Novel Margaret Anne Doody, 1996 An erudite intelligent and imaginative work of literary scholarship With vivacity grace and wit Doody traces the history of the novel from the ancient novels of Apuleium and Heliodorus through the Renaissance fictions of Boccaccio Cervantes and Rabelais to the official birth of the novel in 18th century England BOSTON GLOBE 39 illustrations

Ventriloquized Bodies Janet L. Beizer, 1994 **The Courtship Novel, 1740-1820** Katherine Sobba Green, 1991 *Gender and Voice in the French Novel, 1730-1782* Aurora Wolfgang, 2017-03-02 Analyzing four best selling novels by both women and men written in the feminine voice this book traces how the creation of women centered salons and the emergence of a feminine poetic style engendered a new type of literature in eighteenth century France The author argues that writing in a female voice allowed writers of both sexes to break with classical notions of literature and style so that they could create a modern sensibility that appealed to a larger reading public and gave them scope to innovate with style and form Wolfgang brings to light how the female voice in literature came to embody the language of sociability but also allowed writers to explore the domain of inter subjectivity while creating new bonds between writers and the reading public Through examination of Marivaux s *La Vie de Marianne* Graffigny s *Lettres d une P ruviennne* Riccoboni s *Lettres de Mistriss Fanni Butlerd* and Laclos s *Les Liaisons dangereuses* she shows that in France this modern feminine sensibility turned the least prestigious of literary genres the novel into the most compelling and innovative literary form of the eighteenth century Emphasizing how the narratives analyzed here refashioned the French literary world through their linguistic innovation and expression of new forms of subjectivity this study claims an important role for feminine voice

narratives in shaping the field of eighteenth century literature

The Feminization of Quest-Romance Dana A. Heller, 2014-03-19 What happens when a woman dares to imagine herself a hero? Questing she sets out for unknown regions. Lighting a torch she elicits from the darkness stories never told or heard before. The woman hero sails against the tides of great legends that recount the adventures of heroic men, legends deemed universal, timeless and essential to our understanding of the natural order that holds us and completes us in its spiral. Yet these myths and rituals do not fulfill her need for an empowering self image nor do they grant her the mobility she requires to imagine, enact and represent her quest for authentic self knowledge. The Feminization of Quest Romance proposes that a female quest is a revolutionary step in both literary and cultural terms. Indeed, despite the difficulty that women writers face in challenging myths, rituals, psychological theories and literary conventions deemed universal by a culture that exalts masculine ideals and universalizes male experience, a number of revolutionary texts have come into existence in the second half of the twentieth century by such American women writers as Jean Stafford, Mary McCarthy, Anne Moody, Marilynne Robinson and Mona Simpson, all of them working to redefine the literary portrayal of American women's quests. They work in part by presenting questing female characters who refuse to accept the roles accorded them by restrictive social norms, even if it means sacrificing themselves in the name of rebellion. In later texts, female heroes survive their lighting out experiences to explore diverse alternatives to the limiting roles that have circumscribed female development. This study of *The Mountain Lion*, *Memories of a Catholic Girlhood*, *Coming of Age in Mississippi*, *Housekeeping* and *Anywhere but Here* identifies transformations of the quest romance that support a viable theory of female development and offer literary patterns that challenge the male monopoly on transformative knowledge and heroic action.

White Ink Stephen M. Hart, 1993 An analysis of the use made of five structuring devices or motifs: the Bildungsroman, the patriarchal prison, the fairy tale, sexual politics and gender trouble in a selection of representative women's novels from Spain and Latin America written between 1936 and the present. STEPHEN M. HART is Reader in the Department of Spanish and Latin American Studies at University College London.

Literary Impressionism and Modernist Aesthetics Jesse Matz, 2001-08-02 This 2001 study addresses the problems of perception and representation that occupied modernist writers such as James Conrad and Woolf.

