Is The World Our Campus:

Global Exchanges Ludovic Tournès, Giles Scott-Smith, 2017-10-01 Exchanges between different cultures and institutions of learning have taken place for centuries but it was only in the twentieth century that such efforts evolved into formal programs that received focused attention from nation states empires and international organizations Global Exchanges provides a wide ranging overview of this underresearched topic examining the scope scale and evolution of organized exchanges around the globe through the twentieth century In doing so it dramatically reveals the true extent of organized exchange and its essential contribution for knowledge transfer cultural interchange and the formation of global networks so often taken for granted today *A Righteous Smokescreen* Sam Lebovic, 2022-05-10 In the years immediately after World

War II the United States broadcast to the world not just its power but its values Sam Lebovic here focuses on one of those professed ideals the free flow of information That trope became a proxy for America's special brand of imperial democracy and it both abetted and constituted the spread of American culture and values worldwide By studying visa and passport policy funding for educational exchange and school construction the purchase of land for embassies the rights of international correspondents and other mundane matters Lebovic reveals globalization as a consequence of quotidian world ordering not of high minded abstractions like liberal internationalism **Nazis in the New World** Aaron

Gillette, 2025-05-27 The incredible story of Nazi German exchange students in the United States during WWII In the 1930s international exchange students in the United States celebrated their Christmas breaks in Florida enthusiastically engaged in college aged antics rowdy parties and the defiance of authorities In between such mayhem they admired the beauty of America quietly discussed their impressions of their host country and agonized over their future which would now be reshaped by their study abroad experiences These were not typical international college students however These students were Nazis In *Nazis in the New World* Aaron Gillette reveals the unknown history of Nazi German exchange students sent to America in the 1930s After receiving the Gestapo's stamp of approval they were instructed to use their charm and charisma to promote the Third Reich Some also served Hitler as covert operatives against the United States In many cases the Nazi government came to regret sending its students across the ocean Gillette argues that Nazism was an abject failure in the United States that antisemitism was on the decline that German espionage in America was a disaster for the Reich and that FDR and J Edgar Hoover brilliantly manipulated Nazi blunders to propel America into the war against Hitler and to empower the FBI Meanwhile numerous German exchange students in the United States were transformed from Nazis into fiercely patriotic Americans **United States and Asia at War: A Cultural Approach** Philip West, Steven I. Levine, Jackie

Hiltz, 2015-06-03 This text examines the Pacific War the Korean War and the Vietnam War from the perspective of those who fought the wars and lived through them The relationship between history and memory informs the book and each war is relocated in the historical and cultural experiences of Asian countries The Test Walter Adams, 2012-05-02 World

renowned economist and president of Michigan State University Walter Adams first published *The Test* in 1971 a year after his tenure as university president ended Adams recounts the tumultuous nine months of his office as the first university president to follow the legendary John Hannah Adams inherited the unease and resentments that had been quietly swelling under seemingly calm administrative waters These resentments coupled with the increased social awareness generated by sixties activism combined in an explosive protest during the fall of 1969 With gripping honesty and clarity *The Test* not only chronicles the events but offers an indictment of those institutional structures that ignored very real social concerns in favor of esoteric academic pursuits By examining the perspectives of all the participants Adams presents new directions for the growth and development of university communities Both a thoughtful analysis and eyewitness account *The Test* presents invaluable documentary evidence of one of the most dynamic periods in American history **Congressional Record** United States. Congress,1971 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in *The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873* *Paraliterary* Merve Emre,2017-11-16 Literature departments are staffed by and tend to be focused on turning out good readers attentive to nuance aware of history interested in literary texts as self contained works But the vast majority of readers are to use the author s tongue in cheek term bad readers They read fiction and poetry to be moved distracted instructed improved engaged as citizens The author of this book argues that we should think of such readers not as non literary but as paraliterary thriving outside the institutions we take as central to the literary world She traces this phenomenon to the postwar period when literature played a key role in the rise of American power At the same time as American universities were producing good readers by the hundreds many more thousands of bad readers were learning elsewhere to be disciplined public communicators whether in diplomatic and ambassadorial missions private and public cultural exchange programs multinational corporations or global activist groups As we grapple with literature s diminished role in the public sphere she suggests a new way to think about literature its audience and its potential one that looks at the civic institutions that have long engaged readers ignored by the academy **Improbable Diplomats** Pete Millwood,2022-12-22 A unique account of how Chinese and American athletes scientists and artists rebuilt US China relations in the 1970s *Ideologies of Race* David Rainbow,2019-10-17 Is the concept of race applicable to Russia and the Soviet Union Citing the idea of Russian exceptionalism many would argue that in the nineteenth and twentieth centuries while nationalities mattered race did not Others insist that race mattered no less in Russia than it did for European neighbours and countries overseas These conflicting notions have made it difficult to understand rising racial tensions in Russian and Eurasian societies in recent years A collection of new studies that reevaluate the meaning of race in Russia and the Soviet Union *Ideologies of Race* brings together historians literary scholars and

