Doing Feminist Research in Political and Social Science Brooke A. Ackerly, Jacqui True, 2019-11-08 Guiding students step by step through the research process while simultaneously introducing a range of debates challenges and tools that feminist scholars use the second edition of this popular textbook provides a vital resource to those students and researchers approaching their studies from a feminist perspective Interdisciplinary in its approach the book covers everything from research design analysis and presentation to formulating research questions data collection and publishing research Offering the most comprehensive and practical guide to the subject available the text is now also fully updated to take account of recent developments in the field including participatory action research new technologies and methods for working with big data and social media Doing Feminist Research is required reading for undergraduate and postgraduate courses taking a feminist approach to social science methodology research design and methods It is the ideal guide for all students and scholars carrying out feminist research whether in the fields of international relations political science interdisciplinary international and global studies development studies or gender and women s studies New to this Edition

New discussions of contemporary research methods including participatory action research survey research and technology and methods for big data and social media Updated to reflect recent developments in feminist and gender theory with references to the latest research examples and new boxes considering recent shifts in the social and political sciences Brand new boxed examples throughout covering topics including collaborations femicide negotiating changing research environments and the pros and cons of feminist participatory action research The text is now written in the first authors and second readers person making the text clearer more consistent and inclusive from the reader point of view **Social Science Methodology** John Gerring,2011-12-15 John Gerring s exceptional textbook has been thoroughly revised in this second edition It offers a one volume introduction to social science methodology relevant to the disciplines of anthropology economics history political science psychology and sociology This new edition has been extensively developed with the introduction of new material and a thorough treatment of essential elements such as conceptualization measurement causality and research design It is written for students long time practitioners and methodologists and covers both qualitative and quantitative methods It synthesizes the vast and diverse field of methodology in a way that is clear concise and comprehensive While offering a handy overview of the subject the book is also an argument about how we should conceptualize methodological problems Thinking about methodology through this lens provides a new framework for understanding work in the social sciences **Science and Social Inequality** Sandra Harding,2023-12-11 In Science and Social Inequality Sandra Harding makes the provocative argument that the philosophy and practices of today s Western science contrary to its Enlightenment mission work to insure that more science will only worsen existing gaps between the best and worst off around the world She defends this claim by exposing the ways that hierarchical social formations in modern Western sciences encode antidemocratic principles and practices particularly in terms of their services to militarism the impoverishment and alienation of labor Western expansion and environmental destruction The essays in this collection drawing on feminist multicultural and postcolonial studies propose ways to reconceptualize the sciences in the global social order At issue here are not only social justice and environmental issues but also the accuracy and comprehensiveness of our understandings of natural and social worlds The inadvertent complicity of the sciences with antidemocratic projects obscures natural and social realities and thus blocks the growth of scientific knowledge Scientists policy makers social justice movements and the consumers of scientific products that is the rest of us can work together and separately to improve this situation **Queer Methods and Methodologies** Catherine J. Nash,2016-04-15 Queer Methods and Methodologies provides the first systematic consideration of the implications of a queer perspective in the pursuit of social scientific research This volume grapples with key contemporary questions regarding the methodological implications for social science research undertaken from diverse queer perspectives and explores the limitations and potentials of queer engagements with social science research techniques and methodologies With contributors based in the UK USA Canada Sweden New Zealand and Australia

this truly international volume will appeal to anyone pursuing research at the intersections between social scientific research and queer perspectives as well as those engaging with methodological considerations in social science research more broadly

Handbook of Research Methods and Applications for Social Movements Laurence Cox, Anna Szolucha, Alberto Arribas Lozano, Sutapa Chattopadhyay, 2024-01-18 This cutting edge and authoritative Handbook covers a broad spectrum of social movement research methodologies offering expert analysis and detailed accounts of the ways by which research can effectively be carried out on social movements and popular protests Addressing practice oriented questions this Handbook engages with both theoretical and political considerations unpacking the multidimensional nature of social movement research Wendy R. Kohli, Nicholas C. Burbules, 2012-07-01 The latest book in the Philosophy Theory and Educational Research series introduces the main philosophical and theoretical ideas of recent western feminisms as it applies to educational research Unlike other books that focus on these topics the authors present a balanced overview of the issues instead of pushing a particular perspective

Unfolding the 'Comfort Women' Debates Maki Kimura, 2016-01-26 This study offers a fresh perspective on the comfort women debates It argues that the system can be understood as the mechanism of the intersectional oppression of gender race class and colonialism while illuminating the importance of testimonies of victim survivors as the site where women recover and gain their voices and agencies An Invitation to Non-Hegemonic World Sociology Eric Macé, 2024-07-19 Although sociology is present as a discipline or as a social practice in most countries in the world its future as a not only Western social science has hardly been addressed before In this book a team of interdisciplinary scholars have been working together not so much to offer one single response to the question than to raise important issues at stake for the future of sociology Is it universal Can it be indigenous How is it possible and is it even desirable to write its history differently so as to know better about its early world diffusion and gradual Westernization Do we need to expand or change its canon This collection brings together essays that are all engaged in international discussions concerning the universality of sociology or more precisely the epistemological and theoretical conditions of this universality The postcolonial and decolonial critiques of the Eurocentrism of sociology are the basis for a reflection on how to continue to do sociology in a non hegemonic way That is sociological ways of describing reality including the history of sociology and its canon that are not limited by Western centrism or other nationalist or religious hegemonies *Social Science and the Self* Susan Krieger, 1991 Women, Knowledge, and Reality Ann Garry, Marilyn Pearsall, 2015-07-17 This second edition of *Women Knowledge and Reality* continues to exhibit the ways in which feminist philosophers enrich and challenge philosophy Essays by twenty five feminist philosophers seventeen of them new to the second edition address fundamental issues in philosophical and feminist methods metaphysics epistemology and the philosophies of science language religion and mind body This second edition expands the perspectives of women of color of postmodernism and French feminism and focuses on the most recent controversies in feminist theory and philosophy The chapters are organized

by traditional fields of philosophy and include introductions which contrast the ideas of feminist thinkers with traditional philosophers The collected essays illustrate both the depth and breadth of feminist critiques and the range of contemporary feminist theoretical perspectives
