She perceives the tension between implied oral performance and real visual artifact as a fundamental aspect of thirteenth and fourteenth century poetics. In this generously illustrated volume Huot examines manuscript texts both from the performance oriented lyric tradition of chanson courtoise or courtly love lyric and from the self consciously literary tradition of Old French narrative poetry She demonstrates that the evolution of the lyrical romance and dit narrative poems which incorporate thematic and rhetorical elements of the lyric was responsible for a progressive redefinition of lyric poetry as a written medium and the emergence of an explicitly written literary tradition uniting lyric and narrative poetics Huot first investigates the nature of the vernacular book in the thirteenth and fourteenth centuries analyzing organization page layout rubrication and illumination in a series of manuscripts She then describes the relationship between poetics and manuscript format in specific texts including works by widely read medieval authors such as Guillaume de Lorris Jean de Meun and Guillaume de Machaut as well as by lesser known writers including Nicole de Margival and Watriquet de Couvin Huot focuses on the writers characteristic modifications of lyric poetics their use of writing and performance as theme their treatment of the poet as singer or writer and of the lady as implied reader or listener and the ways in which these features of the text were elaborated by scribes and illuminators Her readings reveal how medieval poets and book makers conceived their common project and how they distinguished their respective roles Classical Mythology in English Literature Geoffrey Miles, 2002-09-11 Classical Mythology in English Literature brings together a range of English versions of three classical myths It allows students to explore the ways in which they have been reinterpreted and reinvented by writers throughout history Beginning with a concise introduction to the principle Greco Roman gods and heroes the anthology then focuses on three stories Orpheus the great musician and his quest to free his wife Eurydice from death Venus and Adonis the love goddess and the beautiful youth she loved Pygmalion the master sculptor who fell in love with his creation Each section begins with the classical sources and ends with contemporary versions showing how each myth has been used abused or appropriated since its origins

Orphism and Christianity in Late Antiquity Miguel Herrero de Jáuregui,2010-03-26 Many recent discoveries have confirmed the importance of Orphism for ancient Greek religion philosophy and literature Its nature and role are still however among the most debated problems of Classical scholarship A cornerstone of the question is its relationship to Christianity which modern authors have too often discussed from apologetic perspectives or projections of the Christian model into its supposed precedent Besides modern approaches are strongly based on ancient ones since Orpheus and the poems and mysteries attributed to him were fundamental in the religious controversies of Late Antiquity Both Pagan and Christian authors often present Orphism as a precedent alternative or imitation of Chistianity This free and thorough study of the ancient sources sheds light on these controversial questions The presence of the Orphic tradition in Imperial Age documented by literary and epigraphical evidence is confronted with the informations transmitted by Christian apologists on Orphic poems and cults The manifold Christian treatments of Pagan sources and their particular value to understand Greek religion are illuminated by this specific case which exemplifies the complex encounter between Classical culture and Jewish Christian tradition
