A Survey of Word Accentual Patterns in the Languages of the World Harry van der Hulst, Rob Goedemans, Ellen van Zanten, 2010 This volume contains a wealth of information on the word accentual metrical stress phenomena that we encounter in natural languages Two types of information will be supplied language profiles in tabular form and survey articles Of the total of 10 chapters in Part I 3 are general in nature while the other 7 describe and analyze word accentual systems in all continents The volume's point of departure is a database called StressTyp StressTyp developed into a database on word prosodic systems of the languages of the world The over 500 languages representing a wide geographical distribution taken from the StressTyp database will be represented in this volume For all these languages information regarding identity sources and stress location s will be included accompanied by some examples in nearly all cases These language data packages will be organized by language family This information constitutes Part II of the volume **The Lexical Phonology of Masset Haida** John Enrico, 1991 This analysis of the Haida language spoken by Indians in the Masset area of the Queen Charlotte Islands British Columbia focusses on two dialects presently in use and is based on recordings by native speakers **The Languages and Linguistics of Indigenous North America** Carmen Dagostino, Marianne Mithun, Keren Rice, 2023-09-05 This handbook provides broad coverage of the languages indigenous to North America with special focus on typologically interesting features and areal characteristics surveys of current work and topics of particular importance to communities The volume is divided into two major parts subfields of linguistics and family sketches The subfields include those that are customarily addressed in discussions of North American languages sounds and sound structure words sentences as well as many that have received somewhat less attention until recently tone prosody sociolinguistic variation directives information structure discourse meaning language over space and time conversation structure evidentiality pragmatics verbal art first and second language acquisition archives evolving notions of fieldwork Family sketches cover major language families and isolates and highlight topics of special value to communities engaged in work on language maintenance documentation and revitalization **The Effects of Duration and Sonority on Countour Tone Distribution** Jie Zhang, 2013-12-16 First Published in 2002 Part of the Outstanding Dissertations in Linguistics series this is an in depth investigation of the effects of duration and sonority on contour tone distribution The term tone language usually refers to languages in which the pitch of a syllable serves lexical or grammatical functions In some tone languages the contrastive functions of pitch are sometimes played by pitch changes within a syllable Pitch changes of this kind are called contour tones The distribution of contour tones in a language are when under what phonological contexts contour tones are more readily realized Northern Haida Songs John Enrico, 1996-01-01 This book describes the musical culture of the Northern Haida Indians who speak two closely related dialects One dialect group lives on Graham Island British Columbia the other on Prince of Wales Island Alaska The recordings on which the book is based were compiled over a period

of more than a decade from a wide variety of historical and contemporary sources Representing the entire range of the Haida musical tradition a tradition that nearly died out and is currently being revived this volume documents its changes over more than a century Part 1 is a lengthy ethnographic description of musical genres that situates Haida music in the context of the Northwest Coast Part 2 presents 128 songs fully transcribed and analyzed and representing some twenty types ranging from traditional genres such as peace making and mourning songs to songs of personal expression composed during the modern period Part 3 is a detailed musical and linguistic analysis of the songs presented in the second part The integration of descriptions of these two facets of song music and language is the particular goal of the book The volume is a substantive contribution to the ethnomusicology of native North America and will be of special interest to scholars concerned with vocables in Native American music John Enrico has been engaged in linguistic research on the Haida language since 1975 His publications include *The Lexical Phonology of Masset Haida* and articles on aspects of Haida grammar Wendy Bross Stuart s first ethnomusicological publication was *Gambling Music of the Coast Salish Indians* In 1980 she began collaborating with John Enrico in the transcription and analysis of Haida songs

The Routledge Handbook of North American Languages Daniel Siddiqi, Michael Barrie, Carrie Gillon, Jason Haugen, Eric Mathieu, 2019-09-25 The Routledge Handbook of North American Languages is a one stop reference for linguists on those topics that come up the most frequently in the study of the languages of North America including Mexico This handbook compiles a list of contributors from across many different theories and at different stages of their careers all of whom are well known experts in North American languages The volume comprises two distinct parts the first surveys some of the phenomena most frequently discussed in the study of North American languages and the second surveys some of the most frequently discussed language families of North America The consistent goal of each contribution is to couch the content of the chapter in contemporary theory so that the information is maximally relevant and accessible for a wide range of audiences including graduate students and young new scholars and even senior scholars who are looking for a crash course in the topics Empirically driven chapters provide fundamental knowledge needed to participate in contemporary theoretical discussions of these languages making this handbook an indispensable resource for linguistics scholars

