Front Populaire 1936

Antoine Prost

Front Populaire 1936:

Front Populaire 1936 Louis Bodin, Jean Touchard, 1961 *The Decline of the Third Republic, 1914-1938* Philippe Bernard, Henri Dubief, 1988-02-26 This book provides a detailed account of the Third Republic in France between the outbreak and conduct of the First World War and the fall of Leon Blum's Front Populaire soon after Hitler's invasion and annexation of Austria in 1938 Following the trauma of war France slipped into the era of illusions which despite the comparative prosperity of the 1920s led to the slump and the severe social and economic unrest of the 1930s The short lived experiment of Blum's Front Populaire gave way to more conservatively based ministries but by 1938 a new common enemy began to draw together the political opinion of the country **Léon Blum** Joel Colton, 1987 John Colton is a meticulous researcher and a fine craftsman In his political biography of Leon Blum these two qualities are beautifully blended none of the available evidence appears to have been overlooked and the enormous mass of variegated material has been transmuted in a polished richly tapestried and absorbing narrative *The Popular Front and Central Europe* Nicole Jordan, 2002-08-22 A study of French policies in Central Europe from Versailles until the fall of France **In Pursuit of the People** J. Wardhaugh, 2008-11-12 The first comparative study of how the French Popular Front and its right wing opponents transformed the masses into the people whether in demonstrations and festivals or theatre and film Seven chapters examine the representation of the crowd workers electorate nation and symbolic community exploring parallels between left and right

Algeria, 1830-2000 Benjamin Stora, 2004 A particularly vicious and bloody civil war has racked Algeria for a decade Amnesty International notes that since 1992 in a population of 28 million 80 000 people have been reported killed and the actual total is almost certainly higher This terrible war overshadows Algeria's long and complex history and its prominence on the world economic stage second in size among African nations Algeria has the longest Mediterranean coastline and contains the world's fifth largest natural gas reserves Algeria 1830 2000 is a comprehensive narrative history of the country Benjamin Stora widely recognized as the leading expert on Algeria presents the story of this turbulent area from the start of formal French colonialism in the early nineteenth century through the prolonged war for independence in the latter 1950s to the internal strife of the present day This book adapts and updates three short volumes published originally in French by La D couverte For this English edition Stora has written a new introductory chapter on Algeria's colonial period 1830 1954 and has revised the final section to bring the volume up to date *The French empire between the wars* Martin Thomas, 2017-03-01 By considering the distinctiveness of the inter war years as a discrete period of colonial change this book addresses several larger issues such as tracing the origins of decolonization in the rise of colonial nationalism and a re assessment of the impact of inter war colonial rebellions in Africa Syria and Indochina The book also connects French theories of colonial governance to the lived experience of colonial rule in a period scarred by war and economic dislocation

Childhood in the Promised Land Laura Lee Downs, 2002-11-29 Childhood in the Promised Land is the first history of

France's colonies de vacances a vast network of summer camps created for working class children. The colonies originated as a late nineteenth century charitable institution providing rural retreats intended to restore the fragile health of poor urban children. Participation grew steadily throughout the first half of the twentieth century trickling up by the late 1940s to embrace middle class youth as well. At the heart of the study lie the municipal colonies de vacances organized by the working class cities of the Paris red belt. Located in remote villages or along the more inexpensive stretches of the Atlantic coast the municipal colonies gathered their young clientele into variously structured child villages within which they were to live out particular ideal visions of the collective life of children throughout the long summer holiday. Focusing on the creation of and participation in these summer camps Laura Lee Downs presents surprising insights into the location and significance of childhood in French working class cities and ultimately within the development of modern France. Drawing on a rich array of historical sources including dossiers and records of municipal colonies discovered in remote town halls of the Paris suburbs newspaper accounts and interviews with adults who participated in the colonies as children Downs reveals how diverse groups including local Socialist and Communist leaders and Catholic seminarians seized the opportunity to shape the minds and bodies of working class youth. *Childhood in the Promised Land* shows how in creating the summer camps these various groups combined pedagogical theories religious convictions political ideologies and theories about the relationship between the countryside and children's physical and cognitive development. At the same time the book sheds light on classic questions of social control highlighting the active role of the children in shaping their experiences.

