Evaluation For School Development:

Evaluation for School Development David Hopkins, 1989 Teachers and other educationalists are increasingly expected to carry out evaluations of new initiatives David Hopkins provides a guide to evaluations the primary focus of which is on practice *School Development: Theories & Strategies* Per Dalin, 2010-07-15 This is the most comprehensive School Development overview text ever written In the first part of the book Dalin sets the stage for a discussion of how schools can improve in the 21st century by providing a detailed historical review of reform in Europe and North America He explores the dilemmas faced by decision makers facing up to pressure for change and provides world wide examples of attempts at decentralization The middle part of the book gives an overview of the theoretical basis for school improvement It examines whether schools behave differently from other types of organization Institutional leadership and management are put under the microscope with particular emphasis placed on the role of the principal in school improvement The book concludes with a brilliant analysis of change strategies It uses practical studies as well as referring back to the contextual framework and theoretical basis provided earlier Strategies are reviewed on three levels of change individual organizational and those which target the entire system *School Development Theories and Strategies* is the culmination of many years work by one of the acknowledged experts in the field Its significance for all those who have an interest in furthering educational standards cannot be overestimated *Monitoring and Evaluation for School Improvement* Mazda Jenkin, Jeff Jones, Sue Lord, 2000 This work explains the background and context to increased accountability in secondary schools It offers practical help with structures and techniques for monitoring and evaluation within subject departments and pastoral areas **The Practice and Theory of School Improvement** David Hopkins, 2008-05-13 ANDY HARGREAVES Department of Teacher Education Curriculum and Instruction Lynch School of Education Boston College MA U S A ANN LIEBERMAN Carnegie Foundation for the Advancement of Teaching Stanford CA U S A MICHAEL FULLAN Ontario Institute for Studies in Education University of Toronto Canada DAVID HOPKINS Department for Education and Skills London U K This set of four volumes on Educational Change brings together evidence and insights on educational change issues from leading writers and researchers in the field from across the world Many of these writers whose chapters have been specially written for these books have been investigating helping initiate and implementing educational change for most or all of their lengthy careers Others are working on the cutting edge of theory and practice in educational change taking the field in new or even more challenging directions And some are more skeptical about the literature of educational change and the assumptions on which it rests They help us to approach projects of understanding or initiating educational change more deeply reflectively and realistically Educational change and reform have rarely had so much prominence within public policy in so many different places Educational change is ubiquitous It figures large in Presidential and Prime Ministerial speeches It is at or near the top of many National policy agendas Everywhere educational change is not only a policy priority but also major public news Yet

action to bring about educational change usually exceeds people's understanding of how to do so effectively