A Story as Sharp as a Knife Robert Bringhurst, 2011-03-15 The Haida world is a misty archipelago a hundred stormy miles off the coasts of British Columbia and Alaska For a thousand years and more before the Europeans came a great culture flourished in these islands The masterworks of classical Haida sculpture now enshrined in many of the world s great museums range from exquisite tiny amulets to magnificent huge housepoles Classical Haida literature is every bit as various and fine It extends from tiny jewels crafted by master songmakers to elaborate mythic cycles lasting many hours The linguist and ethnographer John Swanton took dictation from the last great Haida speaking storytellers poets and historians from the fall of 1900 through the summer of 1901 His Haida hosts and colleagues had been raised in a wholly oral world where the mythic and the personal interpenetrate completely They joined

forces with their visitor consciously creating a great treasury of Haida oral literature in written form Poet and linguist Robert Bringhurst has worked for many years with these century old manuscripts which have waited until now for the broad recognition they deserve **Journal of Anthropological Research** ,1973 **Skidegate Haida Myths and Histories** John Reed Swanton,1995 *Language* George Melville Bolling,Bernard Bloch,1993 Proceedings of the annual meeting of the Society in v 1 11 1925 34 After 1934 they appear in Its Bulletin **Ancient Pathways, Ancestral Knowledge** Nancy J. Turner,2014-06-01 Volume 1 The History and Practice of Indigenous Plant Knowledge Volume 2 The Place and Meaning of Plants in Indigenous Cultures and Worldviews Nancy Turner has studied Indigenous peoples knowledge of plants and environments in northwestern North America for over forty years In Ancient Pathways Ancestral Knowledge she integrates her research into a two volume ethnobotanical tour de force Drawing on information shared by Indigenous botanical experts and collaborators the ethnographic and historical record and from linguistics palaeobotany archaeology phytogeography and other fields Turner weaves together a complex understanding of the traditions of use and management of plant resources in this vast region She follows Indigenous inhabitants over time and through space showing how they actively participated in their environments managed and cultivated valued plant resources and maintained key habitats that supported their dynamic cultures for thousands of years as well as how knowledge was passed on from generation to generation and from one community to another To understand the values and perspectives that have guided Indigenous ethnobotanical knowledge and practices Turner looks beyond the details of individual plant species and their uses to determine the overall patterns and processes of their development application and adaptation Volume 1 presents a historical overview of ethnobotanical knowledge in the region before and after European contact The ways in which Indigenous peoples used and interacted with plants for nutrition technologies and medicine are examined Drawing connections between similarities across languages Turner compares the names of over 250 plant species in more than fifty Indigenous languages and dialects to demonstrate the prominence of certain plants in various cultures and the sharing of goods and ideas between peoples She also examines the effects that introduced species and colonialism had on the region s Indigenous peoples and their ecologies Volume 2 provides a sweeping account of how Indigenous organizational systems developed to facilitate the harvesting use and cultivation of plants to establish economic connections across linguistic and cultural borders and to preserve and manage resources and habitats Turner describes the worldviews and philosophies that emerged from the interactions between peoples and plants and how these understandings are expressed through cultures stories and narratives Finally she explores the ways in which botanical and ecological knowledge can be and are being maintained as living adaptive systems that promote healthy cultures environments and indigenous plant populations Ancient Pathways Ancestral Knowledge both challenges and contributes to existing knowledge of Indigenous peoples land stewardship while preserving information that might otherwise have been lost Providing new and captivating insights into the anthropogenic systems of northwestern North

America it will stand as an authoritative reference work and contribute to a fuller understanding of the interactions between cultures and ecological systems **Monthly Checklist of State Publications** Library of Congress.
