Is This Child Gay Discourse 151:

Public Discourses of Gay Men Paul Baker, 2006-02 Queer linguistics an aspect of sociolinguistics is brought together with corpus linguistics to investigate the way gay male identities are constructed in the public domain **Diversity And Difference In Early Childhood Education: Issues For Theory And Practice** Robinson, Kerry, Jones Diaz, Criss, 2005-12-01 Early childhood professionals are often required to work with children and families from a range of diverse backgrounds This book goes beyond simplistic definitions of diversity encouraging a much broader understanding and helping early childhood educators develop a critical disposition towards assumptions about children and childhood in relation to diversity difference and social justice **Gay Fathers, Their Children, and the Making of Kinship** Aaron Goodfellow, 2015-06-01 While the topic of gay marriage and families continues to be popular in the media few scholarly works focus on gay men with children Based on ten years of fieldwork among gay families living in the rural suburban and urban area of the eastern United States *Gay Fathers Their Children and the Making of Kinship* presents a beautifully written and meticulously argued ethnography of gay men and the families they have formed In a culture that places a premium on biology as the founding event of paternity Aaron Goodfellow poses the question Can the signing of legal contracts and the public performances of care replace biological birth as the singular event marking the creation of fathers Beginning with a comprehensive review of the relevant literature in this field four chapters each presenting a particular picture of paternity explore a range of issues such as interracial adoption surrogacy the importance of physical resemblance in familial relationships single parenthood delinquency and the ways in which the state may come to define the norms of health The author deftly illustrates how fatherhood for gay men draws on established biological theological and legal images of the family often thought oppressive to the emergence of queer forms of social life Chosen with care and described with great sensitivity each carefully researched case examines gay fatherhood through life narratives Painstakingly theorized *Gay Fathers Their Children and the Making of Kinship* contends that gay families are one of the most important areas to which social scientists might turn in order to understand how law popular culture and biology are simultaneously made manifest and interrogated in everyday life By focusing specifically on gay fathers Goodfellow produces an anthropological account of how paternity sexuality and masculinity are leveraged in relations of care between gay fathers and their children **Just Between Us** Guillermo Núñez Noriega, 2014-05-25 A photograph of two men cowboy hatted and booted and discreetly holding hands is the departure point in a groundbreaking study on masculinity and homosexuality in Mexico *Just Between Us* an ethnography of intimacy and affection between men explores the concept of masculine identity and homoeroticism expressing the difficulties men face in maintaining their masculinity while expressing intimacy and affection Using fieldwork from rural Sonora Mexico Guillermo N ez Noriega posits that men accept this intimacy outside gender categories and stereotypes despite the traditional patriarchal society This work contests homophobia and the heterosexual ideal of men and

attempts to break down the barriers between genders The photograph N ez Noriega uses to explore the shifting attitudes and perceptions of sexuality and gender provokes more questions than answers Recognizing the societal regulations at play the author demonstrates the existence in contemporary Mexico of an invisible regime of power that constructs and regulates the field of possibilities for men s social actions especially acts of friendship affection and eroticism with other men The work investigates modes of speaking about being a man on being gay on the implicit meanings of the words homosexual masculine trade fairy and others words that construct possibilities for intimacy particularly affective and erotic intimacy among men Multiple variants of homoeroticism fall outside the dominant model N ez Noriega argues a finding that offers many lessons on men and masculine identities This book challenges patriarchal definitions of sex gender and identity it promotes the unlearning of dominant conventions of masculinity to allow new ways of being

Schooling Sexualities Epstein, Debbie, Johnson, Richard, 1998-01-01 Schooling Sexualities brings together contemporary debate about sexuality with the study of schooling The book looks closely at the production of sexual identities at school and argues that sexuality is intrinsic to the formation of individual and group identities in schools It explores not only the formal sexual curriculum but the sexual cultures of both teachers and students Essential reading for teachers concerned with sexual education

