## **Fertility Control:**

Fertility Control - ECAB Shirish N Daftary, 2012-07-05 With the objective of limiting the individual family size to just one or two children most women spend the larger part of their reproductive years attempting to avoid an unwanted or unplanned pregnancy Effective fertility control is important in a woman's life to give her the choices of planning her family and to empower her to accomplish her goals in life besides those of mere childbearing and childrearing As with many other preventative medical interventions the efficacy of contraceptive measures cannot be directly assessed only failures can be quantified The Pearl index is a statistical tool in this context for measuring the effectiveness of the fertility control method and estimation of the number of unintended pregnancies per 100 woman years of exposure It is also used to compare the birth control methods with a lower Pearl index denoting a lower chance of getting unintentionally pregnant Fertility Control has come up with comparative study of different controlling techniques along with the clinical experiences of its eminent authors

Fertility Control in a Risk Society Zakir Husain, Mousumi Dutta, 2016-11-04 This book analyses the reasons for relying on behavioural contraception methods among urban elites in India and examines their efficacy in controlling fertility It also traces variations in contraception choice over the reproductive cycle of women Although researchers and policy makers generally equate reliance on behavioural contraceptive methods with low levels of education and awareness and lack of desire to control fertility this perception has been questioned in recent years The authors analysis of the first three rounds of the National Family Health Survey NFHS data in India reveals that behavioural contraceptive methods are popular in eastern India Moreover it is urban educated women who rely on behavioural methods and are apparently able to regulate fertility quite effectively with such methods NFHS data however has some limitations and this motivates the authors to explore birth control methods through primary surveys of currently married graduate women in Kolkata The use of behavioural contraception methods is a little researched area globally and this is the first book focusing on the topic in India

*Health and Wellness* Gordon Edlin, 2014 *Health and Wellness*, Health Counseling Richard Blonna, Daniel Watter, 2005 *Health Wellness* **Matters of Choice** Iris Ofelia López, 2008 In *Matters of Choice* Iris Lopez presents a comprehensive analysis of the dichotomous views that have portrayed sterilization either as part of a coercive program of population control or as a means of voluntary even liberating fertility control by individual women Drawing upon her twenty five years of research on sterilized Puerto Rican women from five different families in Brooklyn Lopez untangles the interplay between how women make fertility decisions and their social economic cultural and historical constraints Weaving together the voices of these women she covers the history of sterilization and eugenics societal pressures to have fewer children a lack of adequate health care patterns of gender inequality and misinformation provided by doctors and family members

*Women Under Attack* Committee for Abortion Rights and Against Sterilization Abuse (New York, N.Y.), 1988 Provides and examination of sexual and reproductive liberation a summary of right wing attacks an analysis of the social cultural

**Freedom Rising** Christian Welzel, 2013-12-23 This book presents a comprehensive theory of why human freedom gave way to increasing oppression since the invention of states and why this trend began to reverse itself more recently leading to a rapid expansion of universal freedoms and democracy Drawing on a massive body of evidence the author tests various explanations of the rise of freedom providing convincing support of a well reasoned theory of emancipation The study demonstrates multiple trends toward human empowerment which converge to give people control over their lives Most important among these trends is the spread of emancipative values which emphasize free choice and equal opportunities The author identifies the desire for

emancipation as the origin of the human empowerment trend and shows when and why this desire grows strong why it is the source of democracy and how it vitalizes civil society feeds humanitarian norms enhances happiness and helps redirect modern civilization toward sustainable development

*Passion and Power* Kathy Lee Peiss, Christina Simmons, Robert A. Padgug, 1989 *Passion and Power* brings together some of the most recent and innovative writings on the history of sexuality and explores the experiences ideas and conflicts that have shaped the emergence of modern sexual identities Arguing that sexuality is not an unchanging biological reality or a universal natural force the essays in this volume discuss sexuality as an integral part of the history of human experience Articles on sexual assault homosexuality birth control venereal disease sexual repression pornography and the AIDS epidemic examine the ways that sexuality has become a core element of modern social identity in the nineteenth and twentieth century United States It is only in recent years that historians have begun to examine the social construction of sexuality This is the first anthology that addresses this issue from a radical historical perspective examining sexuality as a field of contention in itself and as part of other struggles rooted in divisions of gender class and race Author note Kathy Peiss is Associate Professor of History and Women s Studies at the University of Massachusetts at Amherst and author of *Cheap Amusements Working Women and Leisure in Turn of the century New York* Temple P Christina Simmons is Assistant Professor of History at the University of Cincinnati Raymond Walters College

*Social Problems and Social Welfare* Dr. Afroze Eqbal, 2022-01-16 SOCIAL PROBLEMS AND SOCIAL WELFARE A social problem or a social ill is an issue that relates to society's perception of people's personal lives Different societies have different perceptions and what may be normal behaviour in one society may be a significant social issue in another society Social issues are distinguished from economic issues Some issues have both social and economic aspects such as immigration There are also issues that don't fall into either category such as wars Thomas Paine in Rights of Man and Common Sense addresses man's duty to allow the same rights to others as we allow ourselves The failure to do so causes the birth of a social issue Personal issues are those that individuals deal with themselves and within a small range of their peers and relationships On the other hand social issues threaten values cherished by widespread society For example the unemployment rate of 7.8 percent in the U.S. as of October 2012 is a social issue The line between a personal issue and a public issue may be subjective however when a large enough sector of society is affected by an issue it becomes a social issue Although one person fired is not a social issue the repercussions of 13 million people being fired are likely to generate social issues Welfare is the provision of a minimal level of well being and social support for all citizens sometimes referred to as public aid In most developed countries welfare is largely provided by the government in addition to charities informal social groups religious groups and inter governmental organizations This book will be found useful by all those administrators social workers policymakers etc who are committed to ameliorating the social cultural economic and political conditions prevailing in Indian society Contents Population Rise Urbanization Unemployment Industrialisation Social Welfare Management Volunteer Management Public Private Partnerships Voluntary Organization for the Care of Aged Social Work with Delinquent and Criminals Improving Monitoring and Evaluation of Social Work
