A History of Women’s Prisons in England Susanna Menis, 2019-11-19 This book presents a revisionist prison history which brings to the forefront the relationship between gender and policy It examines women s prisons in England from the late 18th century to the beginning of the 20th century drawing attention to the detrimental effect the orthodox closed prison

has on penal reform The text investigates the clash between what was conceptualised as desirable prison policy and the actual implementation and implications of such a penalty on the prisoner It challenges previous claims made about the invisibility of women prisoners in historical penal policy and provides an original analysis of the open prison taking HMP Askham Grange as a case study where the history of such an initiative is explored and debated **The Rise and Fall of the Rehabilitative Ideal, 1895-1970** Victor Bailey,2019-04-09 Spanning almost a century of penal policy and practice in England and Wales this book is a study of the long arc of the rehabilitative ideal beginning in 1895 the year of the Gladstone Committee on Prisons and ending in 1970 when the policy of treating and training criminals was very much on the defensive Drawing on a plethora of source material such as the official papers of mandarins ministers and magistrates measures of public opinion prisoner memoirs publications of penal reform groups and prison officers the reports of Royal Commissions and Departmental Committees political opinion in both Houses of Parliament and the research of the first cadre of criminologists this book comprehensively examines a number of aspects of the British penal system including judicial sentencing law making and the administration of legal penalties In doing so Victor Bailey expertly weaves a complex and nuanced picture of punishment in twentieth century England and Wales one that incorporates the enduring influence of the death penalty and will force historians to revise their interpretation of twentieth century social and penal policy This detailed and ground breaking account of the rise and fall of the rehabilitative ideal will be essential reading for scholars and students of the history of crime and justice and historical criminology as well as those interested in social and legal history

Criminal Martin J. Wiener, 1990 This ambitious and imaginative work interprets criminal justice history by relating it to intellectual and cultural history Starting from the assumption that policies and statutes originate in a society's values and norms the author skilfully and persuasively demonstrates how changes in criminal law and penal practice were related to the changing values of early mid and late Victorian and Edwardian society Wiener traces changes in the criminal justice system by examining the treatment of offenders During the Victorian period the system became more punitive and was then reformed in line with welfarist thinking Wiener's wide ranging discussion of issues most notably of free will versus determinism sheds light on a broad range of Victorian history beyond crime and punishment

Motherhood confined

Rachel E. Bennett, 2024-01-30 When we imagine life behind the high walls of the fortress like prisons that were built and modified as the modern prison system was created in the mid nineteenth century we conjure up scenes where strict regulation prevailed to control people in body and in mind An image that poses something of a paradox is that of mothers and their babies living in this carceral environment This book looks behind the cell doors of these institutions to illuminate the experiences of this group of prisoners The management of their health alongside the management of penal discipline posed complex conundrums to the prison system Although rarely fully considered at policy level this balancing act was negotiated by those who lived and worked in prisons on a daily basis