Republican Identities in War and Peace Antoine Prost, 2014-03-04 Antoine Prost's contributions to French history have enabled us to understand the failure of fascism in France and why the Republic survived the humiliation of occupation and collaboration in the Second World War. He is the pre eminent historian of civil society in France. For the first time his seminal articles have been translated into English and collected in this single volume. Beginning with his classic account of war memorials through his pioneering study of the people of a popular quarter of Paris in 1936 and of the troubled history of commemorating the Algerian war this book expertly takes us through republican representations of war and peace urban spaces and social identity and discourse and social conflict in republican France. Amongst this range of topics Prost considers the notion of social class and deference the multiple uses of myth the secularization of religious imagery the centrality of primary schools in French political culture and insults as staples of French political rhetoric. Included here are his famous essays Verdun and War Memorials of the Great War which have been hailed as indispensable additions to the study of European cultural history. Also notable is his fascinating investigation of rites de passage in Orlean which artfully reveals how complex and semiologically rich rites de passage can be. This book is essential reading for anyone wishing to gain a firm understanding of the history of nineteenth and twentieth century France and of the work of one of the most influential cultural historians of our day.

Liberalism, Fascism, Or Social Democracy Gregory M. Luebbert, 1991 An analysis of the political development of Western Europe in the

late 19th and early 20th centuries which argues that the evolution of nations into liberal democracies social democracies or fascist regimes was attributable to a set of social and class alliances within the individual nations *Fascists and Conservatives* Martin Blinkhorn, 2012-11-12 First published in 1990 During the last twenty years prodigious scholarly effort has gone into the study of fascism and the right in twentieth century Europe Quite apart from the study of particular fascist and national socialist movements and of individual right wing regimes Fascist Italy the Third Reich Franco's Spain etc scholars have striven to locate the essential nature of fascism to determine what is distinctive about its ideas programmes policies and support to identify what if anything differentiates it from other forms of rightism and to decide whether a satisfactory definition of fascism can be arrived at This volume is intended to assist the further consideration of these and related problems *The Working Class and Politics in Europe and America 1929-1945* Stephen Salter, John Stevenson, 2014-09-25 This volume contains a series of essays which examines various regimes and working classes of such countries as Italy France Poland the USA the Soviet Union and Great Britain in the early 20th century War and Photography Caroline Brothers, 2013-03-07 Drawing on the work of Barthes Eco Foucault Baudrillard Burgin and Tagg and on the historians of mentalities War and Photography presents a theoretical approach to the understanding of press photography in its historical and contemporary context Brothers applies her argument with special reference to French and British newspaper images of the Spanish Civil War a selection of which is presented in the book Rejecting analyses based upon the content of the images alone she argues that photographic meaning is largely predetermined by its institutional and cultural context Acting as witnesses despite themselves photographs convey a wealth of information not about any objective reality but about the collective attitudes and beliefs particular to the culture in which they operate The Dark Valley Piers Brendon, 2007-12-18 The 1930s were perhaps the seminal decade in twentieth century history a dark time of global depression that displaced millions paralyzed the liberal democracies gave rise to totalitarian regimes and ultimately led to the Second World War In this sweeping history Piers Brendon brings the tragic dismal days of the 1930s to life From Stalinist pogroms to New Deal programs Brendon re-creates the full scope of a slow international descent towards war Offering perfect sketches of the players riveting descriptions of major events and crises and telling details from everyday life he offers both a grand rousing narrative and an intimate portrait of an era that make sense out of the fascinating complicated and profoundly influential years of the 1930s *Uneasy Asylum* Vicki Caron, 1999 This book which draws on a rich array of primary sources and archival materials offers the first major appraisal of French responses to the Jewish refugee crisis after the Nazi seizure of power in 1933 It explores French policies and attitudes toward Jewish refugees from three interrelated vantage points government policy public opinion and the role of the French Jewish community The author demonstrates that Jewish refugees in France were not treated in the same manner as other foreigners in part because of foreign policy considerations and in part because Jewish refugees had a distinctive socioeconomic profile By examining the socioeconomic

and political factors that informed French refugee policy in the 1930s the author presents overwhelming evidence that Vichy's anti Jewish measures were not merely the work of a few antisemitic zealots in the administration nor did they stem solely from the desire of Marshal Pétain's government to find scapegoats for the military defeat of 1940 Rather they enjoyed widespread popular support not only from far right organizations but also from a host of middle class professional associations and their members doctors lawyers merchants and artisans who perceived Jews as a competitive threat The author also sheds new light on Jewish political behavior in the 1930s She demonstrates that the French Jewish community was sharply divided over the proper approach to the refugee crisis While some Jewish leaders pressed for a hard line policy others worked assiduously to provide the refugees relief and to persuade the government to pursue a more liberal refugee policy Thus the author refutes claims that the native French Jewish elite was overwhelmingly unsympathetic to the refugees because of fear that an influx of refugees would provoke an antisemitic backlash While this book reveals the extent to which anti refugee attitudes and policies in the 1930s paved the way for Vichy's anti Jewish policies it also highlights significant discontinuities between the refugee policies of the Third Republic and those of the Vichy regime