Child and Adolescent Development in Context Tara L. Kuther, 2019-11-12 In the chronologically organized Child and Adolescent Development in Context award winning author Tara L Kuther frames development research in real life contexts including gender race and ethnicity socioeconomic status and more

Parent-child Relations Throughout Life Karl Pillemer, Kathleen McCartney, 2013-09-05 The study of parent child relationships has long been of interest to behavioral scientists both for its theoretical importance and for its practice and policy implications There are however certain limitations to the knowledge in this area First research on parents and children is spread throughout a number of disciplines and as a consequence is not well integrated Further there has been little dialogue among researchers concerned with parents of young children and those interested in middle aged and elderly parents and their offspring The present volume predicates the notion that there is considerable similarity in the issues explored by researchers on different points of the life course Contributions by leading scholars in psychology sociology and anthropology are organized into four sections each of which contains a treatment of at least two stages in the life course The sections cover attachment in early childhood and in later life life course transitions relationships within families and the influence of social structural factors on parent child relations Although the chapters make important contributions to basic research and theory many also deal with issues of public concern such as day care maternal employment gay and lesbian relationships and care of the elderly

Language, Gender and Children's Fiction Jane Sunderland, 2011-01-13 Looks at gender in relation to children s fiction And The role that language plays in this relationship

The Lenses of Gender Sandra Lipsitz Bem, 2008-10-01 Annotation A leading theorist on sex and gender discusses how hidden assumptions embedded in our culture social institutions and individual psyches perpetuate male power

and oppress women and sexual minorities Illustrated **Ways of Being Male** John Stephens, 2013-10-18 Given the substantial impact of feminism on children's literature and culture during the last quarter century it comes as no surprise that gender studies have focused predominantly on issues of female representation The question of how the same patriarchal ideology structured representations of male bodies and behaviors was until very recently a marginal discussion Now that masculinity has emerged as an overt theme in children's literature and film critical consideration of the subject is timely if not long overdue *Ways of Being Male* addresses this new concern in an unprecedented collection of essays examining how contemporary debates about masculinity are reflected in fiction and film for young adults An outstanding team of scholars elucidates the ways in which different versions of male identity are constructed and presented to young audiences The contributors drawn from a variety of academic disciplines employ international discourses in literary criticism feminism social sciences film theory psychoanalytic criticism and queer theory in their wide ranging exploration of male representation With its illuminating array of perspectives this pioneering survey brings a long neglected subject into sharp focus

Lesbians, Gays, and Bisexuals Becoming Parents or Remaining Childfree Cara Bergstrom-Lynch, 2015-12-03 This book recognizes that intense public battles are being waged in the U S over the rights of LGB people to form legally and culturally recognized families Their families are under a kind of sociopolitical scrutiny at this historical moment that compels us all to take stock of our strategies of family building and more broadly the meaning of family in the U S today Through in depth open ended qualitative interviews with 61 self identified lesbian gay and bisexual people regarding how they came to have children or remain childless childfree this book reveals the challenges posed by homophobia and discrimination and showcases the creative strategies resilience and resourcefulness of lesbians bisexuals and gays as they build families with or without children after coming out From descriptions of how the early process of coming out affected the desire to parent or remain childfree to stories about the impact of homophobia and discrimination on the decision making process to the dynamics within couples that lead to becoming parents or remaining childfree to examining how cultural notions of the strength of biology are employed when having children to accounts of how the closet can be used strategically when bringing children into a family their voices form the heart of this book In a sociopolitical context in which gay lesbian and bisexual people often have to struggle to access the array of rights and opportunities that are afforded to most heterosexual people without question addressing the questions raised in this book is an urgent and necessary endeavor [Talk about Sex](#) Janice Irvine, 2023-03-24 A rich social history of how the American right wing used sex education as one of its first battlegrounds on which to build a political movement and regulate sexual morality by controlling sexual speech [Resources in Education](#), 1994 Serves as an index to Eric reports microform [Transformative Pedagogical Perspectives on Home Language Use in Classrooms](#) Jules, Janice E., Belgrave, Korah L., 2020-09-25 Linguists researchers and other practitioners in language education acknowledge that the resolution of language problems associated with breaking down language and cultural

