New Perspectives on African Childhood De-Valera N.Y.M. Botchway,Awo Sarpong,Charles Quist-Adade,2019-03-05 What does it mean to be a child in Africa In the detached Western media narratives of penury wickedness and death have dominated portrayals of African childhood The hegemonic lens of the West has failed to take into account the intricacies of not only what it means to be an African child in local and culturally specific contexts but also African childhood in general Challenging colonial discourses this edited volume guides the reader through different comprehensions and perspectives of childhood in Africa Using a blend of theory empiricism and history the contributors to this volume offer studies from a range of fields including African literature Afro centric psychology and sociology Importantly in its eclectic geographical coverage of Africa this book unashamedly presents the good the bad and the ugly of African childhood The resilience creativity pains and triumphs of African childhood are skilfully woven together to present the myriad of lived experiences and aspirations of children from across Africa As an important contribution to African childhood studies this book has the potential to be used by policymakers to shape sustain or change socio cultural economic and education systems that accommodate African childhood dynamics and experiences at different levels **New Perspectives on XML, Comprehensive** Patrick

Key-Stroke Logging and Writing Kirk Sullivan,Eva Lindgren,2021-10-25 Computer keystroke logging is an exciting development in writing research methodology that allows a document s evolution to be logged and then replayed as if the document were being written for the first time Computer keystroke logged data allows analysis of the revisions and pauses made by authors during the writing of texts Computer Keystroke Logging and Writing Methods and Applications is the first

book to successfully collect a group of leading computer keystroke logging researchers into a single volume and provide an invaluable introduction and overview of this dynamic area of research This volume provides the reader unfamiliar with writing research an introduction to the field and it provides the reader unfamiliar with the technique a sound background in keystroke logging technology and an understanding of its potential in writing research **InfoWorld** ,1999-07-12 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects *Reading China Against the Grain* Carlos Rojas,Mei-hwa Sung,2020-10-28 Through an analysis of a wide array of contemporary Chinese literature from inside and outside of China this volume considers some of the ways in which China and Chineseness are understood and imagined Using the central theme of the way in which literature has the potential to both reinforce and to undermine a national imaginary the volume contains chapters offering new perspectives on well known authors from Jin Yucheng to Nobel Prize winning Mo Yan as well as chapters focusing on authors rarely included in discussions of contemporary Chinese literature such as the expatriate authors Larissa Lai and Xiaolu Guo The volume is complemented by chapters covering more marginalized literary figures throughout history such as Macau born poet Yiling the Malaysian born novelist Zhang Guixing and the ethnically Korean author Kim Hak ch l Invested in issues ranging from identity and representation to translation and grammar it is one of the few publications of its kind devoting comparable attention to authors from Mainland China authors from Manchuria Macau and Taiwan and throughout the global Chinese diaspora *Reading China Against the Grain Imagining Communities* is a rich resource of literary criticism for students and scholars of Chinese studies sinophone studies and comparative literature **Headline News, Science Views II** National Research Council,1993-02-01 Why all the talk about biodiversity Is malaria really making a comeback Just what are computer viruses Many Americans are confused about these and other issues involving science technology and health care But they lack the time or technical background to read scientific reports *Headline News Science Views II* provides short readable answers directly from the experts Leading scientists engineers and others discuss today s issues in language that is understandable and compelling without jargon This engaging book can be warmly recommended to card carrying scientists and laypeople alike *New Scientist* wrote about the first edition of *Headline News Science Views* Try the opening items and say goodbye to your next couple of hours Now in a completely new edition packed with 75 engaging articles *Headline News Science Views II* probes further into scientific issues behind today s headlines issues like highway safety global warming industrial competitiveness and women s health Experts on these and other topics discuss where the problems lie and how to fix them The essays originally were distributed by the National Academy Op Ed Service and published in more than 250 newspapers Many are tied to studies of the National Academy of Sciences National Academy of Engineering Institute of Medicine and National Research Council Together they make ground breaking scientific achievement accessible fascinating and fun *What Does the Bible Say?* Mary Ann Beavis,HyeRan Kim-Cragg,2017-04-25

This book is a collaboration between a biblical scholar Mary Ann Beavis and a practical theologian HyeRan Kim Cragg who are concerned with the way that the Bible is portrayed and interpreted in popular culture including but not limited to the movies This concern points to a need for a conversation examining what the Bible actually says in order to uncover transformations and distortions of the biblical stories in the wider culture including Christian culture Our conversation is counter cultural not in an oppositional way but taking an alternative posture that aims to provide different insights by drawing from and closely looking at the Bible The chapters take a Christian canonical approach articulating what the Bible says and doesn't say with regard to culturally pervasive themes such as sin and salvation Christ and Antichrist heaven and hell in contrast to popular understandings as disseminated in primarily film advertising television etc We hope that together we will open up fertile academic ecclesial and secular space for disclosing loaded cultural and ideological views towards offering positive and intriguing insights embedded in the Bible

**The Routledge Handbook of English Language and Digital Humanities** Svenja Adolphs, Dawn Knight, 2020-04-16 The Routledge Handbook of English Language and Digital Humanities serves as a reference point for key developments related to the ways in which the digital turn has shaped the study of the English language and of how the resulting methodological approaches have permeated other disciplines It draws on modern linguistics and discourse analysis for its analytical methods and applies these approaches to the exploration and theorisation of issues within the humanities Divided into three sections this handbook covers sources and corpora analytical approaches English language at the interface with other areas of research in the digital humanities In covering these areas more traditional approaches and methodologies in the humanities are recast and research challenges are re framed through the lens of the digital The essays in this volume highlight the opportunities for new questions to be asked and long standing questions to be reconsidered when drawing on the digital in humanities research This is a ground breaking collection of essays offering incisive and essential reading for anyone with an interest in the English language and digital humanities

Forthcoming Books Rose Arny, 2003-04 Religion and Art Davor Džalto, 2019-06-18 How can we think of the aura of sacred contexts and sacred works How to think of individual and collective esthetic religious experiences What to make of the manipulative dimension of religious and esthetic auratic experiences Is the work of art still capable of mediating the experience of the sacred and under what conditions What is the significance of the eschatological dimension of both art and religion the sense of ending Can theology offer a way to reaffirm the creative capacities of the human being as something that characterizes the very condition of being human This Special Issue aspires to contribute to the growing literature on contemporary art and religion and to explore the new ways of thinking of art and the sacred in their esthetic ideological and institutional dimensions in the context of contemporary culture
