## **Irony In The Medieval Romance:**

**Irony in the Medieval Romance** Dennis Howard Green, 1979 Examination of the role played by irony in one particular medieval genre the romance The author discusses the themes to which irony is applied the types of irony most commonly employed and the reasons social and aesthetic for the prevalence of irony in this genre [The Critical Mythology of Irony](#) Joseph A. Dane, 2011 An ambitious theoretical work that ranges from the age of Socrates to the late twentieth century this book traces the development of the concepts of irony within the history of Western literary criticism Its purpose is not to promote a universal definition of irony whether traditional or revisionist but to examine how such definitions were created in critical history and what their use and invocation imply Joseph A Dane argues that the diverse supposed forms of irony Socratic rhetorical romantic dramatic to name a few are not so much literary elements embedded in texts awaiting discovery by critics as they are notions used by critics of different eras and persuasions to manipulate those texts in various often self serving ways The history of irony Dane suggests runs parallel to the history of criticism and the changing definitions of irony reflect the changing ways in which readers and critics have defined their own roles in relation to literature Probing and provocative [The Critical Mythology of Irony](#) will appeal to a broad spectrum of critics and scholars particularly those concerned with the historical basis of critical language and its political and educational implications [A Companion to Old and Middle English Literature](#) Laura Lambdin, Robert Thomas Lambdin, 2002-06-30 Old and Middle English literature can be obscure and challenging So too can the vast body of criticism it has elicited Yet the masters of medieval literature often drew on similar texts since imitation was admired For this reason recent scholarship has often focused on the importance of genre The genre in which a work was written can illuminate the author's intentions and the text's meaning Read in light of a genre's parameters a given work can be considered in relation to other works within the same category This reference is a comprehensive overview of Old and Middle English literature Chapters focus on particular genres such as Allegorical Verse Balladry Beast Fable Chronicle Debate Poetry Epic and Heroic Lyric Middle English Parody Burlesque Religious and Allegorical Verse and Romance Expert contributors define the primary characteristics of each genre and discuss relevant literary works Chapters provide extensive reviews of scholarship and close with detailed bibliographies A more thorough bibliography of major scholarly studies closes the book [Jane Austen's Romantic Medievalism](#) Tiffany Schubert, 2023-11-28 While Jane Austen is often regarded as an author who embodies Georgian refinement and restraint this book argues that her work was deeply engaged with the medieval tradition of courtly love and its investment in happy endings Revealing the influence of romance on Persuasion Emma and other novels this study provides new insights into Austen's narrative style representations of gender and complex interest in happiness as both an affective and moral state As Austen reimagines courtly love in her own idiom she upends traditional gender roles portraying women not as fine ladies but as rational creatures Drawing on the structures of Christian narrative she also illuminates the centrality of providence as a virtue that

bestows grace on her characters offering them deliverance and happiness To be sure Austen famously ironizes romance criticizing emotional excess and downplaying conventionally romantic scenes This study nonetheless finds creative power in her irony showing how Austen's critique of romance is rooted in the paradoxes of Christian theology which allow for both human suffering and divine order In reframing key ethical and generic conventions of the medieval past Austen's ironic providentially arranged romances educate readers into wisdom and joy

**From Exegesis to Irony** Mary Carol Shumate, 1974 Paradoxes of Conscience in the High Middle Ages Peter Godman, 2009-06-04 The autobiographical and confessional writings of Abelard Heloise and the Archpoet were concerned with religious authenticity spiritual sincerity and their opposite fictio a composite of hypocrisy and dissimulation lying and irony How and why moral identity could be feigned or falsified were seen as issues of primary importance and Peter Godman here restores them to the prominence they once occupied in twelfth century thought This book is an account of the relationship between ethics and literature in the work of the most famous authors of the Latin Middle Ages Combining conceptual analysis with close attention to style and form it offers a major contribution to the history of the medieval conscience

