[The Vocation of Sara Coleridge](#) Robin Schofield,2018-02-12 This book presents a fundamental reassessment of Sara Coleridge It examines her achievements as an author in the public sphere and celebrates her interventions in what was a masculine genre of religious polemics Sara Coleridge the religious author was the peer of such major figures as John Henry Newman and F D Maurice and recognized as such by contemporaries Her strategic negotiations with conventions of gender and authorship were subtle and successful In this rediscovery of Sara Coleridge the author revises perspectives upon her literary relationship with Samuel Taylor Coleridge Far from sacrificing her opportunities in service of her father s memory her rationale is to exploit his metaphysics in original religious writings that engage with urgent controversies of her own times Sara Coleridge critiques the Oxford theology of Newman and his colleagues for authoritarian and elitist tendencies and for creating a negative culture in religious discourse In response she experiments with methodologies of collaborative dialogic exchange in which form as much as content will promote liberal inclusive and productive encounters She develops this agenda in her major religious work the unpublished *Dialogues on Regeneration* 1850-51 which this book examines in its penultimate chapter

**Coleridge's Contemplative Philosophy** Peter Cheyne,2020-01-09 PHILOSOPHY or the doctrine and discipline of ideas as S T Coleridge understood it is the theme of this book It considers the most vital and mature vein of Coleridge s thought to be the contemplation of ideas objectively as existing powers A theory of ideas emerges in critical engagement with thinkers including Plato Plotinus B hme Kant and Schelling A commitment to the transcendence of reason

central to what he calls the spiritual platonic old England distinguishes him from his German contemporaries The book also engages with Coleridge s poetry especially in a culminating chapter dedicated to the Limbo sequence This book pursues a theory of contemplation that draws from Coleridge s theories of imagination and the Ideas of Reason in his published texts and extensively from his thoughts as they developed throughout unpublished works fragments letters and notebooks He posited a hierarchy of cognition from basic sense intuition to the apprehension of scientific ethical and theological ideas The structure of the book follows this thesis beginning with sense data moving upwards into aesthetic experience imagination and reason with final chapters on formal logic and poetry that constellate the contemplation of ideas Coleridge s Contemplative Philosophy is not just a work of history of philosophy it addresses a figure whose thinking is of continuing interest arguing that contemplation of ideas and values has consequences for everyday morality and aesthetics as well as metaphysics The volume will be of interest to philosophers intellectual historians scholars of religion and of literature

Science, Form, and the Problem of Induction in British Romanticism Dahlia Porter, 2018-06-07 Traces the practice of induction manipulating textual evidence by selective quotation and its uses by Romantic period writers **The Aesthetics of the Undersea** Margaret Cohen, Killian Quigley, 2018-12-20 Among global environments the undersea is unique in the challenges it poses and the opportunities it affords for sensation perception inquiry and fantasy The Aesthetics of the Undersea draws case studies in such potencies from the subaqueous imaginings of Western culture and from the undersea realities that have inspired them The chapters explore aesthetic engagements with underwater worlds and sustain a concern with submarine sense in several meanings of that word when submerged faculties and fantasies transform confronting human subjects with their limitations while enlarging the apparent scope of possibility and invention Terrestrially established categories and contours shift metamorphose or fail altogether to apply As ocean health acquires an increasing share of the global environmental imaginary the histories of submarine sense manifest ever greater importance and offer resources for documentation as well as creativity The chapters deal with the sensory material and formal provocations of the underwater environment and consider the consequences of such provocations for aesthetic and epistemological paradigms Contributors who hail from the United States United Kingdom and Australia include scholars of literature art new media music and history Cases studies range from baroque and rococo fantasies to the gothic surrealism modernism and contemporary installation art By juxtaposing early modern and Enlightenment contexts with matters of more recent and indeed contemporary importance The Aesthetics of the Undersea establishes crucial relations among temporally remote entities which will resonate across the environmental humanities The Politics of Romantic Poetry R. Cronin, 2000-01-13 In recent years critics of Romantic poetry have divided into two groups that have little to say to one another One group as yet the most numerous insists that to study a poem is to investigate the historical circumstances out of which it was produced the other retorts that poetry offers pleasures fully available only to readers whose attention is focused on their language This book attempts to reconcile the two

groups by arguing that a poet's most effective political action is the forging of a new language and that the political import of a poem is a function of its style

**The Making of Poetry** Adam Nicolson, 2020-01-21 Brimming with poetry art and nature writing Wordsworth and Coleridge as you've never seen them before June 1797 to September 1798 is the most famous year in English poetry Out of it came Samuel Taylor Coleridge's *The Rime of the Ancient Mariner* and *Kubla Khan* as well as his unmatched hymns to friendship and fatherhood and William Wordsworth's revolutionary songs in *Lyrical Ballads* along with *Tintern Abbey* Wordsworth's paean to the unity of soul and cosmos love and understanding In *The Making of Poetry* Adam Nicolson embeds himself in the reality of this unique moment exploring the idea that these poems came from this particular place and time and that only by experiencing the physical circumstances of the year in all weathers and all seasons at night and at dawn in sunlit reverie and moonlit walks can the genesis of the poetry start to be understood The poetry Wordsworth and Coleridge made was not from settled conclusions but from the adventure on which they embarked thinking of poetry as a challenge to all received ideas stripping away the dead matter looking to shed consciousness and so change the world What emerges is a portrait of these great figures seen not as literary monuments but as young men troubled ambitious dreaming of a vision of wholeness knowing they had greatness in them but still in urgent search of the paths toward it The artist Tom Hammick accompanied Nicolson for much of the year making woodcuts from the fallen timber in the park at Alfoxden where the Wordsworths lived Interspersed throughout the book his images bridge the centuries depicting lives at the source of our modern sensibility a psychic landscape of doubt and possibility full of beauty and thick with desire for a kind of connectedness that seems permanently at hand and yet always out of reach
