## **Eloquent Woman:**

The Concept of Woman Prudence Allen, 2006-01-26 The culmination of a lifetime's scholarly work this study by Sister Prudence Allen traces the concept of woman in relation to man in Western thought from ancient times to the present This volume is the second in her study in which she explores claims about sex and gender identity in the works of over fifty philosophers both men and women in the late medieval and early Renaissance periods *Woman's Body, Woman's Word* Fedwa Malti-Douglas, 2019-01-15 Woman's voice and body are closely entwined in the Arabo-Islamic tradition argues Fedwa Malti Douglas in this pioneering book Spanning the ninth through twentieth centuries and covering a wide range of texts from courtly anecdote to mystical and philosophical treatises from works of geography to autobiography this study reveals how woman's access to literary speech has remained mediated through her body Malti Douglas first analyzes classical texts both well known works like *The Thousand and One Nights* and others still ignored in the West in which the female voice often associated with wit or trickery of a sexual nature is subordinated to the male scriptor Showing how early Arabo-Islamic discourse continues to influence contemporary Arabic writing she maintains that today feminist writers of novels short stories and autobiography must work through this tradition even if they subvert or reject it in the end Whereas woman in the classical period speaks through the body woman in the modern period often turns corporeality into a literary weapon to achieve power over discourse Fedwa Malti Douglas is Professor of Arabic and Comparative Literature at the University of Texas Austin Her books include *Structures of Avarice* *The Bukhala* in *Medieval Arabic Literature* Leiden and *Blindness and Autobiography* Al Ayyam of Taha Husayn Princeton Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

*Woman's Work in America* Various Authors, 1856-01-01 A comprehensive view of the attainments made by American women in this century and especially during the last fifteen years cannot but be of great importance and value The cruel kindness of the old doctrine that women should be worked for and should not work that their influence should be felt but not recognized that they should hear and see but neither appear nor speak all this belongs now to the record of things which once measurably true have become fabulous The theory that women should not be workers is a corruption of the old aristocratic system Slaves and servants whether male or female always worked Women of rank in the old world were not necessarily idle The eastern monarch who refused an army to a queen sent her a golden distaff The extremes of despotism and of luxury undermining society and state can alone have introduced the theory that it becomes the highly born and bred to be idle With this unnatural paralysis of woman's active nature came ennui the bane of the so called privileged classes

From ennui spring morbid passions fostered by fantastic imaginations A respect for labor lies at the very foundation of a true democracy The changes which our country has seen in this respect and the great uprising of industries among women are then not important to women alone but of momentous import to society at large The new activities sap the foundation of vicious and degraded life From the factory to the palace the quickening impulse is felt and the social level rises To the larger intellectual outlook is added the growing sympathy of women with each other which does more than anything else to make united action possible among them A growing good will and esteem of women toward women makes itself happily felt and will do even more and more to refine away what is harsh and unjust in social and class distinctions and to render all alike heirs of truth servants of justice The initiative is now largely taken by women in departments in which they were formerly if admitted at all entirely and often unwillingly under the dictation of men Philanthropists of both sexes indeed work harmoniously together but in their joint undertakings the women now have their say and instead of waiting to be told what men would have them think feel obliged to think for themselves The result is not discord but a fuller and freer harmony of action and intention In industrial undertakings they still have far to go but women will enter more and more into them and with happy results The professions indeed supply the keystone to the arch of woman s liberty Not the intellectual training alone which fits for them but the practical technical knowledge which must accompany their exercise puts women in a position of sure defense against fraud and imposition In the volume now given to the public the progress of women in all of these departments is presented by persons who have made each of them a special study and who have done good and helpful work in them with moreover the outlook ahead which is the important element in all labor and service The world even the American world is not yet wholly converted to the doctrine of the new womanhood Men and women who prize the ease of the status quo and the imaginary importance conferred by exemption from the necessities which prompt to active exertion often show great ignorance of all that this book is intended to teach They will aver men and women of them that women have never shown any but secondary capacities and qualities Women who take this ground often secretly flatter themselves that what they thus say of other women does not apply to themselves A speaker representing this class lately asked at a legislative hearing in Massachusetts why women did not enter the professions why they did not become healers of the sick ministers lawyers One might ask how he could escape knowing that in all of these fields so lately opened to them women are doing laborious work and with excellent results A book like the present will furnish chapter and verse to substantiate what is claimed for the attainments of women It will not indeed put an end to foolish depreciative argument based upon erroneous suppositions but it will furnish evidence to confute calumny to convince the doubtful
