Contested Spaces: Abortion Clinics, Women's Shelters and Hospitals Lori A. Brown, 2016-05-13 In this book Lori Brown examines the relationship between space defined physically legally and legislatively and how these factors directly impact the spaces of abortion It analyzes how various political entities shape the physical landscapes of inclusion and exclusion to reproductive healthcare access and questions what architecture's responsibilities are in respect to this spatial conflict Employing writing drawing and mapping methodologies this interdisciplinary project explores restrictions and legislatures which directly influence abortion policy in the US Mexico and Canada It questions how these legal rulings produce spatial complexities and why architecture isn't more culturally and spatially engaged with these spaces In Mexico where abortion is fully legal only in Mexico City during the first trimester women must travel vast distances and undergo extreme conditions in order to access the procedure Conservative state governments continue to make abortion a severely punishable crime In Canada there are nowhere near the cultural and religious stigmas to abortion as in the US and Mexico Completely legal and without restrictions Canada offers an important contrast to the ongoing abortion issues within the US and Mexico Researching the spatial implications of such a politicized space this book expands beyond a study of abortion clinic and includes other spaces such as women's shelters and hospitals that require multiple levels of secured spaces in order to discuss the spatial ramifications of access and security within spaces that are highly personal private and sometimes secret or even hidden In questioning what architecture's responsibility is in these spatial conflicts the book looks at how what architecture does can be used to reconsider the spaces and security around such contested places and ultimately suggests what design's potential impact might be In doing so it shows how architecture's role might be redefined within social and spatial practices

*Rethinking Children's Spaces and Places* David Blundell, 2016-09-22 How do we understand children and young people s lives in ways that do not rely on nostalgic romantic ideals or demonising prejudices Can the geographical concepts of space place and spatiality enhance our understanding of childhood and how children experience their lives as social actors This book draws on a rich and growing academic literature concerned with the spatiality of childhood and the spaces and places in which children live learn work and play It examines changing ways of seeing space place and environment and how these can promote rethinking about children s lives across local and global scales In common with other texts in the New Childhoods series it asks for a reappraisal of modernity s assumptions about childhood and for a move towards full participation of children and young people in matters that concern us all Combining critical discussion of theory

with examples drawn from research *Rethinking Children's Spaces and Places* offers readers a language to facilitate rethinking and catalyse active responses to the challenges of 21st century childhoods

**Children's Mobilities** Lesley Murray, Susana Cortés-Morales, 2019-05-04 This book offers a critical and comprehensive analysis of children's mobilities by focusing on its interdependent imagined and relational aspects In doing so it challenges existing literature which in mobilities studies tends to overlook the mobilities of marginalised social groups in social science more generally tends to immobilize children's studies and in children's mobility studies has mainly focused on the independent and corporeal travel of children The book situates children's mobilities in wider contexts offering an interdisciplinary and critical perspective throughout and drawing on scholarship at the confluence of childhood and mobilities and a range of research to offer new insights that inform the field of mobilities and studies of childhood In this way the book aims at widening the perspective on children's mobility towards the inclusion of diverse age groups and of the manifold forms of mobilities that are part of children's lives from an interdependent and relational point of view

*Young People, Place and Identity* Peter E. Hopkins, 2013-05-13 *Young People, Place and Identity* offers a series of rich insights into young people's everyday lives What places do young people engage with on a daily basis How do they use these places How do their identities influence these contexts By working through common sense understandings of young people's behaviours and the places they occupy the author seeks to answer these and other questions In doing so the book challenges and re-shapes understandings of young people's relationships with different places and identities The textbook is one of the first books to map out the scales, themes and sites engaged with by young people on a daily basis as they construct their multiple identities The scales explored here include the body, neighbourhood and community, mobilities and transitions and urban/rural settings and how these all shape and are shaped by young people's identities Each chapter explores how social identities such as race, gender, sexuality, class, disability and religion are constructed within particular contexts and influenced by multiple processes of inclusion and exclusion These discussions are supported by details of the research methods and ethical issues involved in researching young people's lives Drawing upon research from a range of contexts including Europe, North America and Australasia, this book demonstrates the complex ways in which young people creatively shape, contest and resist their engagements with different places and identities The range of issues, topics and case studies explored include ethical and methodological issues in youth research, youth subcultures, experiences of home, territorialism, youth and crime, political engagement and participation, responses to global issues, engagements with different institutional contexts, negotiating public space, the transition to adulthood, drinking cultures The author explores these issues through blending together original empirical research, theory and policy Individual chapters are supported by key themes, project ideas and suggested further reading Details of key authors, journals and research centres and organisations are also included at the end of the book This textbook will be pertinent for undergraduate and postgraduate students and academic researchers interested in better understanding

the relationships between young people places and identities      *Children, Home and School* Ros Edwards, 2004-08-02 In contemporary western societies there are increasing emphases on children being the responsibility of their parents contained within the home and on their compartmentalisation into separate and protected organised educational settings Thus home and school form a crucial part of children s lives and experiences This book explores the key institutional settings of home and school and other educationally linked organised spaces in children s lives and the relationships between these It presents in depth discussions concerning new research findings from a range of national contexts and focuses on various aspects of children s and sometimes adult s own understandings and activities in home and school and after school settings and the relationship between these The contributors assess children from a variety of backgrounds and circumstances and consider how these children see and position themselves as autonomous within connected to or regulated by home and school Discussion of the impact of policy and practice developments on the everyday lives of these children is also included

*Literacies, Power, and the Schooled Body* Kerry Dixon, 2010-11-15 This book examines how children s bodies are trained in time and space to produce schooled literate individuals Moving from theory to practice examples of real classroom events show how teachers practices direct discipline onto children s bodies      **Urban Nightscapes** Paul Chatterton, Robert Hollands, 2003-09-02 In many western cities urban nightlife is experiencing a McDonaldisation where big branded names are taking over large parts of downtown areas leaving consumers with an increasingly standardised experience This book takes a new look at this rapidly changing aspect of urban life examining the relationships between young adults nightlife and city spaces It focuses on what the authors call urban nightscapes both mainstream and alternative youthful cultural activities in bars pubs night clubs and music venues which occur against a backdrop of increasing corporate influence in the night time economy
