## **Eloquent Blood:**

*The Eloquent Blood* Manon Hedenborg White, 2019-10-14 In the conventional dichotomy of chaste pure Madonna and libidinous whore the former has usually been viewed as the ideal form of femininity However there is a modern religious movement in which the negative stereotype of the harlot is inverted and exalted The Eloquent Blood focuses on the changing construction of femininity and feminine sexuality in interpretations of the goddess Babalon A central deity in Thelema the religion founded by the notorious British occultist Aleister Crowley 1875 1947 Babalon is based on Crowley's favorable reinterpretation of the biblical Whore of Babylon and is associated with liberated female sexuality and the spiritual ideal of passionate union with existence Analyzing historical and contemporary written sources qualitative interviews and ethnographic fieldwork in the Anglo American esoteric milieu the study traces interpretations of Babalon from the works of Crowley and some of his key disciples including the rocket scientist John Jack Whiteside Parsons and the enigmatic British occultist Kenneth Grant until the present From the 1990s onwards this study shows female and LGBTQ esotericists have challenged historical interpretations of Babalon drawing on feminist and queer thought and conceptualizing femininity in new ways Tracing the trajectory of a particular gendered symbol from the fin de siècle until today Manon Hedenborg White explores the changing role of women in Western esotericism and shows how evolving constructions of gender have shaped the development of esotericism Combining research on historical and contemporary Western esotericism with feminist and queer theory the book sheds new light on the ways in which esoteric movements and systems of thought have developed over time in relation to political movements Selected Poetry John Donne, 1998 John Donne 1572 1631 is perhaps the most important poet of the seventeenth century In his day it seemed to his admirers that Donne had changed the literary universe and he is now widely regarded as the founder of the metaphysical school Donne's poetry is highly distinctive and individual adopting a multitude of rhythms images forms and personae from irresistible seducer to devout believer His greatness stems from the subtleties and ambivalences of tone that convey his remarkably modern awareness of the instability of the self This collection of Donne's verse is chosen from the Oxford Authors critical edition of his major works It includes a wide selection from his secular and divine poems such as the rebellious and libertine satires and love elegies the virtuoso Songs and Sonnets and the desperate passionate Holy Sonnets John Carey's introduction and extensive notes provide valuable insights into Donne's poetic genius **The Tides of Mind: Uncovering the Spectrum of Consciousness** David

Gelernter, 2016-02-22 A rock star New York Times of the computing world provides a radical new work on the meaning of human consciousness The holy grail of psychologists and scientists for nearly a century has been to understand and replicate both human thought and the human mind In fact it's what attracted the now legendary computer scientist and AI authority David Gelernter to the discipline in the first place As a student and young researcher in the 1980s Gelernter hoped to build a program with a dial marked focus At maximum focus the program would think rationally formally reasonably As the dial was

turned down and focus diminished its mind would start to wander and as you dialed even lower this artificial mind would start to free associate eventually ignoring the user completely as it cruised off into the mental adventures we know as sleep While the program was a only a partial success it laid the foundation for *The Tides of Mind* a groundbreaking new exploration of the human psyche that shows us how the very purpose of the mind changes throughout the day Indeed as Gelernter explains when we are at our most alert when reasoning and creating new memories is our main mental business the mind is a computer like machine that keeps emotion on a short leash and attention on our surroundings As we gradually tire however and descend the mental spectrum reasoning comes unglued Memory ranges more freely the mind wanders and daydreams grow more insistent Self awareness fades reflection blinks out and at last we are completely immersed in our own minds With far reaching implications Gelernter's landmark *Spectrum of Consciousness* finally helps decode some of the most mysterious wonders of the human mind such as the numinous light of early childhood why dreams are so often predictive and why sadism and masochism underpin some of our greatest artistic achievements It's a theory that also challenges the very notion of the mind as a machine and not through empirical studies or hard science but by listening to our great poets and novelists who have proven themselves as humanity's most trusted guides to the subjective mind and inner self In the great introspective tradition of Wilhelm Wundt and Ren Descartes David Gelernter promises to not only revolutionize our understanding of what it means to be human but also to help answer many of our most fundamental questions about the origins of creativity thought and consciousness

**John Donne** David Edwards, 2001-05-21 Donne is best known as a poet of love never describing physical beauty in detail but brilliantly able to recreate a man's experience of love's emotions and realities but he is much else besides He is a poet of the spiritual journey who in his power speaks to others in travail a great preacher who soars into word music and encapsulates complex theology in illuminating epigrams David Edwards ranges across all Donne's writings including the critically neglected sermons to produce a new and compelling portrait of this tortured and contradictory figure As the tree's sap doth seek the root below In winter in my winter now I go Where none but thee th Eternal root Of true Love I may know JOHN DONNE [NIH Publication](#) ,1983 **"The" *Athenaeum*** ,1828