*Counsel and Strategy in Middle English Romance* Geraldine Barnes, 1993 Barnes contends that rule by counsel is central to the ethos of Middle English romance By examining the development of Middle English romance against its background of 13th and 14th century royal baronial conflict this book assumes a new historical perspective Friction between Plantagenet kings and dissident barons contributed to the development of the problem of counsel both as an actuality and as a topos in the literature of the period Rule by counsel an ideal which informs medieval English government at every level is the author argues central to the ethos of Middle English romance The procedural formula of counsel and strategy is tested against a number of romances Ywain and Gawain Havelok Gamelyn Athelston a selection of nine romances from the Auchinleck manuscript and Sir Gawain and the Green Knight By selecting these narratives Geraldine Barnes is able to approach the question of counsel from a number of different angles This is a book which will stimulate considerable interest among scholars of medieval literature

Topsfield,1981-04-02 This 1981 book provides an interpretation of the five Arthurian romances of Chr tien de Troyes It explores how this most enigmatic and influential of medieval romance writers reveals his ideas about man society and God The texts range from Erec and Enide through Cliges to Perceval or Le Conte du Graal The Forest in Medieval German Literature Albrecht Classen,2015-06-03

By pursuing an ecocritical reading The Forest in Medieval German Literature examines passages in medieval German texts where protagonists operated in the forest and found themselves either in conflictual situations or in refuge By probing the way the individual authors dealt with the forest illustrating how their characters fared in this sylvan space the role of the forest proved to be of supreme importance in understanding the fundamental relationship between humans and nature The medieval forest almost always introduced an epistemological challenge how to cope in life or how to find one s way in this natural maze By approaching these narratives through modern ecocritical issues that are paired with premodern perspectives we gain a solid and far reaching understanding of how medieval concepts can aid in a better understanding of human society and nature in its historical context This book revisits some of the best and lesser known examples of medieval German literature and the critical approach used here will allow us to recognize the importance of medieval literature for a profound reassessment of our modern existence with respect to our own forests **The Cambridge Handbook of Irony and Thought** Raymond W. Gibbs, Jr,Herbert L. Colston,2023-12-07

Romance was criticized for its perceived immorality throughout the Renaissance and even enthusiasts were often forced to acknowledge the shortcomings of its dated narrative conventions Yet despite that general condemnation the striking growth in English fiction in the late sixteenth and early seventeenth centuries is marked by writers who persisted in using this much maligned narrative form In Renaissance Romance Nandini Das examines why the fears and expectations surrounding the old genre of romance resonated with successive new generations at this particular historical juncture Across a range of texts in which romance was adopted by

the court by popular print and by women Das shows how the process of realignment and transformation through which the new prose fiction took shape was driven by a generational consciousness that was always inherent in romance In the fiction produced by writers such as Sir Philip Sidney Robert Greene and Lady Mary Wroth the transformative interaction of romance with other emergent forms from the court masque to cartography was determined by specific configurations of social groups drawn along the lines of generational difference What emerged as a result of that interaction radically changed the possibilities of fiction in the period

Morewedge,1975-06-30 Those interested in both the present day role of woman and its historical evolution will find this work an informative and valuable introduction to the topic Focusing on the actual position woman held in medieval society and on the surprisingly diverse representations of her position in literature and the visual arts the six essays collected in this volume reflect concern with the development of her role from classical antiquity and oral illiterate communities on the one hand to Renaissance society on the other Specialists in different fields examine the complexities of topics such as the direct relationship between the longevity of woman and the value society confers upon her the changing functions of woman in illiterate pre literate and literate society the sophisticated portrayal of woman in the courtly romances the implications of man s perception of woman as aesthetic and personal ideal bridging seemingly irreconcilable conflicts woman s conscious assumption of an active role in the political and cultural life of her time and the often caricatured yet nonetheless sympathetic portrayal of woman in the margins of gothic manuscripts The interdisciplinary approach followed in these essays allows the reader interested in a wholistic approach to trace concurrent developments over a long span of time from various perspectives The approach also invites the attention of specialists in medieval social history economics art history the heroic epic and the courtly romance Petrarchism and the transition from late medieval to early French Renaissance literature The essays represent papers delivered at the Sixth Annual Conference of the Center for Medieval and Early Renaissance Studies on The Role of the Woman in the Middle Ages
