**Liang Chien-wen Ti** John Marney, 1976 Patronage and Community in Medieval China Andrew Chittick, 2010-07-02 This first book length treatment of a provincial military society in China's early medieval period offers a vivid portrait of this milieu and invites readers to reevaluate their understanding of a critical period in Chinese history Drawing on poetry local history archaeology and Buddhist materials as well as more traditional historical sources Andrew Chittick explores the culture and interrelationships of the leading figures of the Xiangyang region in the north of modern Hubei province in the centuries leading up to the Sui unification Using the model of patron client relations to characterize the interactions between local men and representatives of the southern court at Jiankang the book emphasizes the way in which these interactions were shaped by personal ties and cultural and status differences. The result is a compelling explanation for the shifting unstable and violent nature of the political and military system of the southern dynasties Offering a wider perspective which considers the social world beyond the capital elite the book challenges earlier conceptions of medieval society as aristocratic and rooted in family lineage and officeholding Andrew Chittick is E Leslie Peter Associate Professor of East Asian Humanities at Eckerd College ∏∏ Wenhui He,1993 **Chinese Literature** William McNaughton, 2012-11-13 Almost three thousand years of Chinese literature have been gathered together in Chinese Literature An Anthology from the Earliest Times to the Present Day The earliest preserved folk songs of the peasantry the major works of the Golden Age of Chinese philosophy the prose songs and the later skillful poems of the T ang dynasty the short stories and plays the novels and the poems and stories of men who have made modern China all these are represented in this anthology in complete works or in excerpts Editor William McNaughton presents Chinese literature as an organic development so that the student as well as the general reader can see how genre evolved into genre and form developed into form He has based this presentation on work by Chinese critics and scholars that until recently has not been available outside China In addition to classical writings the poems and stories by twentieth century writers most of which have been newly translated into English give new insights into modern Chinese society and individuals and make this the most complete one volume anthology ever published A History of Chinese Letters and Epistolary Culture, 2015-05-19 A History of Chinese Letters and Epistolary Culture is the first publication in any language that is dedicated to the study of Chinese epistolary literature and culture in its entirety from the early empire to the twentieth century. by Princeton University Press since its founding in 1905 Selfless Offspring Keith N. Knapp, 2005-09-30 Both Western and Chinese intellectuals have long derided filial piety tales as an absurd and grotesque variety of children's literature Selfless Offspring offers a fresh perspective on the genre revealing the rich historical worth of these stories by examining them in their original context the tumultuous and politically fragmented early medieval era A D 100 600 At a time when no Confucian virtue was more prized than filial piety adults were moved and inspired by tales of filial children The emotional impact of even the most outlandish actions portrayed in the stories was profound a measure of the directness with which they spoke to major concerns of the early medieval Chinese elite In a period of weak central government and powerful local clans the key to preserving a household's privileged status was maintaining a cohesive extended family Keith Knapp begins this far ranging and persuasive study by describing two related historical trends that account for the narrative s popularity the growth of extended families and the rapid incursion of Confucianism among China's learned elite Extended families were better at maintaining their status and power so patriarchs found it expedient to embrace Confucianism to keep their large fragile households intact Knapp then focuses on the filial piety stories themselves their structure historicity origin function and transmission and argues that most stem from the oral culture of these elite extended families After examining collections of filial piety tales known as Accounts of Filial Children he shifts from text to motif exploring the most common theme the reverent care and mourning of parents In the final chapter Knapp looks at the relative burden that filiality placed on men and women and concludes that although women largely performed the same filial acts as men they had to go to greater extremes to prove their sincerity The Poetics of Decadence Fusheng Wu,1998-04-30 This intertextual study of decadent tuifei poetry demystifies it by using tuifei as a critical term and by situating it within a conventional system of signs The Poetics of Decadence focuses on four major poets during the Southern Dynasties 420 869 and Late Tang Periods 826 904 when decadent poetry was produced in great quantity namely Xiao Gang Li He Wen Tingyun and Li Shangyin The author argues that decadent poetry challenged the canonical concept and practice of poetry as established by The Great Preface to The Book of Songs and by the poetry of the Han Wei and Jin periods In so doing decadent poetry formed a poetic genre with a unique complex and self reflexive verbal system The rich and complex nature of decadent poetry gives it remarkable resilience in the face of violent condemnation by traditional criticism and allows its successful negotiation with and integration into the canonical tradition Decadent poetry is not a marginal trend as it has been commonly perceived but rather a vital part of the Chinese poetic tradition In the Shadow of the Han Charles Holcombe, 1994-10-01 Charles Holcombe s study of the society and thought of the Eastern Jin 