The Catholic Church Carl Koch,1994 How does the Catholic Church exist in the historical context of the world The course The Catholic Church ideal as a one semester course for eleventh and twelfth grade students explores the developments people and events that have shaped the Church Each chapter focuses on one time period Using personal vignettes and special readings to make the history more personal and specific the text engages teens in seeing the full historical dimension of the Catholic Church Full color original illustrations photographs charts cartoons timelines and maps acquaint students with people places and movements that are important to the history of the Church Study aids include review questions after each section and activities in the margins of the text to personalize the material Contested Boundaries Timothy D. Hall,1994 The First Great Awakening in eighteenth century America challenged the institutional structures and raised the consciousness of colonial Americans These revivals gave rise to the practice of itinerancy in which ministers and laypeople left their own communities to preach across the countryside In *Contested Boundaries* Timothy D Hall argues that the Awakening was largely defined by the ensuing debate over itinerancy Drawing on recent scholarship in

cultural and social anthropology cultural studies and eighteenth century religion he reveals at the center of this debate the itinerant preacher as a catalyst for dramatic change in the religious practice and social order of the New World This book expands our understanding of evangelical itinerancy in the 1740s by viewing it within the context of Britain s expanding commercial empire As pro and anti revivalists tried to shape a burgeoning transatlantic consumer society the itinerancy of the Great Awakening appears here as a forceful challenge to contemporary assumptions about the place of individuals within their social world and the role of educated leaders as regulators of communication order and change The most celebrated of these itinerants was George Whitefield an English minister who made unprecedented tours through the colonies According to Hall the activities of the itinerants including Whitefield encouraged in the colonists an openness beyond local boundaries to an expanding array of choices for belief and behavior in an increasingly mobile and pluralistic society In the process it forged a new model of the church and its social world As a response to and a source of dynamic social change itinerancy in Hall s powerful account provides a prism for viewing anew the worldly and otherworldly transformations of colonial society Contested Boundaries will be of interest to students and scholars of colonial American history religious studies and cultural and social anthropology *The Living Church* ,1944 **History of Baltimore City and County, from the Earliest**

Period to the Present Day John Thomas Scharf,1881 Black Church Beginnings Henry H. Mitchell,2004-10-04 Black Church Beginnings provides an intimate look at the struggles of African Americans to establish spiritual communities in the harsh world of slavery in the American colonies Written by one of today s foremost experts on African American religion this book traces the growth of the black church from its start in the mid 1700s to the end of the nineteenth century As Henry Mitchell shows the first African American churches didn t just organize they labored hard long and sacrificially to form a meaningful independent faith Mitchell insightfully takes readers inside this process of development He candidly examines the challenge of finding adequately trained pastors for new local congregations confrontations resulting from internal class structure in big city churches and obstacles posed by emerging denominationalism Original in its subject matter and singular in its analysis Mitchell s Black Church Beginnings makes a major contribution to the study of American church history

Solihull and Its Church Robert Pemberton,1905 **To Make this Land Our Own** Arlin C. Migliazzo,2007 A case study in the social history of frontier town building set in the swamps of South Carolina On the banks of the lower Savannah River the military objectives of South Carolina officials the ambitions of Swiss entrepreneur Jean Pierre Purry and the dreams of Protestants from Switzerland France Germany Italy and England converged in a planned settlement named Purrysburg This examination of the first South Carolina township in Governor Robert Johnson s strategic plan to populate and defend the colonial backcountry offers the clearest picture to date of the settlement of the colony s Southern frontier by ethnically diverse and contractually obligated immigrants Arlin C Migliazzo contends that the story of Purrysburg Township founded in 1732 and set in the forbidding environment bounded by the Savannah River and the Coosawhatchie swamps challenges the

notion that white colonists shed their ethnic distinctions to become a monolithic culture He views Purrysburg as a laboratory in which to observe ethnic phenomena in the colonial and antebellum South Separated by linguistic religious and cultural barriers the migr s adapted familiar social processes from their homelands to create a workable sense of community and identity His work is one of only a handful of examples of what has been deemed the new social history methodology as applied to a South Carolina subject Initially devastated by privation and a high mortality rate Purrysburg residents also suffered the vicissitudes of an indifferent provincial elite the encroachment of lowcountry rice planters Prevost s invasion in 1779 and ultimate destruction of the settlement by Sherman s army Migliazzo details the community s changing military and economic fortunes the gradual displacement of its residents to neighboring communities the role of African Americans in the region the complex religious life of township settlers and the quirky contributions of Purry s climatological speculations to the fateful siting of this first township
