Prophetic Culture Federico Campagna, 2021-06-17 Selected as one of The Tablet's Books of the Year 2021 Throughout history different civilisations have given rise to many alternative worlds Each of them was the enactment of a unique story about the structure of reality the rhythm of time and the range of what it is possible to think and to do in the course of a life Cosmological stories however are fragile things As soon as they lose their ring of truth and their significance for living the worlds that they brought into existence disintegrate New and alien worlds emerge from their ruins Federico Campagna explores the twilight of our contemporary notion of reality and the fading of the cosmological story that belonged to the civilisation of Westernised Modernity How are we to face the challenge of leaving a fertile cultural legacy to those who will come after the end of our future How can we help the creation of new worlds out of the ruins of our own

Technic and Magic Federico Campagna, 2018-05-31 We take for granted that only certain kind of things exist electrons but not angels passports but not nymphs This is what we understand as reality But in fact reality varies with each era of the world in turn shaping the field of what is possible to do think and imagine Our contemporary age has embraced a troubling and painful form of reality Technic Under Technic the foundations of reality begin to crumble shrinking the field of the possible and freezing our lives in an anguished state of paralysis Technic and Magic shows that the way out of the present deadlock lies much deeper than debates on politics or economics By drawing from an array of Northern and Southern sources spanning from Heidegger Junger and Stirner's philosophies through Pessoa's poetry to Advaita Vedanta Bhartrhari Ibn Arabi Suhrawardi and Mulla Sadra's theosophies Magic is presented as an alternative system of reality to Technic While Technic attempts to capture the world through an absolute language Magic centres its reconstruction of the world around the notion of the ineffable that lies at the heart of existence Technic and Magic is an original philosophical work and a timely cultural intervention It disturbs our understanding of the structure of reality while restoring it in a new form This is possibly the most radical act if we wish to change our world first we have to change the idea of reality that defines it