The French and Spanish Popular Fronts Martin S. Alexander, Helen Graham, 2002-06-06 The first multi dimensional approach to the Front phenomenon of the 1930s

Murder in the Métro Gayle K. Brunelle, Annette Finley-Croswhite, 2010-05 On the evening of May 16 1937 the train doors opened at the Porte Dorée station in the Paris Métro to reveal a dying woman slumped by a window an eight inch stiletto buried to its hilt in her neck No one witnessed the crime and the killer left behind little forensic evidence This first ever murder in the Paris Métro dominated the headlines for weeks during the summer of 1937 as journalists and the police slowly uncovered the shocking truth about the victim a twenty nine year old Italian immigrant the beautiful and elusive Laetitia Toureaux Toureaux toiled each day in a factory but spent her nights working as a spy in the seamy Parisian underworld Just as the dangerous spy Mata Hari fascinated Parisians of an earlier generation the mystery of Toureaux's murder held the French public spellbound in pre war Paris as the police tried and failed to identify her assassin In *Murder in the Métro* Gayle K. Brunelle and Annette Finley-Croswhite unravel Toureaux's complicated and mysterious life assessing her complex identity within the larger political context of the time They follow the trail of Toureaux's murder investigation to the Comité Secret d'Action Révolutionnaire a secret right wing political organization popularly known as the Cagoule or hooded ones Obsessed with the Communist threat they perceived in the growing power of labor unions and the French left wing the Cagoule's leaders aimed to overthrow France's Third Republic and install an authoritarian regime allied with Italy With Mussolini as their ally and Italian fascism as their model they did not shrink from committing violent crimes and fomenting terror to accomplish their goal In 1936 Toureaux at the behest of the French police infiltrated this dangerous group of terrorists and seduced one of its leaders Gabriel Jeantet to gain more information This operation the authors show eventually cost Toureaux her life The tale of Laetitia Toureaux epitomizes the turbulence of 1930s France as the country

prepared for a war most people dreaded but assumed would come This period therefore generated great anxiety but also offered new opportunities and risks to Toureaux as she embraced the identity of a modern woman The authors unravel her murder as they detail her story and that of the Cagoule within the popular culture and conflicted politics of 1930s France By examining documents related to Toureaux's murder documents the French government has sealed from public view until 2038 Brunelle and Finley Croswite link Toureaux's death not only to the Cagoule but also to the Italian secret service for whom she acted as an informant Their research provides likely answers to the question of the identity of Toureaux's murderer and offers a fascinating look at the dark and dangerous streets of pre World War II Paris **Leon Blum** Joel Colton, 2013-07-10 John Colton is a meticulous researcher and a fine craftsman In his political biography of Leon Blum these two qualities are beautifully blended none of the available evidence appears to have been overlooked and the enormous mass of variegated material has been transmuted in a polished richly tapestried and absorbing narrative Moments of Decision Stephen Eric Bronner, 2014-07-31 In this updated and expanded second edition the radical classic Moments of Decision has been updated in the 20 years since it was first published Reexamining observations made in the immediate rubble left after the fall of communism Bronner blends political meditation philosophical critique and history lesson to illuminate the crises of radicalism that have defined the 20th and 21st century socio political landscape It is a critical part of the conversation surrounding socialist historiography and the development of the West as we now conceive of it With clear accessible prose Bronner's classic text is revived and revised in this volume ideal for students scholars and any interested in political history theory and international relations *State Capitalism and Working-class Radicalism in the French Aircraft Industry* Herrick Chapman, 1991-01-01 Using the example of the aircraft industry which takes him like an arrow to the heart of many of the key conflicts in French life between 1936 and 1948 Herrick Chapman has written a penetrating and exceptionally well documented account of the way that France developed her present style of industrial relations in which the state plays such a central role No book I know so successfully integrates the history of aviation with the political and social history of France Both thorough and thoughtful it is an impressive achievement Robert Wohl University of California Los Angeles An unusual innovative book based on impressive research that throws new light in a major way on twentieth century French politics and society one of the most interesting and original monographs in modern French history in a long time Robert O Paxton Columbia University This is a breakthrough of considerable importance Chapman will become the leading North American perhaps even English speaking historian of contemporary France George Ross Brandeis University
