around powerful ideas and have applications to their lives outside of school. The teaching portrayed connects concepts and skills emphasized in national and state standards taught in ways that build on students' prior experiences in their local communities and connect with their family backgrounds and home cultures. The analyses include rich descriptions of the teacher-student interactions that occur during lessons, detailed information about how and why the teacher adapted lesson plans to meet her students' background experiences and adjusted these plans to take advantage of teachable moments that emerged during lessons, and what all of this might imply concerning principles of practice. The principles are widely applicable in elementary schools across the country as well as across the curriculum, not just in social studies and across the elementary grades, not just the primary grades.
