Female Masculinity Judith Halberstam, 2003 **Female Masculinity** Judith Halberstam, 2014-05-10 *Masculinities without Men?*

Jean Bobby Noble, 2010-10-01 Conventional ideas about gender and sexuality dictate that people born with male bodies naturally possess both a man's identity and a man's right to authority. Recent scholarship in the field of gender studies, however, exposes the complex political technologies that construct gender as a supposedly unchanging biological essence with self-evident links to physicality, identity, and power. In *Masculinities without Men*, Jean Bobby Noble explores how the construction of gender was thrown into crisis during the twentieth century, resulting in a permanent rupture in the sex/gender system and how masculinity became an unstable category altered across time, region, social class, and ethnicity. This groundbreaking study maps historical similarities in fictional, cultural, and representational practices between the periods of modernism and postmodernism. Noble examines nineteenth-century sexology, drama, and trial transcripts, and late twentieth-century counter-cultural fiction, popular film, and documentaries, and theoretical texts. Among the works analyzed closely are texts that have been the focus of lesbian, queer, and feminist theory: Radclyffe Hall's *The Well of Loneliness*, Leslie Feinberg's *Stone Butch Blues*, and the film *Boys Don't Cry*. These, as Noble illustrates, make use of similar types of narrative structures and thematic techniques to articulate female masculinity. Also included is an exploration of Rose Tremain's *Sacred Country*, which has never before been studied within this context. Through a critical examination of these texts, Noble demonstrates that trans-gendered and trans-sexual masculinity began to emerge as a unique category in late twentieth-century fiction, distinct from lesbian or female masculinity. Of interest to scholars and students with an interest in sexuality and gender studies, *Masculinities without Men* also makes a vital contribution to literary criticism as well as to cultural and film studies.

Masculinities in Theory Todd W. Reeser, 2023-01-25 The new edition of the essential textbook on masculinity and representations of masculinity in the context of gender and cultural studies. Popular dialogues on gender and sexuality have evolved rapidly in recent decades, and students are finding new and exciting opportunities to examine gender and sexuality from critical perspectives. *Masculinities in Theory: An Introduction*, Second Edition, synthesizes existing approaches to the study of masculinity and presents new theoretical models that enable a deeper and more nuanced investigation of the diverse forms of masculine identity. In this text, students are invited to investigate the constructs of masculinity they encounter in their own lives, offering a way for students to parse the varied and conflicting views on masculinity they may encounter in their communities, in the media, and in history. Now in its second edition, *Masculinities in Theory* has been fully updated to bring this overview of masculinity studies up to date with modern views and contemporary contexts. The text shines a light on new cases for examination drawn from popular culture and current events, including the masculinities of Trump and Putin, Indigenous masculinities, and the influence of the Black Lives Matter movement on concepts of masculinity. An entirely new chapter on trans masculinities is complemented by a thoroughly revised chapter on the experience of affective masculinities. This valuable work covers key theories applicable to gender studies in interdisciplinary humanities and social science programs. Demonstrates the complex nature of masculinity from cultural and theoretical perspectives. Examines how the work

of Butler, Derrida, Foucault and other theorists can be used to interpret and analyze masculinity. Discusses feminist, queer, transgender, postcolonial and ethnic studies in relation to masculinity. Offering a clear, concise and comprehensive introduction to the field. *Masculinities in Theory* Second Edition is the ideal textbook for courses on masculinity as well as general courses in gender studies, sexuality studies and cultural studies. It is also an excellent resource for interdisciplinary courses in literature, art history, film, communications, linguistics, sociology, anthropology, psychology, history and philosophy programs.

Making Girls into Women Kathryn R. Kent, 2003-01-17 *Making Girls into Women* offers an account of the historical emergence of the lesbian by looking at late nineteenth and early twentieth century women's writing. Kathryn R. Kent proposes that modern lesbian identity in the United States has its roots not just or even primarily in sexology and medical literature but in white middle class women's culture. Kent demonstrates how as white women's culture shifted more and more from the home to the school, workplace and boarding house, the boundaries between the public and private spheres began to dissolve. She shows how within such spaces women's culture in attempting to mold girls into proper female citizens ended up inciting in them other, less normative desires and identifications including ones Kent calls protolesbian or queer. Kent not only analyzes how texts represent queer erotics but also theorizes how texts might produce them in readers. She describes the ways postbellum sentimental literature such as that written by Harriet Beecher Stowe, Louisa May Alcott and Emma D. Kelley eroticizes, reacts against and even in its own efforts to shape girls' selves contributes to the production of queer female identifications and identities. Tracing how these identifications are engaged and critiqued in the early twentieth century, she considers works by Djuna Barnes, Gertrude Stein, Marianne Moore and Elizabeth Bishop as well as in the queer subject forming effects of another modern invention, the Girl Scouts. *Making Girls into Women* ultimately reveals that modern lesbian identity marks an extension of rather than a break from nineteenth century women's culture.
