W. Connell, Raewyn Connell, 2005 This is an exciting new edition of R W Connell's ground breaking text which has become a classic work on the nature and construction of masculine identity Connell argues that there is not one masculinity but many different masculinities each associated with different positions of power In a world gender order that continues to privilege men over women but also raises difficult issues for men and boys Connell's account is more pertinent than ever before In a substantial new introduction and conclusion Connell discusses the development of masculinity studies in the ten years since the book s initial publication The book explores global gender relations new theories and practical uses of masculinity research Looking to the future a new concluding chapter addresses the politics of masculinities and the implications of masculinity research for understanding current world issues Against the backdrop of an increasingly divided world dominated by neo conservative politics Connell's account highlights a series of compelling guestions about the future of human society This second edition of Connell's classic book will be essential reading for students taking courses on masculinities and gender studies and will be of interest to students and scholars across the humanities and social sciences

Journal of the Institute of Actuaries ,1906 Setting Slavery's Limits Christopher H. Bouton, 2019-11-20 Using slave trials from antebellum Virginia Christopher H Bouton offers the first in depth examination of physical confrontations between slaves and whites These extraordinary acts of violence brought the ordinary concerns of enslaved Virginians into focus Enslaved men violently asserted their masculinity sought to protect themselves and their loved ones from punishment and carved out their own place within southern honor culture Enslaved women resisted sexual exploitation and their mistresses By attacking southern efforts to control their sexuality and labor bondswomen sought better lives for themselves and undermined white supremacy Physical confrontations revealed the anxieties that lay at the heart of white antebellum Virginians and threatened the very foundations of the slave regime itself While physical confrontations could not overthrow the institution of slavery they helped the enslaved set limits on their owners exploitation. They also afforded the enslaved the space necessary to create lives as free from their owners influence as possible When masters and mistresses continually intruded into the lives of their slaves they risked provoking a violent backlash Setting Slavery's Limits explores how slaves of all ages and backgrounds resisted their oppressors and risked everything to fight back Sex, Culpability, and the **Defence of Provocation** Danielle Tyson, 2013 Dealing with the complex case law concerning the use of the provocation defence in cases of intimate killings Sex Culpability and the Defence of Provocation considers the construction and representation of subjectivity and sexual difference in legal narrations of homicide *Iournal of the Institute of Actuaries* Institute of Actuaries (Great Britain), 1906 List of members issued with v 35 with separate paging Feminism and

Education and Masculinities Chris Haywood, Mairtin Mac an Ghaill, 2013-06-19 Across media academy and popular culture in western societies there is much talk of an implosion of the modern gender order Education is often presented as a key site in which a crisis of masculinity is played out and schools have become a focus for practical attempts to reconcile social and cultural transformations through the recalibration of teaching and learning increasing male teachers and masculinising the content of subjects Education and Masculinities argues that we are experiencing a shift from the establishment of the social constitution of gender associated with modernity politics to the gendering of society that has an intensified resonance among men and women in a global based late modernity. The book explores the main social and cultural approaches to education and masculinities within the broader context of sex and gender relations considering the masculinity question alongside local and global changes in society and bringing a fresh evaluation of key issues Included in the book how the suggestion of academically successful girls and failing boys plays out in relation to issues of inequality across class and ethnicity a current empirical analyses of gender inequality across schools higher education and the labour market representation identity and cultural difference with reference to male and female social experiences and cultural meanings forms of power connected to social divisions and cultural differences Education and Masculinities provides a critical yet constructive diagnosis of gender relations across educational sites exploring both academic accounts and alternative global responses that illustrate the limits of Western models and sensibilities This accessible book will be valuable reading for students following courses in education sociology gender studies and other social sciences and humanities courses The Future is Feminine Ciara Cremin, 2021-05-20 Carnage in the classroom misogynists in high office sociopaths in uniform masculinity is a killer From styles of dress to the stunted capacity for expressing a diversity of emotions becoming a man involves killing off and repudiating anything that in our society is held as feminine When a person is unable to show compassion and tenderness or when exposed for their frailties feels angry and humiliated they have problems Problems that none of us are immune to Masculinity Cremin provocatively declares is a generic disorder of a sick society that afflicts even the best of us Neither a condition of being human nor even of male it is a disorder as she illustrates of a capitalist society that depends and even thrives upon its very symptoms From the perspective of a trans woman raised to be a man the book maps the disorder and speculates on the possible means to overcome it Instead of signifying weakness catastrophes can be

prevented when the qualities men often fear and women often feel subordinated to are prioritised affirmed and nourished Drawing amongst others on Marx and Freud Cremin eloquently demonstrates why there can be no future other than one in which we are all reconciled as a society with the feminine In such a future the terms masculine and feminine will neither define us nor determine our relationship to one another **Television in Transition** Shawn Shimpach, 2010-02-05 Combining an exciting methodology alongside high interest casestudies Television in Transition offers studentsof television a guide to a medium that has weathered the challenges of first run syndication a multi channel universe netlets majormedia conglomerates deregulation and globalization all in the space of twenty years Examines a return in television programming to actionnarratives with individual super heroes intended to navigate thisnew international multi channel universe Explores how television programming translates to new spatialgeographies different nations cultures broadcast systems and different formats distribution outlets and screen sizes Looks at the value of a program s afterlife the continued circulation repackaging and repurposing of programming beyond itsinitial iteration Blends institutional and textual analyses in casestudies of Highlander The Series Smallville 24 and Doctor Who Feminist Perspectives on Family Law Alison Diduck, Katherine O'Donovan, 2007-03-12 Examining specific areas of family law from a feminist perspective this book assesses the impact that feminism has had upon family law It is deliberately broad in scope as it takes the view that family law cannot be defined in a traditional way In addition to issues of long standing concern for feminists it explores issues of current legal and political preoccupation such as civil partnerships home sharing reproductive technologies and new initiatives in regulating family practices through criminal law including domestic violence and youth justice **Natality and Fecundity** Charles James Lewis, John Norman Lewis, 1906 The Race of Sound Nina Sun Eidsheim, 2019-01-11 Examining singers Marian Anderson Billie Holiday and Jimmy Scott as well as vocal synthesis technology Nina Sun Eidsheim traces the ways in which the voice and its qualities are socially produced and how listeners assign a series of racialized and gendered set of assumptions to a singing voice Lawyers in 21st-Century Societies Richard L Abel, Hilary Sommerlad, Ole Hammerslev, Ulrike Schultz, 2022-05-05 This book presents an invaluable collection of essays by eminent scholars from a wide variety of disciplines on the main issues currently confronting legal professions across the world It does this through a comparative analysis of the data provided by the reports on 46 countries in its companion volume Lawyers in 21st Century Societies Vol 1 National Reports Hart 2020 Together these volumes build on the seminal collection Lawyers in Society Abel and Lewis 1988a 1988b 1989 The period since 1988 has seen an acceleration and intensification of the global socio economic cultural and political developments that in the 1980s were challenging traditional professional forms Together with the striking transformation of the world order as a result of the fall of the Soviet bloc neo liberalism globalisation the financialisation of capitalism technological innovations and the changing demography of lawyers these developments underscored the need for a new comparative exploration of the legal professional field This volume deepens the insights in volume 1 with chapters on