The Culture of Sensibility G. J. Barker-Benfield, 1992 During the eighteenth century, sensibility, which once denoted merely the receptivity of the senses, came to mean a particular kind of acute and well developed consciousness invested with spiritual and moral values and largely identified with women. How this change occurred and what it meant for society is the subject of G. J. Barker Benfield's argument in favor of a culture of sensibility in addition to the more familiar cult. Barker Benfield's expansive account traces the development of sensibility as a defining concept in literature, religion, politics, economics, education, domestic life and the social world. He demonstrates that the cult of sensibility was at the heart of the culture of middle class women that emerged in eighteenth century Britain. The essence of this culture, Barker Benfield reveals, was its articulation of women's

consciousness in a world being transformed by the rise of consumerism that preceded the industrial revolution The new commercial capitalism while fostering the development of sensibility in men helped many women to assert their own wishes for more power in the home and for pleasure in the world beyond Barker Benfield documents the emergence of the culture of sensibility from struggles over self definition within individuals and above all between men and women as increasingly self conscious groups He discusses many writers from Rochester through Hannah More but pays particular attention to Mary Wollstonecraft as the century s most articulate analyst of the feminized culture of sensibility Barker Benfield s book shows how the cultivation of sensibility while laying foundations for humanitarian reforms generally had as its primary concern the improvement of men s treatment of women In the eighteenth century identification of women with virtue in distress the author finds the roots of feminism to the extent that it has expressed women s common sense of their victimization by men Drawing on literature philosophical psychology social and economic thought and a richly developed cultural background The Culture of Sensibility offers an innovative and compelling way to understand the transformation of British culture in the eighteenth century

Cannibalism in Literature and Film J. Brown,2012-11-14 A comprehensive study of cannibalism in literature and film spanning colonial fiction Gothic texts and contemporary American horror Amidst the sharp teeth and horrific appetite of the cannibal this book examines real fears of over consumerism and consumption that trouble an ever growing modern world

The Feminization of American Culture Ann Douglas,1998-09-30 The Feminization of American Culture seeks to explain the values prevalent in today s mass culture by tracing them back to their roots in the Victorian era

The Novel and the Sea Margaret Cohen,2021-06-08 For a century the history of the novel has been written in terms of nations and territories the English novel the French novel the American novel But what if novels were viewed in terms of the seas that unite these different lands Examining works across two centuries The Novel and the Sea recounts the novel s rise told from the perspective of the ship s deck and the allure of the oceans in the modern cultural imagination Margaret Cohen moors the novel to overseas exploration and work at sea framing its emergence as a transatlantic history steeped in the adventures and risks of the maritime frontier Cohen explores how Robinson Crusoe competed with the best selling nautical literature of the time by dramatizing remarkable conditions from the wonders of unknown lands to storms shipwrecks and pirates She considers James Fenimore Cooper s refashioning of the adventure novel in postcolonial America and a change in literary poetics toward new frontiers and to the maritime labor and technology of the nineteenth century Cohen shows how Jules Verne reworked adventures at sea into science fiction how Melville Hugo and Conrad navigated the foggy waters of language and thought and how detective and spy fiction built on sea fiction s problem solving devices She also discusses the transformation of the ocean from a theater of skilled work to an environment of pristine nature and the sublime A significant literary history The Novel and the Sea challenges readers to rethink their land locked assumptions about the novel

The Feminization of Dr. Faustus Helga Druxes,2010-11 While the decline of the male hero in nineteenth and twentieth century

