**The Illimitable Freedom of the Human Mind** Andrew J. O'Shaughnessy, 2021-09-28 Already renowned as a statesman Thomas Jefferson in his retirement from government turned his attention to the founding of an institution of higher learning Never merely a patron the former president oversaw every aspect of the creation of what would become the University of Virginia Along with the Declaration of Independence and the Virginia Statute for Religious Freedom he regarded it as one of the three greatest achievements in his life Nonetheless historians often treat this period as an epilogue to Jefferson's career In *The Illimitable Freedom of the Human Mind* Andrew O'Shaughnessy offers a twin biography of Jefferson in retirement and of the University of Virginia in its earliest years He reveals how Jefferson's vision anticipated the modern university and profoundly influenced the development of American higher education The University of Virginia was the most visible apex of what was a much broader educational vision that distinguishes Jefferson as one of the earliest advocates of a public education system Just as Jefferson's proclamation that all men are created equal was tainted by the ongoing institution of slavery however so was his university O'Shaughnessy addresses this tragic conflict in Jefferson's conception of the university and society showing how Jefferson's loftier aspirations for the university were not fully realized Nevertheless his remarkable vision in founding the university remains vital to any consideration of the role of education in the success of the democratic experiment
