Federalism The Multi Ethnic Challenge:

Federalism Graham Smith, 2014-09-25 This book provides a comprehensive and detailed examination of the successes and failures of federalism in a diverse range of multi ethnic polities and societies It offers excellent coverage of the experiences of a wide range of contemporary states with specially commissioned contributions from established authorities An introductory chapter introduces the reader to the nature of federations the political philosophies that underpin federalism the characteristics of federal formations and highlights some of the theories as to why this system of government has failed in some cases to provide ethno regional stability A concluding chapter draws upon the findings and examines the prospects for federalism in the light of the acceleration towards greater economic interdependency and local political fragmentation in the post Cold War world

Language and Federalism Subrata K. Mitra, 1999

Ethnic Diversity and Federalism Dr Yonatan Tesfaye Fessha, 2013-02-28 How federalism can be used to provide recognition and accommodate ethnic groups is an important topic not only in Africa but in multi ethnic communities around the world Examining how institutions of multi ethnic states have been designed to accommodate ethnic diversity while at the same time maintaining national unity this book locates institutional responses to the challenges of ethnic diversity within the context of a federal arrangement It examines how a federal arrangement has been used to reconcile the conflicting pressures of the demand for the recognition of distinctive identities on the one hand and the promotion of political and territorial integrity on the other Comparative case studies of South Africa and Ethiopia as the two federal systems provide a contrasting approach to issues of ethnic diversity Suggesting new ways in which federalism might work the author identifies key institutions lessons which will help to build an all inclusive society

Constitutional Democracy in a Multicultural and Globalised World Thomas Fleiner, Lidija Basta Fleiner, 2009-01-31 After World War II states transformed into collective fortresses in order to protect competing ideological systems The debate on post modern statehood heavily built on ideological disputes between liberalism and communism over the nature of the economic and social system and the state and government that could sustain such a system What is an ideologically acceptable state concept which tasks and functions should the state fulfil and how to legitimate not only democratic but also authoritarian and even totalitarian regimes These questions were at the very centre of state theory However after the fall of communism in Europe and the former Soviet Union the discourse of state and government scholarship radically changed The need for a profound shift in the state paradigm was emerging The time after 1989 seemed to proclaim that the nation state had lost its raison d'être as an island of undisputed and unlimited sovereignty A globalised world order broke open the fortress state that developed within the tradition of European constitutionalism Given the simultaneous structural changes to the nation state's foundations socio economic and political reforms going hand in hand with new constitutional designs the state in transition started paving the way towards a new state paradigm and not only with regard to the states in the process of democratic transformation from socialist into liberal constitutional democracies

Diversity and Unity in Federal Countries John Kincaid, César Colino, 2010 In *Diversity and Unity in Federal Countries* leading scholars and practitioners analyse the current political socio economic spatial and cultural diversity in the countries under consideration before delving into the role that social historical and political factors have had in shaping the balance of diversity and unity The authors assess the value placed on diversity by examining whether present institutional arrangements and public policies restrict or enhance diversity and address the future challenges of balancing diversity and unity in an increasingly populated and mobile world

The Social Construction of Diversity Christiane Harzig, Danielle Juteau Lee, 2003 Though the composition of the populace of industrial nations has changed dramatically since the 1950s public discourse and scholarship however often remain welded to traditional concepts of national cultures ignoring the multicultural realities of most of today's western societies Through detailed studies this volume shows how the diversity affects the personal lives of individuals how it shapes and changes private national and international relations and to what extent institutions and legal systems are confronted with changing demands from a more culturally diverse clientele Far from being an external factor of society this volume shows diversity has become an integral part of people's lives affecting their personal institutional and economic interaction

Constitutionalizing Secession in Federalized States Miodrag A. Jovanović, 2007 This book is a thorough and professional study about secession Starting from the perspective of contemporary political philosophy the book explores the relevance of this issue for the theory and practice of federalism as well as its status under current public international law and concludes with a comparative constitutional analysis of the subject matter In the final chapter it provides a constitutionalized procedure of secession based on fundamental liberal democratic values The book argues that a liberal democratic response to the secession controversy might consist of the constitutionalization of a right to secession While a number of recent works in political theory point to the fact that under certain circumstances the moral right of a group to secession should be recognized only a few of them are ready to defend the institutionalization of that right through the instruments of constitutional law This topical and thought provoking book is a welcome contribution to the ongoing debate on secession and will be of interest to academics in a variety of disciplines such as law history politics international relations philosophy and applied ethics and to politicians and constitution drafters

