Pearlman, 2008-03-12 Truman and MacArthur offers an objective and comprehensive account of the very public confrontation between a sitting president and a well known general over the military's role in the conduct of foreign policy In November 1950 with the army of the Democratic Peoples Republic of Korea mostly destroyed Chinese military forces crossed the Yalu River They routed the combined United Nations forces and pushed them on a long retreat down the Korean peninsula Hoping to strike a decisive blow that would collapse the Chinese communist regime in Beijing General Douglas MacArthur the commander of the Far East Theater pressed the administration of President Harry S Truman for authorization to launch an invasion of China across the Taiwan straits Truman refused MacArthur began to argue his case in the press a challenge to the tradition of civilian control of the military He moved his protest into the partisan political arena by supporting the Republican opposition to Truman in Congress This violated the President's fundamental tenet that war and warriors should be kept separate from politicians and electioneering On April 11 1951 he finally removed MacArthur from command Viewing these events through the eyes of the participants this book explores partisan politics in Washington and addresses the issues of the political power of military officers in an administration too weak to carry national policy on its own accord It also discusses America's relations with European allies and its position toward Formosa Taiwan the long standing root of the dispute between Truman and MacArthur

Documentary History of Reconstruction: The Union League of America Walter Lynwood Fleming, 1907 Narrative of Bering's second expedition 1733 1743 by an expedition member **Documentary History of the Truman Presidency: The constitutional crisis over President Truman's seizure of the steel industry in 1952**, 2001 **The Rise and Fall of the Shah** Amin Saikal, 2021-07-13 On November 4 1979 when students occupied the American Embassy in Tehran and subsequently demanded that the United States return the Shah in exchange for hostages the deposed Iranian ruler's regime became the focus of worldwide scrutiny and controversy But as Amin Saikal shows this was far from the beginning of Iran's troubles Saikal examines the rule of Mohammad Reza Shah Pahlavi especially from 1953 to 1979 in the context of his regime's dependence on the United States and his dreams of transforming Iran into a world power Saikal argues that despite the Shah's early achievements his goals and policies were full of inherent contradictions and weaknesses and ultimately failed to achieve their objectives Based on government documents published and unpublished literature and interviews with officials in Iran Britain and the United States *The Rise and Fall of the Shah* critically reviews the domestic and foreign policy objectives as well as the behavior of the Shah to explain not only what happened but how and why In a new introduction Saikal reflects on what has happened in Iran since the fall of the Shah and relates Iran's past to its political present and future **John F. Kennedy and Israel** Herbert Druks, 2005-10-30 John F Kennedy entered the White House hoping to make

America and the world a better and safer place in which to live Through diplomacy he wanted to achieve a settlement of the East West tensions and to bring about a peaceful resolution to such issues as the Israeli Arab conflict Although his provision of defensive HAWK anti aircraft missiles in response to Russian French and British arms sales to the Arabs made him the first President to supply arms to Israel Kennedy feared both exacerbation of the arms race and the proliferation of nuclear weapons While he remained an honest and loyal friend to Israel he also attempted to further America s relationship with the Arab states and to encourage a settlement of the Arab refugee issue Kennedy was an independent thinker who learned how to rely upon his own best judgment and intelligence rather than upon his father or officials like Dean Rusk or Allen Dulles Kennedy ultimately agreed to regular consultations between Israeli and American military personnel but he would not agree to a dual alliance nor would he allow America to become Israel s main source of military equipment The author contends that it was this precarious and uncertain diplomatic and military situation that encouraged Israel to develop its own defense industries and to investigate the possibilities of producing its own nuclear weapons systems
