**A. Passerini, T. Schiex**

## **From Paper To Online Publishing A Guide For Planners And Decision Makers:**

**From Paper to Online Publishing** Larry Bielawski,1996 A practical hands on roadmap to leveraging the business benefits of electronic publishing this book is essential for managers considering electronic publishing as an alternative to the enormous manuals binders and other printed documents they re accustomed to developing Includes case studies of all types of electronic publishing on line CD ROM Internet based disk based client server and more Electronic Composition & Imaging ,1995 *Forthcoming Books* Rose Arny,1996-06 American Book Publishing Record ,2007 *PAIS 2022 A.* Passerini,T. Schiex,2022-08-05 Artificial Intelligence AI is a central topic in contemporary computer science one which has enabled many groundbreaking developments that have significantly influenced our society Not only has it proved to be of fundamental importance in areas such as medicine biology economics philosophy linguistics psychology and engineering but it has also had a significant impact in a number of fields including e commerce tourism e government national security manufacturing and other economic sectors This book contains the proceedings of PAIS 2022 the 11th Conference on Prestigious Applications of Artificial Intelligence held in Vienna Austria on 25 July 2022 as a satellite event of IJCAI ECAI 2022 The PAIS conference invites papers describing innovative applications of AI techniques to real world systems and problems and aims to provide a forum for academic and industrial researchers and practitioners to share their experience and insight on the applicability development and deployment of intelligent systems A total of 18 full paper submissions and 4 extended abstract submissions were received for the 2022 conference of which 10 full papers and 3 extended abstracts were accepted after rigorous peer review The topics covered range from autonomous navigation air traffic control and satellite management to the optimization of industrial processes and human in the loop applications The book will be of interest to all those whose work involves the innovative application of AI techniques to real world situations **Textbooks and Quality Learning for All** Unesco,2006 Focused on the dual aspects of access and quality this publication discusses the role of textbooks in facilitating quality education for all The book consists of reviews of the international perspectives as well as case studies on Brazil Russian Federation and Rwanda It also documents strategies that could help to optimise procedures of textbook development production and evaluation enhance textbooks pedagogical impact improve teachers selection of textbooks and raise textbook supply efficiently **Using ROI for Strategic Planning of Online Education** Kathleen S. Ives,Deborah M. Seymour,2023-07-03 Published in association with While higher education has rarely employed ROI methodology focusing more on balancing its revenue streams such as federal state and local appropriations tuition and endowments with its costs the rapid growth of online education and the history of how it has evolved with its potential for institutional transformation and as a major source of revenue as well as its need for substantial and long term investment makes the use of ROI an imperative This book both demonstrates how ROI is a critical tool for strategic planning and outlines the process for determining ROI The book s expert contributors lay the foundation for developing new practices to meet the

compelling challenges of online education and identify new models that offer the potential for transforming the educational system meeting new workforce demands and ultimately improving the economy The opening chapters of the book explore the dimensions of ROI as a strategic planning process offering guiding principles as well as methods of measurement and progress tracking and demonstrate the impact of ROI across the institution The book identifies the role of previously overlooked constituents such as online professionals as critical partners for developing institutional strategy and institutional stakeholders for vital input on inclusivity diversity and equity and their increasingly important role in impacting the ROI of online programs Subsequent chapters offer a range of approaches to ROI reflecting the strategic priorities and types of return institutions seek from their investment in online programming whether they be increased profits or surpluses via reduced expenses or increased operating efficiencies or the development of increased brand awareness for their programs They also address the growing competitive environment of recent commercial entrants and online program managers OPMs The contributors offer best practices for setting goals and identifying benchmarks for increasing and measuring payback including the creation of cross functional ROI teams from across an institution and further address the advantages and disadvantages of universities partnering with external providers or even other colleges and universities to provide online programs with them and for them This book offers presidents and senior administrators faculty engaged in shared governance online learning administrators and stakeholders representing student community and employer interests with a rigorous process for developing an online strategy
