Embodying Enlightenment Jeff Watt, Walter Arader, 2015-08-28 This catalog was published in conjunction with the exhibition *Embodying Enlightenment Buddhist Art of the Himalayas* Knoxville September 11 2015 through January 3 2016 curated by Jeff Watt and Walter Arader **Life Embodied** Nicolás Fernández-Medina, 2018-05-30 The concept of vital force the immanent energy that promotes the processes of life in the body and in nature has proved a source of endless fascination and controversy Indeed the question of what vitalizes the body has haunted humanity since antiquity and became even more pressing during the Scientific Revolution and beyond Examining the complexities and theories about vital force in Spanish modernity Nicolás Fernández Medina's *Life Embodied* offers a novel and provocative assessment of the question of bodily life in Spain Starting with Juan de Cabriada's landmark *Carta filosófica místico-chímica* of 1687 and ending with Ramón Gómez de la Serna's avant-gardism of the 1910s Fernández Medina incorporates discussions of anatomy philosophy science critical theory history of medicine and literary studies to argue that concepts of vital force served as powerful vehicles to interrogate the possibilities and limits of corporeality Paying close attention to how the body's capabilities were conceived and strategically woven into critiques of modernity Fernández Medina engages the work of Miguel Boix y Moliner Martín Martínez Diego de Torres Villarroel Sebastián Guerrero Herreros Ignacio María Ruiz de Luzuriaga Gaspar Melchor de Jovellanos Pedro Mata y Fontanet Angela Grassi Julián Sanz del Río Miguel de Unamuno and Pío Baroja among others Drawing on extensive research and analysis *Life Embodied* breaks new ground as the first book to address the question of vital force in Spanish modernity *Reinterpreting Exploration* Dane Keith Kennedy, 2014 Exploration was a central and perhaps defining aspect of the West's encounters with other peoples and lands Rather than reproduce celebratory narratives of individual heroism and national glory this volume focuses on exploration's instrumental role in shaping a European sense of exceptionalism and its iconic importance in defining the terms of cultural engagement with other peoples In chapters offering broad geographic range the contributors address many of the key themes of recent research on exploration including exploration's contribution to European imperial expansion Western scientific knowledge Enlightenment ideas and practices and metropolitan print culture They reassess indigenous peoples' responses upon first contacts with European explorers their involvement as intermediaries in the operations of expeditions and the complications that their prior knowledge posed for European claims of discovery Underscoring that exploration must be seen as a process of mediation between representation and reality this book provides a fresh and accessible introduction to the ongoing reinterpretation of exploration's role in the making of the modern world **Religion Extended** Elena Kalmykova, 2025-04-01 *Religion Extended* contributes to discussions of aspects of religion that go beyond the epistemology of belief incorporating other states such as understanding emotion knowledge of persons knowledge how as well as practice The author looks to bridge the gap in the study of religion between research of religious beliefs on the one hand and research of religious practices on the other She

reconsiders key methodological concepts that traditional philosophy of religion and neighbouring disciplines e.g cognitive science of religion psychology of religion and theology take for granted such as religious belief and religious faith The book offers a compelling and provocative reframing of these notions by drawing on cutting edge developments in cognitive science as well as insights from an Orthodox Christian perspective which shed light on religion in important ways that tend to be neglected Presenting a challenge to the received conceptual framework this innovative and thought provoking volume will advance discussions and open new areas of research

Nuclear Desire Shampa Biswas,2014-09-01 Since its enactment in 1970 the Nuclear Non Proliferation Treaty NPT has

become one node of a massive sprawling multibillion dollar regime that is considered essential to slowing the proliferation of nuclear weapons and weapons technology However according to Shampa Biswas these well intentioned efforts to halt the spread of nuclear weapons deflect attention from a hierarchical global nuclear order dominated by powerful states and capitalist interests that benefit from the status quo In *Nuclear Desire* Biswas proposes that pursuit and production of nuclear power is sustained by this unequal global order whose persistent and daily harmful effects are experienced by some of the most vulnerable bodies around the world Making a compelling case for nuclear abolition she shows that the path to nuclear zero is more successfully traversed through the perspective of postcolonialism and the political economy of injustice rather than through the prism of security In the end the nonproliferation regime maintains a hierarchy of haves and have nots one that reinforces inequalities that run counter to the NPT's broader goal Innovative forcefully argued and long overdue *Nuclear Desire* moves beyond conventional critiques to give scholars and students of international relations new insights into how a more secure world might simultaneously be more peaceful and just

Imagining Identity in New Spain Magali M.

Carrera, 2010-01-01 Using an interdisciplinary approach that also considers legal literary and religious documents of the period Magali Carrera focuses on eighteenth century portraiture and casta paintings to understand how the people and spaces of New Spain were conceptualized and visualized Winner Book Award Association of Latin American Art 2004 Reacting to the rising numbers of mixed blood Spanish Indian Black African people in its New Spain colony the eighteenth century Bourbon government of Spain attempted to categorize and control its colonial subjects through increasing social regulation of their bodies and the spaces they inhabited The discourse of *calidad* status and *raza* lineage on which the regulations were based also found expression in the visual culture of New Spain particularly in the unique genre of casta paintings which purported to portray discrete categories of mixed blood plebeians Using an interdisciplinary approach that also considers legal literary and religious documents of the period Magali Carrera focuses on eighteenth century portraiture and casta paintings to understand how the people and spaces of New Spain were conceptualized and visualized She explains how these visual practices emphasized a seeming realism that constructed colonial bodies elite and non elite as knowable and visible At the same time however she argues that the chaotic specificity of the lives and lived conditions in eighteenth century New Spain belied the illusion of social orderliness and totality narrated in its visual art Ultimately she concludes the inherent ambiguity of the colonial body and its spaces brought chaos to all dreams of order
