**Green Parties in Europe** Emilie van Haute, 2016-04-28. The emergence of green parties throughout Europe during the 1980s marked the arrival of a new form of political movement, challenging established models of party politics and putting new issues on the political agenda. Since their emergence, green parties in Europe have faced different destinies in countries such as Germany, Belgium, Finland, France, and Italy; they have accumulated electoral successes, participated in governments, implemented policies, and established themselves as part of the

party system In other countries their political relevance remains very limited After more than 30 years on the political scene green parties have proven to be more than just a temporary phenomenon They have lost their newness faced success and failure power and opposition grassroots enthusiasm and internal conflicts Green Parties in Europe includes individual case studies and a comparative perspective to bring together international specialists engaged in the study of green parties It renews and expands our knowledge about the green party family in Europe

**State-of-the-art Laser Gas Sensing Technologies** Yufei Ma,Aurore Vicet,Karol Krzempek,2020-03-05 Trace gas sensing technologies are widely used in many applications such as environmental monitoring life science medical diagnostics and planetary exploration On the one hand laser sources have developed greatly due to the rapid development of laser media and laser techniques in recent years Some novel lasers such as solid state diode and quantum cascade lasers have experienced significant progress At present laser wavelengths can cover the range from ultraviolet to terahertz which could promote the development of laser gas sensing technologies significantly On the other hand some new gas sensing methods have appeared such as photothermal spectroscopy and photoacoustic spectroscopy Laser spectroscopy based gas sensing techniques have the advantages of high sensitivity non invasiveness and allowing in situ real time observation Due to the rapid and recent developments in laser source as well as the great merits of laser spectroscopy based gas sensing techniques this book aims to provide an updated overview of the state of the art laser gas sensing technologies
