Michael Philip Penn

From Nicaea To Chalcedon:

From Nicaea to Chalcedon Frances M. Young, Andrew Teal, 2010 Created as a companion guide to a Patristics textbook From Nicaea to Chalcedon surveys a variety of writings to have occurred during one of the most significant periods in the formation of the Church from 265 466 It does not aim to cover the subject as a textbook would but aims to delve deeper into some of the characters who were involved with the Church or the Councils during this period Beginning with Eusebius of Caesarea and the first council of the Church at Nicaea and ending with Theodore of Cyrrhus who is thought to have changed his view of Christology after the watershed Council of Chalcedon this unique text surveys some of the most influential characters to have shaped Church history and the formation of doctrine Surveying a mixture of significant literary figures laymen bishops and heretics this book presents biographical literary critical and theological information about each They are chosen either because they are important to the history of doctrine or because new material about them has thrown light upon their work or because they will broaden the reader's understanding of the culture and history of the period or of live issues in the church at the time Structured in five parts each part deals with a period of time and a sequence of characters so the book is easily followed in chronological order Added to this is the double bibliography which in this edition is fully updated Bibliography A details those texts in English of the original texts of antiquity whilst Bibliography B provides details of publications in English French and German which have appeared since 1960 2004 on or about the characters discussed in the body of the text

From Nicaea to Chalcedon Frances Margaret Young, 1983 Traces the history of the church ca 325 451 A D concentrating on the theologians **Learning Theology with the Church Fathers** Christopher A. Hall, 2009-08-20 Christopher A Hall offers you the opportunity to study theology and church history under the preaching and instruction of the early church fathers **The Hexagon of Heresy** James D. Gifford Jr., 2022-11-11 Have you ever wondered how we got here Have you ever wondered how Western civilization arrived at the brink of suicide How did a thoroughly Christian culture give rise to the very ideas that seek to kill it Constantinople was conquered by the Ottoman Turks Western civilization has never been conquered from without it is being conquered from within How do philosophies like deism fatalism Marxism atheism and secular humanism arise from within the confines of the Christian theological culture that is Western civilization Also why are there always exactly two sides to every fundamental disagreement Why is it either liberal or conservative sovereignty or freedom rational or volitional meticulous order or complete chaos Catholic or Protestant Lutheran or Reformed God or humanity the one or the many Why is there never a third option or even an option that can bypass the dichotomy This book attempts to provide a framework that seeks to begin answering some of those questions The answer may be something very ancient and almost forgotten in today's world Theological decisions were made long ago that planted the seeds for the destruction of both church and civilization What are they Read and find out **From Monophysitism to Nestorianism** Theodore Sabo, 2018-04-18 The most important Christological controversies were waged

during the Third through the Sixth Ecumenical Councils This book argues that each of these councils can be characterized by the labels Nestorian Monophysite or proto Monophysite In the Third and Fourth Councils a Nestorian or Antiochene victory followed a Monophysite one and the pattern was repeated identically with the Fifth and Sixth Councils If this seems to damage the religious interpretation of the councils as the slow hammering out of orthodoxy or to contradict the current interpretation of the councils it is not meant to In contrast to R V Sellers the distinctions between the Alexandrian and Antiochene approaches to Christology are maintained and each council is labeled as coming down on one or the other of the two sides The book s title reflects a half truth Orthodox Christology at least until the outbreak of the Iconoclastic crisis was characterized by a progression from the deifying and unifying impulse of the Alexandrian school in favor of the humanizing and dichotomizing tendency of the Antiochene However this book does not affirm anything other than that early orthodoxy successfully navigated the often narrow strait between Nestorianism and Monophysitism By continually changing sides and by declaring the decrees of all previous councils binding it found itself outwitting both the Monophysites and the Nestorians

Antiochene Theoria in the Writings of Theodore of Mopsuestia and Theodoret of Cyrus Richard J.