literature is usually studied in isolation Druxes uses a major manifestation of this phenomenon the failing power of the Faust myth as an interpretive lens through which to illuminate the corresponding rise in the viability of female Faustian heroes or would be heroes Her study of the female Faust figure in the realist novels of Stendhal Gauthier Keller James and the contemporary writer Morgner is further unusual in that she carries out her analyses both against the background of the sociohistorical factors conditioning these female figures and with reference to the mutual interaction of plot and novel form Since nineteenth century writers make female subjectivity the arena in which the conflicts of male subjecthood are debated their attempts to create female versions of the heroic quest for self knowledge speak not only to the crisis of the male model but also to the crisis of the realistic novel Using psychoanalytic theory and French feminist and deconstructionist theory Helga Druxes shows how the female Faustian quest for worldly knowledge and subjecthood develops a new concept of identity that takes its social constructedness into account and she demonstrates some of the transgressive narrative strategies that male and female writers have employed embodying their dissent not only in the creation of a female Faust but in their visions of an authentic female desire for selfhood and socially regenerative female bonding *Fashioning the Silver Fork Novel* Cheryl A Wilson, 2015-10-06 Fashion and celebrity may be twenty first century obsessions but they were also key concepts in Regency culture Both celebrated and condemned for their popularity silver fork novels were extremely prolific during this period This study looks at the social and literary impact of this significant genre **Womanspeak**, 1989 **The Sensation Novel and the Victorian Family Magazine** D. Wynne, 2001-07-11 Victorian sensation novels with their compulsive plots of crime transgression and mystery were bestsellers Deborah Wynne analyses the fascinating relationships between sensation novels and the magazines in which they were serialized Drawing upon the work of Wilkie Collins Mary Braddon Charles Dickens Ellen Wood and Charles Reade and such popular family journals as *All The Year Round* *The Cornhill* and *Once a Week* the author highlights how novels and magazines worked together to engage in the major cultural and social debates of the period **Novel Aspects on Cysticercosis and Neurocysticercosis** Humberto Foyaca Sibat, 2013-01-30 This book includes selected peer reviewed chapters which cover novel aspects of cysticercosis and neurocysticercosis written by well known international researchers representing the most relevant Working Group for Cysticercosis of Mexico Peru Ecuador most of the Eastern and Southern Africa countries and Europe plus other contributions from Canada and United States of America Unfortunately our colleagues from Asia could not participate in this project for several reasons but we hereby acknowledge their contribution to the scientific level reached by the international scientific community Apart from the classic issue that cannot be missing in any book about cysticercosis neurocysticercosis we introduced a new hypotheses and novel aspects on historical background clinical descriptions investigations and treatment modalities related to this zoonotic parasitic disease as a leading cause of epilepsy in developing countries We are looking forward with confidence and pride in the vital role that this book will play for a new vision and mission *Novel Translations* Bethany Wiggin, 2011-06-15

Many early novels were cosmopolitan books read from London to Leipzig and beyond available in nearly simultaneous translations into French English German and other European languages In *Novel Translations* Bethany Wiggin charts just one of the paths by which newness in its avatars as fashion novelties and the novel entered the European world in the decades around 1700 As readers across Europe snapped up novels they domesticated the genre Across borders the novel lent readers everywhere a suggestion of sophistication a familiarity with circumstances beyond their local ken Into the eighteenth century the modern German novel was not German at all rather it was French as suggested by Germans usage of the French word *Roman* to describe a wide variety of genres pastoral romances war and travel chronicles heroic narratives and courtly fictions Carried in large part on the coattails of the Huguenot diaspora these romans nouvelles amours secrets histoires galantes and histories scandaleuses shaped German literary culture to a previously unrecognized extent Wiggin contends that this French chapter in the German novel s history began to draw to a close only in the 1720s more than sixty years after the word first migrated into German Only gradually did the *Roman* go native it remained laden with the baggage from its French origins even into the nineteenth century

Disarming the Nation Elizabeth Young, 1999-12-15 In a study that will radically shift our understanding of Civil War literature Elizabeth Young shows that American women writers have been profoundly influenced by the Civil War and that in turn their works have contributed powerfully to conceptions of the war and its aftermath Offering fascinating reassessments of works by white writers such as Harriet Beecher Stowe Louisa May Alcott and Margaret Mitchell and African American writers including Elizabeth Keckley Frances Harper and Margaret Walker Young also highlights crucial but lesser known texts such as the memoirs of women who masqueraded as soldiers In each case she explores the interdependence of gender with issues of race sexuality region and nation Combining literary analysis cultural history and feminist theory *Disarming the Nation* argues that the Civil War functioned in women s writings to connect female bodies with the body politic Women writers used the idea of civil war as a metaphor to represent struggles between and within women including struggles against the cultural prescriptions of civility At the same time these writers also reimagined the nation itself foregrounding women in their visions of America at war and in peace In a substantial afterword Young shows how contemporary black and white women including those who crossdress in Civil War reenactments continue to reshape the meanings of the war in ways startlingly similar to their nineteenth century counterparts Learned witty and accessible *Disarming the Nation* provides fresh and compelling perspectives on the Civil War women s writing and the many unresolved civil wars within American culture today
