Publishers' Weekly ,1877 *Reflexions upon Ridicule; or, what it is that makes a man ridiculous; and the means to avoid it. (Reflections upon the Politeness of Manners ... Being the second part of the Reflexions upon Ridicule.) Translated from the French of J. B. Morvan de Bellegarde* ,1739 *The Line through the Heart* J. Budziszewski,2014-04-29 The suicidal proclivity of our time writes the acclaimed philosopher J Budziszewski is to deny the obvious Our hearts are riddled with desires that oppose their deepest longings because we demand to have happiness on terms that make happiness impossible Why And what can we do about it Budziszewski addresses these vital questions in his brilliantly persuasive new book *The Line Through the Heart* The answers can be discovered in an exploration of natural law a venture that with Budziszewski as our expert guide takes us through politics religion ethics law philosophy and more Natural law the author states plainly but provocatively is a fact about human beings as surely as we have hands and feet we have the foundational principles of good and evil woven into the fabric of our minds From this elemental fact emerges a natural law theory that unfolds as part of a careful study of the human person Thus Budziszewski shows natural law forms a common ground for humanity But this common ground is slippery While natural law is truly an observable part of human nature human beings are hell bent quite literally on ignoring it The mere mention of the obligations imposed on man by his nature will send him into a rage In this sense *The Line Through the Heart* explores natural law as not simply a fact and a theory but also a sign of contradiction While investigating the natural law and its implications Budziszewski boldly confronts and offers a newly integrated view of a wide range of contemporary issues including abortion evolution euthanasia capital punishment the courts and the ersatz state religion being built in the name of religious toleration Written in Budziszewski s usual crystalline style *The Line Through the Heart* makes clear that natural law is a matter of concern not merely to scholars it touches how each of us lives and how all of us live together His profoundly important examination of this subject helps us make sense of why habits that run against our nature have become second nature and why our world seems to be going mad **Commerce** ,1922

Being and Belief Douglas Vickers, 2013-01-30 The confession the church makes to the world sits oddly in the contemporary cultural complex Intellectual fashions in the marketplace of ideas have moved beyond an accommodation of biblical theological categories Philosophy is unsure of its status in an amorphous postmodernism and theology threatens to degenerate into intellectual experimentation They have become mutually suspicious and hesitant of conversation But a heavy fault lies with the church's own confessional status For what is it the church has to say to the world Has it preserved confessional continuity with the Reformation theology that rediscovered its biblical foundations and liberated it from intellectual and confessional shackles Has the church surrendered the possibility of relevance by having lost its own historic identity And is it necessary to conclude as a result that contemporary culture is no longer penetrable by any word from the old wells of divine disclosure In this brief but challenging book Douglas Vickers brings the Christian confession to the forefront of consideration and reestablishes a theology grounded in historic verities sustained by the scriptural declarations In straightforward and accessible terms Being and Belief addresses the meaning of biblical truth for Christian understanding and Christian life

Time, Language, and Ontology M. Joshua Mozersky, 2015-01-29 This book brings together in a novel way an account of the structure of time with an account of our language and thought about time Joshua Mozersky argues that it is possible to reconcile the human experience of time which is centred on the present with the objective conception of time according to which all moments are intrinsically alike He defends a temporally centreless ontology along with a tenseless semantics that is compatible with and indeed helps to explain the need for tensed language and thought This theory of time also it is argued helps to elucidate the nature of change and temporal passage neither of which need be denied nor relegated to the realm of subjective experience only The book addresses a variety of topics including whether the past and future are

real whether temporal passage is a genuine phenomenon or merely a subjective illusion how the asymmetry of time is to be understood the nature of representation how something can change its properties yet retain its identity and whether objects are three dimensional or four dimensional It is a wide ranging examination of recent issues in metaphysics philosophy of language and the philosophy of science and presents a compelling picture of the relationship of human beings to the spatiotemporal world

A Model of Creation Hans J. Zeunert, 2012-11-01 This paperback just as we have with both issues of the Unified Mind Theory is identical to the hardcover issue only its binding is different Two books provide for a greater platform to describe the same thing One looks great on the shelf while the less fancy copy may attract the prudent student Enlightenment for 20 bucks A Model of Creation shows us a new way to look at Creation the universe and the formation of life We are liberated from a narrow 4 dimensional view of the world with its assumption of bigbang and antimatter as the foundation to its evolution We are lifted to a clearer vision where mass is recycled on a continuous basis and therefore by definition not real What is not now does not exist since reality does not change Creation is real It is recessional velocity which drives and shapes the universe

Brains, Buddhas, and Believing Dan Arnold, 2014-04-08 Premodern Buddhists are sometimes characterized as veritable mind scientists whose insights anticipate modern research on the brain and mind Aiming to complicate this story Dan Arnold confronts a significant obstacle to popular attempts at harmonizing classical Buddhist and modern scientific thought since most Indian Buddhists held that the mental continuum is uninterrupted by death its continuity is what Buddhists mean by rebirth they would have no truck with the idea that everything about the mental can be explained in terms of brain events Nevertheless a predominant stream of Indian Buddhist thought associated with the seventh century thinker Dharmakirti turns out to be vulnerable to arguments modern philosophers have leveled against physicalism By characterizing the philosophical problems commonly faced by Dharmakirti and contemporary philosophers such as Jerry Fodor and Daniel Dennett Arnold seeks to advance an understanding of both first millennium Indian arguments and contemporary debates on the philosophy of mind The issues center on what modern philosophers have called intentionality the fact that the mind can be about or represent or mean other things Tracing an account of intentionality through Kant Wilfrid Sellars and John McDowell Arnold argues that intentionality cannot in principle be explained in causal terms Elaborating some of Dharmakirti's central commitments chiefly his apoha theory of meaning and his account of self awareness Arnold shows that despite his concern to refute physicalism Dharmakirti's causal explanations of the mental mean that modern arguments from intentionality cut as much against his project as they do against physicalist philosophies of mind This is evident in the arguments of some of Dharmakirti's contemporaneous Indian critics proponents of the orthodox Brahmanical Mimamsa school as well as fellow Buddhists from the Madhyamaka school of thought whose critiques exemplify the same logic as modern arguments from intentionality Elaborating these various strands of thought Arnold shows that seemingly arcane arguments among first millennium Indian thinkers can illuminate matters still very much

at the heart of contemporary philosophy Slavoj Žižek: Live Theory Rex Butler, 2005-03-04 Slavoj Žižek is undoubtedly one of the world's leading cultural critics. His witty psychoanalytically inspired analyses of contemporary society have almost single-handedly revived the notion of ideology. His brilliant commentaries on the French psychoanalyst Jacques Lacan and the 19th-century German Idealists have brought alive their often difficult ideas for a new generation of readers. But does Žižek have anything to say in his own right? Is there a system of thought that we can properly call Žižekian? This book argues that there is through a reading of two terms in his work: the master signifier and the act. Featuring an interview with Žižek himself, Slavoj Žižek: Live Theory presents a snapshot of the Žižek system, ideal for undergraduates in social and cultural theory and philosophy.