Muslim Laws, Politics and Society in Modern Nation States Ihsan Yilmaz, 2016-12-05 Drawing on theories of legal pluralism this book tests whether and to what extent claims of the modern nation state laws to exclusive dominance over other spheres are tenable and reassesses the operation of law in society Incorporating a combination of legal theory post modern critique and socio legal analysis of three current jurisdictions in which Muslims play an important role the volume identifies Muslims current socio legal situation and attitudes from different perspectives and reconciles them with modern legal systems in three key countries It analyzes the conflict between the assumptions of modern legal systems and plural legal realities and also examines attempts by modern legal systems to impose official laws in the face of resistance from unofficial Muslim laws and discusses possible responses to the challenge of dynamic Muslim legal pluralism A valuable resource for students researchers and academics with an interest in the areas of Islamic law and politics and the interplay between secular law and religious cultural traditions

The Struggle for South Sudan Luka Biong Deng Kuol, Sarah Logan, 2018-11-29 South Sudan the world's youngest country has experienced a rocky start to its life as an independent nation Less than three years after gaining independence in 2011 following a violent liberation war the country slid back into conflict In the wake of infighting within the ruling Sudan People's Liberation Movement SPLM violence erupted in South Sudan's capital Juba in December 2013 The conflict pitted President Salva Kiir's predominantly Dinka presidential guard against Nuer fighters loyal to the former Vice President Riek Machar As fighting spread across the country it has taken on an increasingly ethnic nature Ceasefires have been agreed but there have been repeated violations by all sides Today the conflict continues unabated and the humanitarian situation grows ever more urgent This book analyses the crisis and some of its contributing factors The contributors have worked on South Sudan for a number of years and bring a wealth of knowledge and different perspectives to this discussion Providing the most comprehensive analysis yet of South Sudan's social and political history post independence governance systems and the current challenges for development this book will be essential reading for all those interested in the continuing struggle for peace in South Sudan

Changing Identifications and Alliances in North-east Africa Günther Schlee, Elizabeth E. Watson, 2009-10-01 Forms of group identity play a prominent role in everyday lives and politics in northeast Africa Case studies from Sudan Ethiopia Uganda and Kenya illustrate the way that identities are formed and change over time and how local national and international politics are interwoven Specific attention is paid to the impact

of modern weaponry new technologies religious conversion food and land shortages international borders civil war and displacement on group identities Drawing on the expertise of anthropologists historians and geographers these volumes provide a significant account of a society profoundly shaped by identity politics and contribute to a better understanding of the nature of conflict and war and forms of alliance and peacemaking thus providing a comprehensive portrait of this troubled region

Contemporary Governance Challenges in the Horn of Africa Charles Manga Fombad, Assefa Fiseha, Nico Steytler, 2022-09-06 This book argues that a leading cause of the political instability in the Horn of Africa is a crisis of governance caused by extreme centralization of power weak institutions and the failure to institutionalise the responsible use of authority In recent years many attempts have been made to resolve the ongoing conflicts in Somalia and South Sudan but problems remain and in 2019 the instability spread to Ethiopia This book critically examines how many of the governance problems in the region can be addressed through institutional design The central argument is that an inclusive system of governance through federalism devolution and inclusive political institutions as well as ensuring the institutionalization of power through strengthening the rule of law has the potential to make governments more accountable inclusive and be able to deliver critical services Such systems ensure relative stability and peace and reduce the risks of state fragmentation a major concern in the region Demonstrating that the threats of further fragmentation and conflict due to the crisis of governance are likely to continue unless serious steps are taken to deal with the situation the book will be an important read for researchers and policy makers with an interest in peacemaking politics constitutional law and federalism in the region