anthropologists of Russia the Soviet Union Western Europe the United States the Caribbean and Latin America The essays shift the principle question from whether race meant the same thing in the region as it did in the classic racialized regimes such as Nazi Germany and the United States to how race worked in Russia and the Soviet Union during various periods in time Approaching race as an ideology this book illuminates the complicated and sometimes contradictory intersection between ideas about race and racializing practices An essential reminder of the tensions and biases that have had a direct and lasting impact on Russia Ideologies of Race yields crucial insights into the global history of race and its ongoing effects in the contemporary world Contributors include Adrienne Edgar University of California Santa Barbara Aisha Khan New York University Alaina Lemon University of Michigan Susanna Soojung Lim University of Oregon Marina Mogilner University of Illinois Chicago Brigid O Keeffe Brooklyn College David Rainbow University of Houston Gunja SenGupta Brooklyn College Vera Tolz University of Manchester Anika Walke Washington University St Louis Barbara Weinstein New York University and Eric Weitz City University of New York Change of Heart Nick Cooney, 2010-12-01 An easy to use psychology primer for anyone wanting to spread progressive social change Developed so that non profits community organizers and others can make science driven decisions in their advocacy work **Global University President Leadership** Hamish Coates, Zheping Xie, Wen Wen, 2021-12-30 This book unlocks mysteries surrounding university presidents Presidents have a large and growing influence on world and academic affairs Yet until now little has been revealed about how they enact their roles how they capture motivation and academic energy and their views on higher education This book sheds light on these critical topics revealing insights from in depth interviews with presidents of nineteen globally focused universities from thirteen countries The book presents the interview transcripts and surrounds these with interpretative commentary Underpinned by leadership theory and framed by analysis the book provides glimpses into how top leaders think how presidents manoeuvre through their careers how leaders form and run productive teams and opportunities for research and innovation Common themes and challenges are identified The presidents reflect on university landscapes strategic outlooks the formation of executive teams online teaching funding industry engagement sustainability grand challenges and interdisciplinarity This book is for professionals and scholars who are interested in education universities public policy science and humanities and global affairs Neighborhood Mapping John Dr. Fuder, 2014-02-17 If your church relocated would your neighbors notice Would there be an outcry for you to stay Whether you are a church planter pastor community activist missionary college ministry leader or simply a Christ follower looking to impact your community this resource is for you Neighborhood Mapping by Dr John Fuder is an engaging practical tool available to assist workers in the field to better understand the communities they are involved with It awakens the neighborhood explorer with effective methodology for exegeting their neighborhood offering surveys and samples to lead them in that process Dr Fuder calls believers to shift the focus from inside the church building to those who live in the community He offers here an easy to use resource for those who care about ministry to the least of

