Federalization Of Spain

Stephen Tierney

Federalization Of Spain:

The Federalization of Spain Moreno Fernández Moreno, 2001 An explanatory model of multiple ethnoterritorial concurrence is put forward and refers to asymmetry and heterogeneity among territorially based political formations The final chapter of the book deals with the dual identity expressed by a majority of Spaniards and future scenarios for a federalized Spain The Federalization of Spain is discussed in a comparative framework using the Spanish experience to explore the more general question of regional and national accommodation in states of plural composition The Spanish case offers the possibility of formulating medium range generalizations that can be extrapolated to countries of analogous characteristics Jacket

The Federalization of Spain Luis Moreno, 2013-10-11 Traces the origins of the complex system of devolution and regional home rule that currently shapes and directs the Spanish political process *The Oxford Handbook of Spanish Politics* Diego Muro, Ignacio Lago, 2020 Oxford Handbooks offer authoritative and up to date surveys of original research in a particular subject area Specially commissioned essays from leading figures in the discipline give critical examinations of the progress and direction of debates as well as a foundation for future research Oxford Handbooks provide scholars and graduate students with compelling new perspectives upon a wide range of subjects in the humanities social sciences and sciences

Federalism, Subnational Constitutions, and Minority Rights G. Alan Tarr, Robert F. Williams, Josef Marko, 2004-08-30 Whether federalism and subnational constitutions contribute to or undermine minority rights has long been a subject of controversy Within the United States the general view has been that federalism has been detrimental to minority rights In contrast other countries have seen federalism as crucial in safeguarding rights of ethnic and religious minorities This volume provides the basis for a more nuanced assessment of the contributions of federalism and subnational constitutions to protecting minority rights by studying their impact in a variety of federal systems This work explores both mature federal systems Switzerland United States systems in transition Belgium Bosnia Herzegovina both quasifederal Italy Spain and well established systems Germany both systems with considerable homogeneity of population Austria and systems with extraordinary diversity India It also analyses the various constitutional arrangements that federal systems have devised for safeguarding minority rights and given them a voice in political deliberations *Explaining Federalism* Jan Erk, 2007-09-12 This book deals with the theoretical and empirical questions of federalism in the context of five case studies Austria Belgium Canada Germany and Switzerland The central argument is that in the long run the political institutions of federalism adapt to achieve congruence with the underlying social structure This change could be in the centralist direction reflecting ethno linguistic homogeneity or in decentralist terms corresponding to ethno linguistic heterogeneity In this context the volume fills a gap in the comparative federalism literature by analyzing the patterns of change and continuity in five federal systems of the industrial west this is done by an in depth empirical examination of the case studies through a single framework of analysis illustrates the shortcomings of new institutionalist approaches in

explaining change highlighting the usefulness of society based approaches in studying change and continuity in comparative politics Explaining Federalism will be of interest to students and scholars of federalism comparative government comparative institutional analysis and comparative public policy

Federalism as a Tool of Conflict Resolution Soeren Keil, Elisabeth Alber, 2021-05-13 Looking at the growing use of federalism and decentralization as tools of conflict resolution this book provides evidence from several case studies on the opportunities and challenges that territorial solutions offer when addressing internal conflicts within a variety of countries Federalism has been used as a tool of conflict resolution in a number of conflict situations around the world The results of this have been mixed at best with some countries moving slowly to the paths of peace and recovery while others have returned to violence This volume looks at a number of case studies in which federalism and decentralization have been promoted in order to bring opposing groups together and protect the territorial integrity of different countries Yet it is demonstrated that this has been incredibly difficult and often overshadowed by wider concerns on secession de and re centralization and geopolitics and geoeconomics While federalism and decentralization might hold the key to keeping war torn countries together and bringing hostile groups to the negotiation table we nevertheless need to rethink under which conditions territorial autonomy can help to transform conflict and when it might contribute to an increase in conflict and violence Federalism alone so the key message from all contributions cannot be enough to bring peace yet without territorial solutions to ongoing violence it is also unlikely that peace will be achieved The chapters in this book were originally published as a special issue of *Ethnopolitics*

The Global Promise of Federalism Grace Skogstad, David Cameron, Martin Papillon, Keith Banting, 2013-01-01 This book honours the legacy of Richard Simeon one of the most prominent federalist scholars in the world and a long time member of the Department of Political Science at the University of Toronto

Federal Democracies Michael Burgess, Alain-G. Gagnon, 2010-02-25 Federal Democracies examines the evolution of the relationship between federalism and democracy and features case studies on USA Russia Switzerland Spain Germany Canada and the European Union