The Ethnopolitics of Ethnofederalism in Ethiopia Jan Erk, 2017-12-01 Ethiopia is the darling of development economists since 2005 the country's economic growth rate has consistently been over the 10% mark Ethiopia is also a regional superpower with political influence across East Africa and the Horn Furthermore the African Union has its headquarters in the capital Addis Ababa which further underscores the country's growing international profile On top of everything since 1995 Ethiopia has a federal constitution explicitly committed to granting political autonomy to all ethnic groups within the country Ethiopia's federalism has also direct relevance to the country's neighbours Eritrea Somalia Kenya South Sudan and Djibouti who have ethnic kin across the borders with Ethiopia Yet despite the generous promises to the country's ethnic groups stated in the constitution not everything is well As marked by the recent unrest throughout various regions of the country the federal constitution's promises and the reality do not always perfectly align But there is a shortage of even handed scholarly analyses of this complex country and in particular its unique federal system Based on chapters focusing on different parts of the federal system the collection takes stock of the last 20 years and distils lessons and insights for a broader international comparative readership The chapters originally published in *Ethnopolitics and Regional Federal Studies*

Planning in a Global Era Andy Thornley, 2017-03-02 Globalization was the buzzword of the last decade Advances in communication technology computing and air travel have all contributed to the establishment of what has been referred to

as a network society that encompasses the globe Such arguments clearly have a significance on planning an activity which has been concerned with controlling and shaping the use of space This volume brings together contributions from across the world in order to address some of the questions that arise from such global changes The opening section addresses the globalization debate directly raising some theoretical issues and exploring the planning implications across a range of world cities This is followed by an exploration of the way the theoretical debate about planning may need to advance to encompass contemporary forces A number of more specific accounts addressing the need for adaptation are offered The final section focuses on two aspects housing and sustainability which persist as wicked problems and are likely to remain at the top of the agenda in the third millennium Africa's International Relations in a Globalising World Usman A. Tar, Sharkdam

Wapmuk, 2022-10-26 Since its emergence in 1960 as an independent state Nigeria has stood out as the most populous Black country in the world In *Africa's International Relations in a Globalising World Perspectives on Nigerian Foreign Policy at Sixty and Beyond* edited by Usman A Tar and Sharkdam Wapmuk contributors examine Nigeria's role within Africa as well as internationally This book shows how Nigeria has used the platforms of international organisations to advance its interests while fulfilling its regional and global obligations The contributors address areas such as Nigeria's economic development and policies Nigeria's relationship with other countries and the urgent challenge of countering terrorism in the context of ensuring sustainable development The COVID 19 pandemic brought to the fore the need for strong global relations and reminded humanity of the importance of multilateral solutions to global problems such as health The editors and contributors address essential questions such as how well has Nigerian foreign policy and its practice of diplomacy served national interest and what more needs to be done to assure of better results now and into the future *Exploring Sustainability*

Science Michael Burns, 2008-08-01 Southern Africa is well blessed with a diverse and vibrant human population and a wealth of natural capital The key challenge for sustainable development is to grow society's capacity to use this natural capital to meet the needs of the region's human population especially the poor in ways that sustain environmental life support systems Collaborating across disciplines the authors explore the underpinning principles and the potential of sustainability science in a number of case studies *The Puzzle of India's Governance* Subrata K. Mitra, 2007-05-07 India no longer gets an easy ride as the world's largest democracy Spectacular terrorist attacks on its Parliament and places of worship communal riots of unprecedented ferocity lingering separatist insurgency and violent caste conflict in impoverished regions have combined to cause a closer appraisal of India's capacity to sustain the rule of law This book shows how governance is high when people follow the rules of transaction derived from binding custom legislation administrative practices and the constitution The key question that underpins this analysis is why do some people sometimes follow rules and not others This study responds to this central question by looking at analytical narratives of political order in six Indian regional States surveys of social and political attitudes and extended interviews with political leaders administrators and police officers It shows how by drawing

on the logic of human ingenuity driven by self interest rather than mechanical adherence to tradition and ideology these regional elites can design institutions and promote security welfare and identity which enhance governance