these **This Flame Within** Manijeh Moradian,2022-08-29 In *This Flame Within* Manijeh Moradian revises conventional histories of Iranian migration to the United States as a post 1979 phenomenon characterized by the flight of pro Shah Iranians from the Islamic Republic and recounts the experiences of Iranian foreign students who joined a global movement against US imperialism during the 1960s and 1970s Drawing on archival evidence and in depth interviews with members of the Iranian Students Association Moradian traces what she calls revolutionary affects the embodied force of affect generated by experiences of repression and resistance from encounters with empire and dictatorship in Iran to joint organizing with other student activists in the United States Moradian theorizes affects of solidarity that facilitated Iranian student participation in a wide range of antiracist and anticolonial movements and analyzes gendered manifestations of revolutionary affects within the emergence of Third World feminism Arguing for a transnational feminist interpretation of the Iranian Student Association's legacy Moradian demonstrates how the recognition of multiple sources of oppression in the West and in Iran can reorient Iranian diasporic politics today *The Complete Book of Colleges 2021* The Princeton Review,2020-07 The mega guide to 1 349 colleges and universities by the staff of the Princeton Review including detailed information on admissions financial aid cost and more Cover **International Education at the Crossroads** Deborah N. Cohn,Hilary E. Kahn,2021-05-11 *International Education at the Crossroads* captures the essence and complexity of international education in an interconnected and globalized world Written by leading scholars international educators and policy makers the 26 essays in this volume take stock of the unpredictable landscape of international education and demonstrate why international higher education is more essential now than ever before Responding to a timely global moment where education and international engagement are being redefined and practiced in new ways the authors call for a reconsideration of paradigms and critical reflection of the entire field of international education At the same time the authors show how international education is an imperative for the future of learning and the world and also crucially that this work cannot be done in a silo *International Education at the Crossroads* offers readers a chance to join in the conversation that is as global as it is meaningful in communities the lives of learners and institutions around the world International education requires that everyone the world over work together to produce new knowledge to navigate the crossroads and to collectively chart the directions in which the field will move into the future *The Cultural Cold War and the Global South* Kerry Bystrom,Monica Popescu,Katherine Zien,2021-07-27 This volume investigates the cultural sites where the global Cold War played out It brings to view unpredictable encounters that arose as writers artists filmmakers and intellectuals from or aligned with the Third World navigated the ideological and material constraints set by superpowers and emerging regional powers Often these encounters generated *communitas* and solidarity while at times they fed old and new conflicts Pushing forward recent scholarship that tracks the Cold War in the Global South and draws on postcolonial approaches our contributors use archival secondary and ethnographic sources to trace the afterlives and memories of key figures and to explore meetings that

performed cultural diplomacy Our focus on sites of encounter or exchange underscores the situated interpersonal and embodied dimensions through which much of the cultural Cold War was experienced While the global conflict divided citizens along ideological fault lines it also linked people through circulating media novels film posters journals and theatre and multinational conferences that brought artists intellectuals and political activists together Such contacts introduced new axes of solidarity and hierarchies of exclusion Examining these connections and disjunctures this new and necessary mapping of the cultural Cold War highlights under addressed locations in Asia Africa and Latin America *Education for Social*

Change Mary Electa Robinson,1961 **Entrepreneurship and Talent Management from a Global Perspective** Huiyao Wang,Yipeng Liu,2016-01-29 Talent has become the most important resource for organizations across a wide range of sectors throughout the world including business non profit and government These organizations are now engaged in an increasingly fierce competition to acquire the best talent as they seek to gain the upper hand in today s fast changing environment By combining the body of knowledge on entrepreneurship and talent management from a global perspective this book provides a synthesized understanding of entrepreneurial mobility and talent management in the entrepreneurship and innovation ecosystem The expert contributors combine empirical evidence and case studies to provide a nuanced understanding of global talent management from an international comparative perspective The topics discussed include China s return migration and its impact on Chinese development local engagement and transformation of Chinese communities in England and reverse migration from the US to China Furthermore from a comparative perspective contributors examine global talent and entrepreneurial mobility in the contexts of Silicon Valley European university spin off practices and entrepreneurial ecosystems in France Italy and South Korea respectively Scholars and students in entrepreneurship and talent management will find the scope for future research useful in their work Entrepreneurs managers and policymakers will benefit from the examination of global perspectives and different national contexts

Alternative Paths to Influence Giulio M. Gallarotti,2023-06-06 This book offers new and cutting edge analyses of under explored subjects and issues in the realm of soft power It attempts to fill significant scholarly gaps in understanding the process by which soft power is created as well as gaps in demonstrating its impact Soft power is one of the most influential ideas in the study of international politics over the past thirty years Can nations attain their most vital foreign policy objectives in agreeable ways Advocates of the concept of soft power have vociferously answered in the affirmative After many years of thinking in the field of international affairs that the only effective path to influence in international politics was military and economic power the idea of soft power offers new and exciting possibilities of gaining such influence through a more benign path one that elevates cooperation and esteem as preferred alternatives to violence threat and military capacity This book posits that the realization of the full potential of soft power as a foundation for international relations is a crucial goal for our present world one beset by war and planetary crises The book will be of special interest to researchers across

political science international relations cultural studies and foreign policy It was originally published as a special issue of the