Perhai,2015-03-01 Biblical scholars have often contrasted the exegesis of the early church fathers from the eastern region and school of Syrian Antioch against that of the school of Alexandria The Antiochenes have often been described as strictly historical literal exegetes in contrast to the allegorical exegesis of the Alexandrians Patristic scholars now challenge those stereotypes some even arguing that few differences existed between the two groups This work agrees that both schools were concerned with a literal and spiritual reading But it also tries to show through analysis of Theodore and Theodoret s exegesis and use of the term theoria that how they integrated the literal theological readings often remained quite distinct from the Alexandrians For the Antiochenes the term theoria did not mean allegory but instead stood for a range of perceptions prophetic christological and contemporary It is in these insights that we find the deep wisdom to help modern readers interpret Scripture theologically

Handbook of Patristic Exegesis Charles Kannengiesser,2023-02-06 Through this Handbook of Patristic Exegesis the reader will obtain a balanced and cohesive picture of the Early Church It gives an overall view of the reception transmission and interpretation of the Bible in the life and thought of the Church during the first five centuries of Christianity the so called patristic era The handbook offers the context and presuppositions necessary for understanding the development of the interpretative traditions of the Early Church in its catechesis its liturgy and as a foundation of its systems of theology The handbook presents a comprehensive overview of the history of patristic exegesis Apart from a general introduction to the major topics in this field it contains essays by leading patristic scholars on the most important Church Fathers such as Augustine Irenaeus Origen Gregory of Nyssa and others The essays are supplemented by bibliographies of editions and studies on patristic exegesis published from 1945 until 1995 Together these bibliographies form the only comprehensive bibliography presently available on this topic The print edition is available as a set of two

comprehensive two volume reassessment of the quests for the historical Jesus that details their origins and underlying presuppositions as well as their ongoing influence on today's biblical and theological scholarship Jesus life and teaching is important to every question we ask about what we believe and why we believe it And yet there has never been common agreement about his identity intentions or teachings even among first century historians and scholars Throughout history different religious and philosophical traditions have attempted to claim Jesus and paint him in the cultural narratives of their heritage creating a labyrinth of conflicting ideas From the evolution of orthodoxy and quests before Albert Schweitzer's famous Old Quest to today's ongoing questions about criteria methods and sources A History of the Quests for the Historical Jesus not only chronicles the developments but lays the groundwork for the way forward The late Colin Brown brings his scholarly prowess in both theology and biblical studies to bear on the subject assessing not only the historical and exegetical nuts and bolts of the debate about Jesus of Nazareth but also its philosophical sociological and theological underpinnings Instead of seeking a bedrock of facts Brown stresses the role of hermeneutics in formulating questions and seeking answers Colin Brown was almost finished with the manuscript at the time of his passing in 2019 Brought to its final form by Craig A Evans this book promises to become the definitive history and assessment of the quests for the historical Jesus Volume One covers the period from the beginnings of Christianity to the end of World War II Volume Two sold separately covers the period from the post War era through contemporary debates

Metaphysics and the Tri-Personal God William Hasker, 2013-08-02 This is the first full length study of the doctrine of the Trinity from the standpoint of analytic philosophical theology William Hasker reviews the evidence concerning fourth century pro Nicene trinitarianism in the light of recent developments in the scholarship on this period arguing for particular interpretations of crucial concepts He then reviews and criticizes recent work on the issue of the divine three in oneness including systematic theologians such as Barth Rahner Moltmann and Zizioulas and analytic philosophers of religion such as Leftow van Inwagen Craig and Swinburne In the final part of the book he develops a carefully articulated social doctrine of the Trinity which is coherent intelligible and faithful to scripture and tradition

Newman and the Alexandrian Fathers Benjamin J. King, 2009-05-07 John Henry later Cardinal Newman is generally known to have been devoted to reading the Church Fathers In this volume Benjamin King draws on archive as well as published material to explore how Newman interpreted specific Fathers at different periods of his life King draws connections between the Alexandrian Fathers Newman was reading and the development of his thought This analysis shows that it was events in Newman's life that changed his interpretation of the Fathers not the interpretation of the Fathers that caused Newman to change his life King argues that Newman tailored his reading trying on the ideas of different Fathers to fit his own needs An innovative comparison of Newman's two translations of Athanasius of Alexandria from 1842-44 and 1881 demonstrates that by 1881 the Cardinal was swayed by the theology favored by Pope Leo XIII King reveals that although Newman was a controversial figure in his own day eventually his view of the Fathers and their doctrines came to be

