themselves and their families in two of the Atlantic World's most important urban centers Cartagena along the Caribbean coast of modern day Colombia and Charleston in the lowcountry of North America's Atlantic coast Built on research conducted on three continents this book takes a comparative approach to the contours of black freedom in the Americas It examines how various paths to freedom responses to the Haitian Revolution engagement in skilled labor involvement with social institutions and the role of the church all helped shape the experiences of free people of color in the Atlantic World As free people of color claimed rights privileges and distinctions not typically afforded to those of African descent they engaged with white elites and state authorities in ways undermined whites claims of racial superiority