318 420 elite is a valuable addition to what has been a rather thin English language literature on early medieval history In the Shadow of the Han makes a compelling case that the period of disunity between the Han and the Tang has been an unjustly neglected area It will prove stimulating reading for early medieval specialists and for others it will provide a highly competent and readable survey of a period that to this point has

been poorly covered China Review International Spring 1996 The Period of Division between the Han and Sui Tang has not received the attention it deserves in the West for our views of Chinese history have frequently been distorted by the identification of success and civilisation with great and long lasting dynasties. The centuries which followed the fall of the Han however were valuable not only for China's future development but also as an occasion of human experience Professor Holcombe has made an important contribution to our understanding of medieval China and his work should do much to encourage the study of this formative period of philosophy and history R R C de Crespigny Australian National University Historical scholarship on the Southern dynasties has long languished as a moribund offshoot of the study of Chinese poetry and religion In the Shadow of the Han approaches this challenging period with a much broader sensitivity to the elite culture of the time placing it within a clearly conceived socioeconomic and political context The intellectual puzzles of Neo Taoism and hs an hs eh have never been more lucidly grounded in a credible historical world. This is a pioneering study that puts every student of early medieval China in Charles Holcombe s debt Dennis Grafflin Bates College Mountain Richard L. Davis, 2020-10-26 Richard Davis has expertly crafted a stirring narrative of the last years of Song focusing on loyalist resistance to Mongol domination as more than just a political event Davis convincingly argues that Song martyrs were dying for more than dynasty alone martyrdom can be linked to other powerfully compelling symbols as well Seen from the perspective of the conquered the phenomenon of martyrdom reveals much about the cultural history of the Song Davis challenges the traditional view of Song martyrdom as a simple expression of political duty by examining the phenomenon instead from the perspective of material life and masculine identity He also explores the tensions between the outer court of militant radicals and an inner court run by female regents tensions that reflect the broader split between factions of Song government as well as societal conflict Davis reveals the true magnitude of the loyalist phenomenon in this beautifully written fascinating study of Song political loyalty and cultural values Women, the Book, and the Godly Lesley Janette Smith, Jane H. M. Taylor, 1995 Studies of women's roles in the secular literary world as patrons authors readers and characters in secular literature This second volume of proceedings from the Women and the Book conference held at St Hilda's College Oxford in 1993 brings together fifteen papers dealing with women's experience in the secular literary world It covers the whole variety of roles women might take as patrons authors readers and characters in secular literature encompassed in its range are well known characters real and fictional such as Christine de Pisan and the Wife of Bath and the more obscure but no less fascinating topic of women in Chinese medieval court poetry Like its predecessor Women the Book and the Godly Brewer 1995 this volume illuminates the world of medieval women with carefulscholarship and attention to sources producing new readings and new materials which shed fresh light on an increasingly important field of study Contributors PATRICIA SKINNER PHILIP E BENNETT JENNIFER GOODMAN CHARITY CANNON WILLARD BENJAMIN SEMPLE ANNE BIRRELL JEANETTE BEER MARK BALFOUR CAROL HARVEY HEATHER ARDEN KAREN

the story of the Ming dynasty 1368 1644 in Song masquerade It calls attention to the social unrest even anarchy caused by the rising power and influence of movements like The White Lotus Society and warns of the Ming s downfall unless such groups are contained In this the novel proved to be a prescient voice. The Ming collapsed as the result of a central authority weakened by mass sectarian uprisings The Three Sui has been little known and sadly overlooked by scholars of Chinese literature and history Now this vibrant translation and insightful interpretive essay make this early example of Chinese vernacular fiction available to a broad audience interested in comparative literature and fiction The Brush and the Spur Robert Joe Cutter, 1989 Reading China [electronic resource] Daria Berg, 2007 This volume develops a new style of reading Chinese sources as pioneered in Chinese Studies by Professor Glen Dudbridge providing fascinating new insights into Chinese literature history and popular culture The analysis of self fashioning representation and political propaganda sheds new light on Chinese perceptions of the world **Articulated Ladies** Paul Rouzer, 2020-10-26 This volume analyzes the representation of gender and desire in elite male authored literary texts in China dating from roughly 200 B C until 1000 A D Above all it discusses the intimate relationship between the representation of gender and the political and social self representations of elite men and shows where gender and social hierarchies cross paths Paul Rouzer argues that when male authors articulated themselves as women the resulting articulation was inevitably influenced by this act of identification Articulated women are always located within a non existent liminal space between ostensible object and ostensible subject a focus of textual desire both through possession and through identification Nor in male authored texts is this articulation ever fully resolved the potential of multiple interpretations is continually present Catalog of Copyright Entries Library of Congress.