accepted by many scholars This new exploration of his work however shows that the Cardinal's interpretation of the Fathers should still be controversial today Anglo-Latin Literature, 600-899 Michael Lapidge, 1996-01-01 The Latin literature of Anglo Saxon England remains poorly understood No bibliography of the subject exists No comprehensive and authoritative history of Anglo Latin literature has ever been written It is only in recent years largely through the essays collected in the present volumes that the outline and intrinsic interest of the field have been clarified Indeed until a comprehensive history of the period is written these collected essays offer the only reliable guide to the subject The essays in the first volume are concerned with the earliest period of literary activity in England Following a general essay which surveys the field as a whole the essays range from the arrival of Theodore and Hadrian through Aldhelm and Bede to Aediluulf *Islam's Reformation of Christianity* Zulfiqar Ali Shah, 2022 Jesus was a product of Semitic monotheism moral law piety and humility His kingdom was the other worldly His ethical monotheism was transformed by the Roman Empire and mythology The supernatural Trinitarian and miraculous Roman Christianity transitioned into unintelligible dogmas the abolition of law moral laxity this worldly kingdom and divine right absolutism Natural theology law cosmology and politics were all compromised Religious freedom was barred and persecutions were normalised Latin Christendom was a persecutory society Islam was an intellectual cure to Christian paradoxes and an egalitarian pluralistic alternate to Christian inquisitions and religiopolitical absolutism It spread in the Eastern Christian territories like a bush fire This reformation of Christian excesses in religiopolitical theology reformed its paradoxical incarnational theology antinomianism grace based salvation scheme divine right Church and monarchy interventionist cosmology and religious persecutions This insightful and groundbreaking new book provides an in depth study of the Islamic Southern Reformation of Christianity a reformation seldom acknowledged or studied by the historians It explores how the Islamic reformative scheme emphasised ethical transcendental monotheism natural theology and rational discourse It limited monarchy and placed significance on an inclusive pluralistic and free society The Seventh Century Islamic natural rational moral republican and egalitarian reformation was the Southern Reformation of Christianity long before the partial Northern Reformation of Luther and Calvin *Canon Law in the Age of Reforms (c. 1000 to c. 1150)* Christof Rolker, 2023-09-29 This monograph addresses the history of canon law in Western Europe between ca 1000 and ca 1150 specifically the collections compiled and the councils held in that time The main part consists of an analysis of all major collections taking into account their formal and material sources the social and political context of their origin the manuscript transmission and their reception more generally As most collections are not available in reliable editions a considerable part of the discussion involves the analysis of medieval manuscripts Specialized research is available for many but not all these works but tends to be scattered across miscellaneous publications in English German French Italian and Spanish one purpose of the book is thus to provide relatively uniform up to date accounts of all major collections of the period At the same time the book argues that the collections are much more directly influenced by the social milieux from

which they emerged and that more groups were involved in the development of high medieval canon law than it has previously been thought. In particular, the book seeks to replace the still widely held belief that the development of canon law in the century before Gratian's *Decretum* ca. 1140 was largely driven by the Reform papacy. Instead, it is crucial to take into account the contribution of bishops, monks, and other groups with often conflicting interests. Put briefly, local needs and conflicts played a considerably more important role than central papal reform, on which older scholarship has largely focused.

The Wandering Holy Man Johannes Hahn, Volker Menze, 2020-06-09 Barsauma was a fifth-century Syrian ascetic archimandrite and leader of monks, notorious for his extreme asceticism and violent anti-Jewish campaigns across the Holy Land. Although Barsauma was a powerful and revered figure in the Eastern church, modern scholarship has widely dismissed him as a thug of peripheral interest. Until now, only the most salacious bits of the *Life of Barsauma*, a fascinating collection of miracles that Barsauma undertook across the Near East, had been translated. This pioneering study includes the first full translation of the *Life* and a series of studies by scholars employing a range of methods to illuminate the text from different angles and contexts. This is the authoritative source on this influential figure in the history of the church and his life, travels, and relations with other religious groups.

Invitation to Syriac Christianity Michael Philip Penn, 2022-02-22 Despite their centrality to the history of Christianity in the East, Syriac Christians have generally been excluded from modern accounts of the faith. Originating from Mesopotamia, Syriac Christians quickly spread across Eurasia, from Turkey to China, developing a distinctive and influential form of Christianity that connected empires. These early Christians wrote in the language of Syriac, the lingua franca of the late ancient Middle East and a dialect of Aramaic, the language of Jesus. Collecting key foundational Syriac texts from the second to the fourteenth centuries, this anthology provides unique access to one of the most intriguing but least known branches of the Christian tradition.