Federalism, Plurinationality and Democratic Constitutionalism Ferran Requejo, Miquel Caminal Badia, 2012-02-20 This book provides a theoretical and comparative analysis of federalism and federations in plurinational democracies examining how states with distinct peoples and communities coexist or not Through a theoretical approach to democracy and federalism and interdisciplinary analysis of plurinationality in state organization including case studies of the UK Russia Canada Belgium India Spain Switzerland and Bolivia this text assesses the possibilities and limits of federalism as a way to recognize and accommodate multinationalism in plurinational democracies It evaluates a range of strategies used by states to support national ethnic linguistic or religious collectives in present day liberal democracies Leading scholars in the field evaluate the institutional and practical repercussions regarding the issue of recognition and accommodation of national minorities in a globalised world through different theoretical perspectives to build up a detailed picture of problems and solutions to multinationalism Looking both

within and beyond the state this is an invaluable examination of dilemmas and institutional challenges faced by many modern democracies Federalism Plurinationality and Democratic Constitutionalism will be of interest to students researchers and scholars of democracy nationalism federalism and constitutionalism *The Federal Contract* Stephen Tierney,2022-05-26 Federalism is a very familiar form of government It characterises the first modern constitution that of the United States and has been deployed by constitution makers to manage large and internally diverse polities at various key stages in the history of the modern state Despite its pervasiveness in practice this book argues that federalism has been strangely neglected by constitutional theory It has tended either to be subsumed within one default account of modern constitutionalism or it has been treated as an exotic outlier a sui generis model of the state rather than a form of constitutional ordering for the state This neglect is both unsatisfactory in conceptual terms and problematic for constitutional practitioners obscuring as it does the core meaning purpose and applicability of federalism as a specific model of constitutionalism with which to organise territorially pluralised and demotically complex states In fact the federal contract represents a highly distinctive order of rule which in turn requires a particular territorialised approach to many of the fundamental concepts with which constitutionalists and political actors operate constituent power the nature of sovereignty subjecthood and citizenship the relationship between institutions and constitutional authority patterns of constitutional change and ultimately the legitimacy link between constitutionalism and democracy In rethinking the idea and practice of federalism this book adopts a root and branch recalibration of the federal contract It does so by analysing federalism through the conceptual categories that characterise the nature of modern constitutionalism foundations authority subjecthood purpose design and dynamics This approach seeks to explain and in so doing revitalise federalism as a discrete capacious and adaptable concept of rule that can be deployed imaginatively to facilitate the deep territorial variety that characterises so many states in the 21st century

Diversity and Unity in Federal Countries John Kincaid,César Colino,2010 In *Diversity and Unity in Federal Countries* leading scholars and practitioners analyse the current political socio economic spatial and cultural diversity in the countries under consideration before delving into the role that social historical and political factors have had in shaping the balance of diversity and unity The authors assess the value placed on diversity by examining whether present institutional arrangements and public policies restrict or enhance diversity and address the future challenges of balancing diversity and unity in an increasingly populated and mobile world *Comparative Federalism* Thomas O. Hueglin,Alan Fenna,2006-01-01 This is a thoughtful well organized review of a subject of ever increasing importance the resurgence of the federal idea The Honourable Bob Rae 21st Premier of Ontario *Ethnicity and Territory in the Former Soviet Union* James Hughes,Gwendolyn Sasse,2002 This volume explores the common trends and differences in the responses of the new post Soviet states to the problems of state building in ethnically and regionally divided societies Community, Scale, and Regional Governance Liesbet Hooghe,Gary Marks,2016-08-25 This is the second of five ambitious volumes theorizing the

structure of governance above and below the central state This book is written for those interested in the character causes and consequences of governance within the state The book argues that jurisdictional design is shaped by the functional pressures that arise from the logic of scale in providing public goods and by the preferences that people have regarding self government The first has to do with the character of the public goods provided by government their scale economies externalities and informational asymmetries The second has to do with how people conceive and construct the groups to which they feel themselves belonging In this book the authors demonstrate that scale and community are principles that can help explain some basic features of governance including the growth of multiple tiers over the past six decades how jurisdictions are designed why governance within the state has become differentiated and the extent to which regions exert authority The authors propose a postfunctionalist theory which rejects the notion that form follows function and argue that whilst functional pressures are enduring one must engage human passions regarding self rule to explain variation in the structures of rule over time and around the world Transformations in Governance is a major new academic book series from Oxford University Press It is designed to accommodate the impressive growth of research in comparative politics international relations public policy federalism environmental and urban studies concerned with the dispersion of authority from central states up to supranational institutions down to subnational governments and side ways to public private networks It brings together work that significantly advances our understanding of the organization causes and consequences of multilevel and complex governance The series is selective containing annually a small number of books of exceptionally high quality by leading and emerging scholars The series targets mainly single authored or co authored work but it is pluralistic in terms of disciplinary specialization research design method and geographical scope Case studies as well as comparative studies historical as well as contemporary studies and studies with a national regional or international focus are all central to its aims Authors use qualitative quantitative formal modeling or mixed methods A trade mark of the books is that they combine scholarly rigour with readable prose and an attractive production style The series is edited by Liesbet Hooghe and Gary Marks of the University of North Carolina Chapel Hill and the VU Amsterdam and Walter Mattli of the University of Oxford

