China and the West to 1600 Steven Wallech, 2016-03-30 A comparative history of Chinese and Western Civilization from the dawn of agriculture to the dawn of modernity in Europe China and the West to 1600 explores the factors that led to the divergent evolution of two major cultures of the ancient world and considers how the subsequent developments saw one culture cling to tradition even as the other failed to do so inadvertently setting the stage for the birth of the Modern Era An accessible and inventive comparative history suitable for all students at the college level as well as general readers Compares the history of Chinese civilization with Western civilization from the rise of agriculture to the dawn of the modern period Explores the ways in which Western failures in the Middle Ages after the Roman Empire's collapse and China's successes in the same period laid the groundwork for each culture's divergent path in the modern period Makes meaningful connections between cultures and over time through the use of themes such as agriculture philosophy religion and warfare and invasion Bridges the gap between antiquity and modernity looking at many factors of the global Middle Ages that influenced the development of the modern world Features a timeline maps endnotes and complete index

The War on Error Martin Kramer, 2017-09-08 In The War on Error historian and political analyst Martin Kramer presents a series of case studies some based on pathfinding research and others on provocative analysis that correct misinformation clouding the public's understanding of the Middle East He also offers a forensic exploration of how misinformation arises and becomes fact The book is divided into five themes Orientalism and Middle Eastern studies a prime casualty of the culture wars

Islamism massively misrepresented by apologists Arab politics a generator of disappointing surprises Israeli history manipulated by reckless revisionists and American Jews and Israel the subject of irrational fantasies Kramer shows how error permeates the debate over each of these themes creating distorted images that cause policy failures Kramer approaches questions in the spirit of a relentless fact checker Did Israeli troops massacre Palestinian Arabs in Lydda in July 1948 Was the bestseller Exodus hatched by an advertising executive Did Martin Luther King Jr describe anti Zionism as antisemitism Did a major post 9 11 documentary film deliberately distort the history of Islam Did Israel push the United States into the Iraq War Kramer also questions paradigms the Arab Spring the map of the Middle East and linkage Along the way he amasses new evidence exposes carelessness and provides definitive answers **Gobekli Tepe** Avi

Bacheneimer,2017-06-17 In the Neolithic Near East the Anatolian landmass of modern day Turkey functioned as an over reaching land bridge connecting the three continents of Europe Asia and Africa to one another The larger geographical landscape of today s Middle East was surrounded by the five major seas of antiquity The Mediterranean Sea the Black Sea the Persian Gulf the Red Sea and the Caspian Sea The rivers of Tigris and Euphrates ran across the hills mountain ranges and plains and volcanic fields of the Armenian highlands provided invaluable obsidian rocks suitable for making sharp razor edged stone tools As the late Klaus Schmidt once put it the slopes of the Taurus mountains were a hunter s dream and a prime piece of paradise coming true In this region humans and the environment were brought so close to one another and plants and animals appeared so abundant that the early hunter gatherers scattered across the land for the first time adopted primary storage and conservation methods The strategies which gave way to the rise of agriculture and domestication of animals in the course of the coming millennia G bekli Tepe was at the heart of this cultural and economic transition Here the Neolithic Revolution was begun *Anarcho-primitivism* , Sources of Power Manfred Weissenbacher,2009-09-30 A landmark book rolls out a bold new energy based theory of human history based on a simple yet powerful law whoever controls the world s effective energy supplies during a given energy age will inevitably dominate the economic political and cultural history of that age The innovative theory articulated in Sources of Power How Energy Forges Human History parses history into four ages the foraging agriculture coal and oil ages each defined by the dominant source of power Manfred Weissenbacher tests this sweeping theory against the panorama of world history combining formidable powers of synthesis with a specialist s deep understanding of energy systems and technologies After proving the operation of his law through history and into the present Weissenbacher applies it to global geopolitical trends He assesses the prospects of the various candidate technologies to succeed oil and charts future scenarios based on the distribution of energy reserves Finally he forecasts the fates of the American and Chinese empires in the twilight of the oil age the United States as a mature superpower forced to deploy military might to occupy oilfields in the Middle East China as an emerging superpower forced to deploy economic might to muscle in on the development of Third World oilfields **Phylogeographic History of Plants**
