## History Of Colors:

**Blue** Michel Pastoureau, 2001 In this entertaining history the renowned medievalist Pastoureau traces the changing meanings of blue from its rare appearances in prehistoric art to its international ubiquity today in blue jeans and Gauloises cigarette packs 100 color plates

**The Brilliant History of Color in Art** Victoria Finlay, 2014-11-01 The history of art is inseparable from the history of color And what a fascinating story they tell together one that brims with an all star cast of characters eye opening details and unexpected detours through the annals of human civilization and scientific discovery Enter critically acclaimed writer and popular journalist Victoria Finlay who here takes readers across the globe and over the centuries on an unforgettable tour through the brilliant history of color in art Written for newcomers to the subject and aspiring young artists alike Finlay's quest to uncover the origins and science of color will beguile readers of all ages with its warm and conversational style Her rich narrative is illustrated in full color throughout with 166 major works of art most from the collections of the J Paul Getty Museum Readers of this book will revel in a treasure trove of fun filled facts and anecdotes Were it not for Cleopatra for instance purple might not have become the royal color of the Western world Without Napoleon the black graphite pencil might never have found its way into the hands of C zanne Without mango eating cows the sunsets of Turner might have lost their shimmering glow And were it not for the pigment cobalt blue the halls of museums worldwide might still be filled with forged Vermeers Red ocher green earth Indian yellow lead white no pigment from the artist's broad and diverse palette escapes Finlay's shrewd eye in this breathtaking exploration

*A Brief History of Colour Theory* George Pavlidis, 2022-01-05 This book offers a comprehensive introduction in to the various theories of colour and how they developed over the centuries and millennia As colour is the perception of light by our brains the book captures not only the physical phenomena but also psychological and philosophical aspects of colours It starts with ancient studies of Greek philosophers and their insights into light and mirrors then reviews the theory of colors in the middle ages in Europe and Middle East The last big part of the book explains the theories of colours by modern scientists and philosophers starting with Isaac Newton and ending colour schemes of modern digital pictures

**Green** Michel Pastoureau, 2014-08-24 In this beautiful and richly illustrated book the acclaimed author of *Blue* and *Black* presents a fascinating and revealing history of the color green in European societies from prehistoric times to today Examining the evolving place of green in art clothes literature religion science and everyday life Michel Pastoureau traces how culture has profoundly changed the perception and meaning of the color over millennia and how we misread cultural social and art history when we assume that colors have always signified what they do today Filled with entertaining and enlightening anecdotes *Green* shows that the color has been ambivalent a symbol of life luck and hope but also disorder greed poison and the devil Chemically unstable green pigments were long difficult to produce and even harder to fix Not surprisingly the color has been associated with all that is changeable and fleeting childhood love and money Only in the Romantic period did green definitively become the color of

nature Pastoureau also explains why the color was connected with the Roman emperor Nero how it became the color of Islam why Goethe believed it was the color of the middle class why some nineteenth century scholars speculated that the ancient Greeks couldn't see green and how the color was denigrated by Kandinsky and the Bauhaus More broadly Green demonstrates that the history of the color is to a large degree one of dramatic reversal long absent ignored or rejected green today has become a ubiquitous and soothing presence as the symbol of environmental causes and the mission to save the planet With its striking design and compelling text Green will delight anyone who is interested in history culture art fashion or media

**A History of Color** Robert A. Crone, 2012-12-06 This is the first comprehensive text on the history of color theories since Halbertsma's book of 1947 Color is discussed in close connection with the evolution of ideas of light and vision The book has chapters on the ancient Greek ideas of vision and color on the contributions of Arabic science on the Scientific Revolution from Kepler to Newton on the early history of the three color hypothesis on the trichromatic theory and defective color vision and on Goethe's Schopenhauer's and Hering's theories New understanding of the structure and functions of the retina and the brain finally results in the modern science of color vision A History of Color has been written for ophthalmologists optometrists and others who are interested in visual science and its history The book requires no specialized knowledge
