**History of American Oratory** Warren C. Shaw,1979      *Gender and Rhetorical Space in American Life, 1866-1910* Nan Johnson,2002 Nan Johnson demonstrates that after the Civil War nonacademic or parlor traditions of rhetorical performance helped to sustain the icon of the white middle class woman as queen of her domestic sphere by promoting a code of rhetorical behavior for women that required the performance of conventional femininity Through a lucid examination of the boundaries of that gendered rhetorical space and the debate about who should occupy that space Johnson explores the codes governing and challenging the American woman s proper rhetorical sphere in the postbellum years While men were learning to preach practice law and set political policies women were reading elocution manuals letter writing handbooks and other conduct literature These texts reinforced the conservative message that women s words mattered but mattered mostly in the home Postbellum pedagogical materials were designed to educate Americans in rhetorical skills but they also persistently directed the American woman to the domestic sphere as her proper rhetorical space Even though these materials appeared to urge the white middle class women to become effective speakers and writers convention dictated that a woman s place was at the hearthside where her rhetorical talents were to be used in counseling and instructing as a mother and wife Aided by twenty one illustrations Johnson has meticulously compiled materials from historical texts no longer readily available to the general public and in so doing has illuminated this intersection of rhetoric and feminism in the nineteenth century The rhetorical pedagogies designed for a postbellum popular audience represent the cultural sites where a rethinking of women s

roles becomes open controversy about how to value their words Johnson argues this era of uneasiness about shifting gender roles and the icon of the quiet woman must be considered as evidence of the need for a more complete revaluing of women's space in historical discourse

*American Rhetoric* Thomas W. Benson, 1989 Nine fresh views of the interconnections of historical critical and theoretical scholarship in the field of American rhetoric Stephen T Olsen addresses the question of how to determine the disputed authorship of Patrick Henry's Liberty or Death speech of March 23 1775 Stephen E Lucas analyzes the Declaration of Independence as a rhetorical action designed for its own time and drawing on a long tradition of English rhetoric Carroll C Arnold examines the communicative qualities of constitutional discourse as revealed in a series of constitutional debates in Pennsylvania between 1776 and 1790 James R Andrews traces the early days of political pamphleteering in the new American nation Martin J Medhurst discusses the generic and political exigencies that shaped the official prayer at Lyndon B Johnson's inauguration In *Rhetoric as a Way of Being* Benson acknowledges the importance of everyday and transient rhetoric as an enactment of being and becoming Gerard A Hauser traces the Carter Administration's attempt to manage public opinion during the Iranian hostage crisis Richard B Gregg ends the book by looking for conceptual metaphorical patterns that may be emerging in political rhetoric in the 1980s

*American Oratory*, 1836 **American Oratory of To-day** Edwin Du Bois Shurter, 1910 **Oratory in Native North America** William M. Clements, 2022-07-12 In Euroamerican annals of contact with Native Americans Indians have consistently been portrayed as master orators who demonstrate natural eloquence during treaty negotiations councils and religious ceremonies Esteemed by early European commentators more than indigenous storytelling oratory was in fact a way of establishing self worth among Native Americans and might even be viewed as their supreme literary achievement William Clements now explores the reasons for the acclaim given to Native oratory He examines in detail a wide range of source material representing cultures throughout North America analyzing speeches made by Natives as recorded by whites such as observations of treaty negotiations accounts by travelers missionaries reports captivity narratives and soldiers' memoirs Here is a rich documentation of oratory dating from the earliest records Benjamin Franklin's publication of treaty proceedings with the Six Nations of the Iroquois the travel narratives of John Lawson who visited Carolina Indians in the early 1700s accounts of Jesuit missionary Pierre De Smet who evangelized to Northern Plains Indians in the nineteenth century and much more The book also includes full texts of several orations These texts are comprehensive documents that report not only the contents of the speeches but the entirety of the delivery the textures situations and contexts that constitute oratorical events While there are valid concerns about the reliability of early recorded oratory given the prejudices of those recording them Clements points out that we must learn what we can from that record He extends the thread unwoven in his earlier study *Native American Verbal Art* to show that the long history of textualization of American Indian oral performance offers much that can reward the reader willing to scrutinize the entirety of the texts By focusing on this one genre of verbal art he shows us ways in which the sources are and

are not valuable and what we must do to ascertain their value Oratory in Native North America is a panoramic work that introduces readers to a vast history of Native speech while recognizing the limitations in premodern reporting By guiding us through this labyrinth Clements shows that with understanding we can gain significant insight not only into Native American culture but also into a rich storehouse of language and performance art *American Oratory*, 1836 The Handbook of Rhetoric and Public Address Shawn J.