barriers that hinder the growth of learners self identities and national identities is ongoing In fact even with decades of research in home language use in the classroom there are still classrooms worldwide where learners are deprived of the opportunity of building their self esteem confidence and autonomy by communicating with their native language The global nature of communication requires speakers to use all the languages in their repertoire effectively thus reinforcing the need to encourage home language use in classrooms Transformative Pedagogical Perspectives on Home Language Use in Classrooms is a cutting edge research publication on the effective use of home language in the classroom that emphasizes the significance of this activity to the success of the overall language development of the learner Particular attention is given to transformative pedagogy and the provision of valuable insights into how the teacher can guide and assist learners in the development of critical thinking skills In addition the book provides content that enables practitioners in language education and parents to explore their roles in assisting children in breaking down the language and cultural barriers that hinder the growth of their self identity and national identity Highlighting topics such as engineering education cultural responsiveness and transformative pedagogy this book is essential for linguists academicians education professionals curriculum designers policymakers administrators instructional designers researchers and students

Speech-Language Pathologists in Early Childhood Intervention Kathleen D. Ross, 2017-11-01 Speech Language Pathologists in Early Childhood Intervention Working with Infants Toddlers Families and Other Care Providers presents practicing clinicians and graduate students with the skills necessary to provide evidence based best practice services to young clients struggling to gain functional communication skills and their families It also serves to broaden the understanding of early intervention within the field of speech language pathology Through research real life scenarios and practical documents the text presents positive advocacy for this population The text begins with a general overview of the history and rationale for early childhood intervention including the Individuals with Disabilities Education Act IDEA Part C program and Early Head Start as well as a description of the need for speech language pathologists in early intervention The majority of the text offers assessment and intervention strategies and tools including specific tests and curricula training resources and the importance of using ongoing assessment for this young age Strategies for coaching parents and collaborating with professional colleagues as well as working within daily routines in natural environments for the child all integral components of the Part C early intervention program are interwoven throughout The text concludes with the importance of viewing children holistically taking into consideration all aspects of a child s being and acknowledging the interrelatedness of their developing skills as well as the importance of family in their development Speech language pathologists have a critical role in evaluation assessment and intervention for young children with or at risk for communication disorders Speech Language Pathologists in Early Childhood Intervention creates a pathway for investing in the principles and activities of early intervention that can lead to best practice and positive outcomes for this young population Disclaimer Please note that ancillary content such as documents audio and video etc may not be included as published in the original print version of this book *Opposing Hate Speech* Anthony Cortese, 2005-11-30 What happens when two deeply held American values freedom of expression and freedom from discrimination clash In any well established democratic society people have the right to free speech as well as the right to equal treatment and protection under the law But when one person s speech harms another person on the basis of race ethnicity religion gender or sexual orientation it may qualify as hate speech and be subject to restriction Cortese argues that restricting hate speech does not violate the guiding principle behind the First Amendment but he is not eager to see more lawsuits Effective restriction he asserts should not focus on litigation but on speech codes and moral education Is there a limit to freedom of expression in a democracy and if so where should the line be drawn In attempting to answer that question Cortese makes a solid case for paying attention to context and common sense Some hate speech is more reprehensible than others not all discriminatory statements are equally

serious There is a discernible difference between an offensive remark and an incitement to commit murder There is also a fundamental distinction between intentional and unintentional discrimination In this book Cortese rethinks some of the issues that have been silenced in ways harmful to many especially those that have been brutalized oppressed manipulated dominated segregated and disadvantaged We should recognize the grave injuries inflicted by hate speech and the potential tensions between legal solutions to those injuries and the First Amendment We must push for moral education educational speech codes and when necessary a formal legal structural response to hate speech in order to reinforce our commitment to tolerance as a value
