Tucson John Warnock, 2019-10-11 This account of the drama in time that is Tucson begins not with the founding of the Presidio San Agustín on August 20 1775 but with the emergence of Sentinel Peak in geologic deep time It ends To be continued in 2014 It spans the periods of precontact with Europeans Spanish colonization Mexican nationhood the territorial West early and Depression era statehood and the development of metropolitan Tucson after World War II It offers not one definitive historical account but a collection of stories in which threads appear that may disappear beneath the surface for a while and reappear later like some desert streams It leaves spaces for and invites the stories of its readers About the Author John Warnock was born in Tucson and graduated from Tucson High when it was one of the largest high schools in the nation He attended Amherst College in Massachusetts Oxford University in England and the New York University School of Law After teaching at the University of Wyoming in Laramie he returned to Tucson in 1990 to join the English Department at the University of Arizona He is now Professor Emeritus at UA and resides in Tucson

Native but Foreign Brenden W. Rensink,2018-06-13 Winner 2019 Spur Award for Best Historical Nonfiction Book sponsored by Western Writers of America In *Native but Foreign* historian Brenden W Rensink presents an innovative comparison of indigenous peoples who traversed North American borders in the nineteenth and twentieth centuries examining Crees and Chippewas who crossed the border from Canada into Montana and Yaquis from Mexico who migrated into Arizona The resulting history questions how opposing national borders affect and react differently to Native identity and offers new insights into what it has meant to be indigenous or an immigrant Rensink s findings counter a prevailing theme in histories of the American West namely that the East was the center that dictated policy to the western periphery On the contrary Rensink employs experiences of the Yaquis Crees and Chippewas to depict Arizona and Montana as an active and mercurial blend of local political economic and social interests pushing back against and even reshaping broader federal policy Rensink argues that as immediate forces in the borderlands molded the formation of federal policy these Native groups moved from being categorized as political refugees to being cast as illegal immigrants subject to deportation or segregation in both cases this legal transition was turbulent Despite continued staunch opposition Crees Chippewas and Yaquis gained legal and permanent settlements in the United States and successfully broke free of imposed transnational identities Accompanying the thought provoking text a vast guide to archival sources across states provinces and countries is included to aid future scholarship *Native but Foreign* is an essential work for scholars of immigration indigenous peoples and borderlands studies *Hispanic Arizona, 1536-1856* James E. Officer,2015-11-15 The history of the American West has usually been seen from the perspective of American expansion Drawing on previously unexplored primary sources James E Officer has now produced a major work that traces the Hispanic roots of southern Arizona and northern Sonora one which presents the Spanish and Mexican rather than Anglo point of view Officer records the Hispanic presence from the earliest

efforts at colonization on Spain's northwestern frontier through the Spanish and Mexican years of rule thus providing a unique reference on Southwestern history The heart of the work centers on the early nineteenth century It explores subjects such as the constant threat posed by hostile Apaches government intrigue and revolution in Sonora and the provincias internas and patterns of land ownership in villages such as Tucson and Tubac Also covered are the origins of land grants in present day southern Arizona and the invasion of southern Arizona by American 49ers as seen from the Mexican point of view Officer traces kinship ties of several elite families who ruled the frontier province over many generations men and women whose descendants remain influential in Sonora and Arizona today Los Tucsonenses Thomas E. Sheridan, 2016-05-26

Originally a presidio on the frontier of New Spain Tucson was a Mexican community before the arrival of Anglo settlers Unlike most cities in California and Texas Tucson was not initially overwhelmed by Anglo immigrants so that even until the early 1900s Mexicans made up a majority of the town's population Indeed it was through the efforts of Mexican businessmen and politicians that Tucson became a commercial center of the Southwest Los Tucsonenses celebrates the efforts of these early entrepreneurs as it traces the Mexican community's gradual loss of economic and political power Drawing on both statistical archives and pioneer reminiscences Thomas Sheridan has written a history of Tucson's Mexican community that is both rigorous in its factual analysis and passionate in its portrayal of historic personages **Knowing where to Look** Lois Horowitz, 1988 A research guide that emphasizes library resources and good search strategies **World Encyclopedia of Cities: North America (United States N-Z and Canada)** George Thomas Kurian, 1994 The entry for each city includes a map of the city basic data and information about environment weather population ethnic composition government public finance economy labor education libraries health transportation housing crime religion media and travel and tourism
