Letters from Alabama Philip Henry Gosse, 1859 **Letters from Alabama, chiefly relating to Natural History**
Philip Henry Gosse, 1859 **LETTERS FROM ALABAMA (U. S.)** PHILIP HENRY. GOSSE, 2018 Letters from Alabama
(U.S.) Philip Henry Gosse, 2015-04-30 This 1859 work recounts Gosse's nine month stay in Alabama in 1838-9 with
descriptions of the wildlife he observed there **Letters From Alabama (U. S.)** Philip Henry Gosse, 2015-08-05 Excerpt
from Letters From Alabama U S Chiefly Relating to Natural History The following pages contain records of impressions made
upon my mind during a residence of seven or eight months in the hilly region of the State of Alabama It is a part of the
United States visited by comparatively few Europeans and those who have ever seen it have almost exclusively confined their
acquaintance with it to the brief glances obtained from the interior of a stage coach or the deck of a river steamer The aspect
of nature in particular presented much that was novel and beautiful to me and induced me to believe that what had pleased
me in the observation might please others in the recital About the Publisher Forgotten Books publishes hundreds of
thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important
historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original
format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish
or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any

Henry Gosse, 2012-11 This new and improved edition of Letters from Alabama offers a valuable window into pioneer Alabama
and the landscape and life forms encountered by early settlers of the state Philip Henry Gosse 1810-1888 a British naturalist
left home at age seventeen and made his way to Alabama in 1838 He was employed by Judge Reuben Saffold and other
planters near Pleasant Hill in Dallas County as a teacher for about a dozen of their children but his principal interest was
natural history Letters from Alabama is a personalized record of Gosse's perceptive observations during his eight month
residence in this small antebellum community The work addresses a Victorian readership including entomologists who Gosse
believed were relatively uninformed about the novelty and beauty of this hilly region of the State of Alabama Written in an
engaging literary style and organized as a series of epistolary discussions the book is unparalleled in its detailed evocations
of the natural history and cultural conditions of frontier Alabama By the time Letters from Alabama appeared in 1859 Gosse's
scientific publications and fine illustrations had led to his being elected a Fellow of the Royal Society of London Edited by
Gary R Mullen and Taylor D Littleton this authoritative edition features thirty grayscale lithographs shot directly from the
1859 edition reset type for easier reading a new introduction and index by the two foremost scholars of Gosse in Alabama a
new appendix that provides modern scientific and common names for the plant and animal species described by Gosse and a
four color cover featuring one of the plates from Gosse's *Entomologia Alabamensis* *Letters from Alabama on Various*