New Policies for New Residents Deborah J. Milly, 2014-02-07 In recent decades many countries have experienced both a rapid increase of in migration of foreign nationals and a large scale devolution of governance to the local level The result has been new government policies to promote the social inclusion of recently arrived residents In New Policies for New Residents Deborah J Milly focuses on the intersection of these trends in Japan Despite the country s history of restrictive immigration policies some Japanese favor a more accepting approach to immigrants Policies supportive of foreign residents could help attract immigrants as the country adjusts to labor market conditions and a looming demographic crisis As well local citizen engagement is producing more inclusive approaches to community Milly compares the policy discussions and outcomes in Japan with those in South Korea and in two similarly challenged Mediterranean nations Italy and

Spain All four are recent countries of immigration and all undertook major policy innovations for immigrants by the 2000s In Japan and Spain local NGO local government collaboration has influenced national policy through the advocacy of local governments South Korea and Italy included NGO advocates as policy actors and partners at the national level far earlier as they responded to new immigration producing policy changes that fueled local networks of governance and advocacy In all these cases Milly finds nongovernmental advocacy groups have the power to shape local governance and affect national policy though in different ways

Government formation in Multi-Level Settings I. Stefuriuc,2013-04-08 This book examines how parties negotiate coalition deals at the subnational level using the examples of Germany and Spain In such multi level settings parties are present at various negotiation tables often having to make difficult choices about their role in the coalition and the relative merits of being in government over the opposition

The Changing Faces of Federalism Sergio Ortino,Mitja Zagar,Vojtech Mastny,2005 This book discusses the tradition and the institutions of federalism in the Eastern Central and Western European countries and deals with many innovative issues such as multi level governance network government devolution subsidiarity asymmetry and functionalism An assumption of the book is that the European enlargement and the new European constitution could result in two major evolutions in the future one is a full federal state the other is an institutional response to the effects of the technological innovations of our epoch

Multinational Federations Michael Burgess,John Pinder,2007-04-11 This is the first comparative volume available on multinational federations bringing together an international range of experts on federalism Multinational federations are federal states intended to provide a framework that can accommodate manage and resolve some of the most intractable political conflicts of our time that emerge from identity politics those that stem from competing national visions whether within or between established states Featuring key experts in the field such as Michael Burgess Alain Gagnon and Ronald Watts this unique book draws on a wide geographical range of country studies including Belgium Canada India Malaysia Spain Russia Cyprus India Switzerland and the EU in order to illustrate the pivotal relationship between federalism and nationalism In so doing it addresses the practical relevance of federalism to the new political recognition of difference and diversity in the specific form of national minoritarianism Multinational Federations will be of strong interest to students and researchers of federalism democracy and nationalism

International Encyclopedia of Political Science Bertrand Badie,Dirk Berg-Schlosser,Leonardo Morlino,2011-09-07 Request a FREE 30 day online trial to this title at www.sagepub.com/freetrial With entries from leading international scholars from around the world this eight volume encyclopedia offers the widest possible coverage of key areas both regionally and globally The International Encyclopedia of Political Science provides a definitive comprehensive picture of all aspects of political life recognizing the theoretical and cultural pluralism of our approaches and including findings from the far corners of the world The eight volumes cover every field of politics from political theory and methodology to political sociology comparative politics public policies and international relations Entries are arranged in alphabetical order and a list

Federalization Of Spain Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Federalization Of Spain PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Federalization Of Spain PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources

available. In conclusion, the availability of Federalization Of Spain free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

FAQs About Federalization Of Spain Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Federalization Of Spain is one of the best book in our library for free trial. We provide copy of Federalization Of Spain in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Federalization Of Spain. Where to download Federalization Of Spain online for free? Are you looking for Federalization Of Spain PDF? This is definitely going to save you time and cash in something you should think about.
