Understanding Democratic Politics An Introduction will become an essential guide and companion to all students of politics throughout their university degree

Theories of Democracy Ronald J. Terchek, Thomas C. Conte, 2000-07-31 Theories of Democracy builds on Robert Dahl's observation that there is no single theory of democracy only theories Beyond the broad commitment to rule by the majority democracy involves a set of contentious debates concerning the proper function and scope of power equality freedom justice and interests In this anthology Ronald J Terchek and Thomas C Conte have brilliantly assembled the works of classical modern and contemporary commentators to illustrate the deep and diverse roots of the democratic ideal as well as to provide materials for thinking about the way some contemporary theories build on different traditions of democratic theorizing The arguments addressed in Theories of Democracy appear in the voices of authors who have championed influential theories concerning the opportunities and dangers associated with democratic politics In this collection Terchek and Conte have selected excerpts not as a means for promoting a particular way of looking at democracy but rather they have wisely chosen works that will enable students to carry on an informed discourse on the meaning and purposes of democratic principles and practices Theories of Democracy is a must for every student of democracy's past present and future

Constitutional Referendums Stephen Tierney, 2012-04-05 The use of referendums around the world has grown remarkably in the past thirty years and in particular referendums are today deployed more than ever in the settlement of constitutional questions even in countries with little or no tradition of direct democracy This is the first book by a constitutional theorist to address the implications of this development for constitutional democracy in a globalizing age when many of the older certainties surrounding sovereignty and constitutional authority are coming under scrutiny The book identifies four substantive constitutional processes where the referendum is regularly used today the founding of new states the creation or amendment of constitutions the establishment of complex new models of sub state autonomy particularly in multinational states and the transfer of sovereign powers from European states to the European Union The book as a study in constitutional theory addresses the challenges this phenomenon poses not only for particular constitutional orders which are

typically structured around a representative model of democracy but for constitutional theory more broadly The main theoretical focus of the book is the relationship between the referendum and democracy It addresses the standard criticisms which the referendum is subjected to by democratic theorists and deploys both civic republican theory and the recent turn in deliberative democracy to ask whether by good process design the constitutional referendum is capable of facilitating the engagement of citizens in deliberative acts of constitution making With the referendum firmly established as a fixture of contemporary constitutionalism the book addresses the key question for constitutional theorists and practitioners of how might its operation be made more democratic in age of constitutional transformation

The Morality of Conflict

Samantha Besson, 2005-11-25 This book explores the relationship between the law and pervasive and persistent reasonable disagreement about justice It reveals the central moral function and creative force of reasonable disagreement in and about the law and shows why and how lawyers and legal philosophers should take reasonable conflict more seriously Even though the law should be regarded as the primary mode of settlement of our moral conflicts it can and should also be the object and the forum of further moral conflicts There is more to the rule of law than convergence and determinacy and it is important therefore to question the importance of agreement in law and politics By addressing in detail issues pertaining to the nature and sources of disagreement its extent and significance as well as the procedural institutional and substantive responses to disagreement in the law and their legitimacy this book suggests the value of a comprehensive approach to thinking about conflict which until recently has been analysed in a compartmentalized way It aims to provide a fully fledged political morality of conflict by drawing on the analysis of topical jurisprudential questions in the new light of disagreement Developing such a global theory of disagreement in the law should be read in the context of the broader effort of reconstructing a complete account of democratic law making in pluralistic societies The book will be of value not only to legal philosophers and constitutional theorists but also to political and democratic theorists as well as to all those interested in public decision making in conditions of conflict

Politics of Radical Democracy Adrian Little, 2019-08-05 This book

addresses the idea of radical democracy one of the most vibrant currents in contemporary political thought in poststructuralist terms

do and we ought to do political philosophy

Politics, Religion and Gender Sieglinde Rosenberger, Birgit

Sauer, 2013-07-03 Heated debates about Muslim women's veiling practices have regularly attracted the attention of European policymakers over the last decade The headscarf has been both vehemently contested by national and or regional governments political parties and public intellectuals and passionately defended by veil wearing women and their supporters Systematically applying a comparative perspective this book addresses the question of why the headscarf tantalises and causes such controversy over issues about religious pluralism secularism neutrality of the state gender oppression citizenship migration and multiculturalism Seeking also to establish why the issue has become part of the disciplinary practices of some

European countries but not of others this work brings together an important collection of interpretative research regarding the current debates on the veil in Europe offering an interdisciplinary scope and European wide setting Brought together through a common research methodology the contributors focus on the different religious political and cultural meanings of the veiling issue across eight countries and develop a comparative explanation of veiling regimes This work will be of great interest to students and scholars of religion politics gender studies and multiculturalism

Constitutional Politics in the European Union D. Castiglione, J. Schönlau, C. Longman, E. Lombardo, N. Pérez-Solórzano, M. Aziz, 2007-11-28 This volume examines the Convention on the Future of Europe as a moment of European constitutional politics It discusses the contested nature of constitutional politics in the EU and how the Convention dealt with these issues The book also assesses the Convention's aftermath

Rights and the Politics of Recognition in Africa Harri Englund, Francis B. Nyamnjoh, 2004-09-18 Publisher Description

The Liberal Polity C. Carr, 2006-07-28 This book introduces a radically different type of liberal political theory by severing liberal thought from all underlying moral foundations It presents a liberalism that accommodates the differences of worldview and moral theory of the good in today's pluralist societies and also meets liberalism's historic commitment to diversity

Urban Fears and Global Terrors Victor Jeleniewski Seidler, 2007-10-18 First published in 2007 Routledge is an imprint of Taylor Francis an informal company

Critical Republicanism Cécile Laborde, 2008-10-09 The first comprehensive analysis of the philosophical issues raised by the hijab controversy in France this book also conducts a dialogue between contemporary Anglo American and French political theory and defends a progressive republican solution to so called multicultural conflicts in contemporary societies It critically assesses the official republican philosophy of la cit which purported to justify the 2004 ban on religious signs in schools La cit is shown to encompass a comprehensive theory of republican citizenship centered on three ideals equality secular neutrality of the public sphere liberty individual autonomy and emancipation and fraternity civic loyalty to the community of citizens Challenging official interpretations of la cit the book then puts forward a critical republicanism which does not support the hijab ban yet upholds a revised interpretation of three central republican commitments secularism non domination and civic solidarity Thus it articulates a version of secularism which squarely addresses the problem of status quo bias the fact that Western societies are historically not neutral towards all religions It also defends a vision of female emancipation which rejects the coercive paternalism inherent in the regulation of religious dress yet does not leave individuals unaided in the face of religious and secular patriarchal and ethnocentric domination Finally the book outlines a theory of immigrant integration which places the burden of civic integration on basic socio political institutions rather than on citizens themselves Critical republicanism proposes an entirely new approach to the management of religious and cultural pluralism centred on the pursuit of the progressive ideal of non domination in existing non ideal societies Oxford Political Theory presents the best new work in contemporary political theory It is intended to be broad in scope including original contributions to political philosophy and also work in applied

political theory The series will contain works of outstanding quality with no restriction as to approach or subject matter
