical Literature, 1910 *Historical Bibliography as an Essential Source for Historiography* Bernadette Cunningham, Václava Horčáková, Kristina Rexová, 2015-10-05 This volume brings together papers presented at the Fifth International Conference of the European Historical Bibliographies Project held in Prague on November 7-8 2013 under the auspices of the Department of Historical Bibliography of the Institute of History of the Academy of Science of the Czech Republic The conference attracted bibliographers historians and librarians from Denmark France Ireland Lithuania Germany Switzerland and from a number of Czech institutions and libraries who gathered to discuss a wide range of topics The main theme of the conference was the significance of historical bibliography for historical science Given the diversity of professional focus among the conference participants this topic was approached and examined from a variety of viewpoints The most important outcomes of these meetings were firstly explaining the way individual participating organisations dealt with historical bibliography and secondly providing a comparison of different methodological and technological approaches for processing specialized bibliographies in various European countries This book introduces the wider public to the current shape and prospects of historical bibliography projects across a range of European countries Obviously such projects must reflect the needs of their

users which mainly comprise historians and librarians The ongoing development of historical bibliography does not only involve a technical challenge but also a methodological one as well as a societal one when interpreted in a broader context Mutual communication helps form the future direction of historical bibliography which will undoubtedly face many new tasks and challenges

**The Oxford Handbook of Religion in Modern Ireland** Gladys Ganiel,Andrew R. Holmes,2024 This volume offers a range of sociological political and historical perspectives on religion in Ireland from 1800 to the present Going beyond the usual Catholicism Protestantism dichotomy and adopting an all island approach the book s contributors address religion s interaction with several contemporary themes and debates in modern Ireland

European Civil War Films Eleftheria Rania Kosmidou,2013 This book examines the ways in which late twentieth century European cinema deals with the neglected subject of civil war Exploring a range of films about the Spanish Irish former Yugoslavia and Greek civil wars this comparative and interdisciplinary study engages with contemporary debates in cultural memory and investigates the ways in which cinematic postmemory is problematic Many of the films present an idealized past that glosses over the reality of these civil wars at times producing a nostalgic discourse of loss and longing Other films engage with the past in a melancholic fashion These cinematic discourses articulate contemporary concerns especially the loss of ideology and a utopian political horizon in the aftermath of the collapse of the Soviet bloc in 1989 a date that marks a significant break in European history and an accompanying paradigm shift in European cultural memory Filmmakers examined include Trueba Cuerda Loach Jordan Kusturica Dragojevic and Angelopoulos

**Nationalism in Ireland** D. George Boyce,2003-09-02 Boyce examines the relationship between ideas and political and social reality A new final chapter considers the development of nationalism in both parts of Ireland and places the phenomenon of nationalism in a contemporary and European setting

**Wood Quay** Thomas F. Heffernan,1988-10-01 An urban archaeologist working anywhere in the world can imagine this scenario armed with a small digging tool and a soft brush the archaeologist stands at a freshly cut trench facing off a construction crew driving bulldozers At stake is the past the discovery and preservation of our history Across the gap is the future progress and new buildings for a modern world A battle ensues It happened in Dublin in the early 1960s While investigating and salvage excavating the site for a new municipal office complex archaeologists made one of the most important and exciting discoveries in Ireland s history Buried beneath the present day city of Dublin was the original Viking settlement from the ninth or tenth century in an extraordinary state of preservation houses undecayed wood domestic furniture jewelry toys tools works of art coins plots paths a veritable map of the medieval town Because of its impressive size and state of preservation the site known as Wood Quay was not an ordinary kind of archaeological discovery nor was the battle that followed typical What made Wood Quay unique was that its defender was not the archaeological authority the

National Museum of Ireland as is usually the case but rather a spontaneously formed movement of thousands of Dubliners. While the museum was ready to turn the site over to the city's developers after routine salvage work had been done, a group of prominent literary and political figures seized Wood Quay, holding it for almost a month and preventing bulldozers from moving in. Realizing the significance of the find, the people of Dublin took charge and kept the builders at bay for eight years. At the same time, they were able to press the museum to return to its archaeological work there. Archaeologists ultimately were able to complete good maps of a large portion of the site and recover between one and two million artifacts. Today the completed Dublin civic office complex stands on the Wood Quay site, fully landscaped and without a trace of the archaeological gold mine that once lay buried below. What does remain, however, is the memory of the powerful impact the citizens of Dublin had in demanding and establishing the connection through Wood Quay to their medieval roots. Of interest to archaeologists, historic preservationists, and city planners alike, this fascinating and beautifully written account will also engage the general reader.

**Narrating Peoplehood amidst Diversity** Michael Böss, 2011-10-15. Telling stories is an essential part of being human. We tell stories about ourselves to show other people who we are and where we belong. Nations have stories to tell, too, stories of peoplehood that build and maintain a sense of national belonging and identity. The concept has been used to analyse identities, memories, and histories of individuals, communities, and nations. But does it make sense to talk about peoplehood today? Can plural societies tell national stories without marginalizing their minorities? And is it even fair to assume that our individual self-narratives are coupled with shared cultural ones? In *Narrating Peoplehood amidst Diversity*, 16 internationally renowned scholars reflect on the nature and history of peoplehood and discuss how it forms part of national identities, public culture, and academic historiography. Based on theoretical analysis and empirical studies drawn from Latinos in the United States and African immigrants in France and from multicultural stands in Canada to grand narratives in Danish history, the book is a timely contribution to the ongoing debate on belonging and identification in multicultural societies.
