From Script to Print H. J. Chaytor, 2013-06-20 Originally published in 1945 this book presents a discussion of medieval literature focusing to a large extent on French literature The text emphasises the fundamental differences between the medieval period and modern times most notably the changes engendered by the invention of print As noted in the introduction if a fair judgment is to be passed upon literary works belonging to the centuries before printing was invented some effort must be made to realise the extent of the prejudices under which we have grown up and to resist the involuntary demand that medieval literature must conform to our standards of taste or be regarded as of interest purely antiquarian This book will be of value to anyone with an interest in medieval literature and literary theory From Script to Print; an Introduction to Medieval Vernacular Literature H J (Henry John) 1871-1954 Chaytor, 2021-09-09 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public To ensure a quality reading experience this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy to read typeface We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant *From Script to Print* H. Marcuse, 2023-11-15 *Textual Criticism and Middle English Texts* Tim William Machan, 1994 Textual Critical studies of medieval English literature have primarily focused on practical matters such as transcription collation recension and the identification of scribal hands But the theory of editing medieval English works remains largely unexplored Tim William Machan addresses this void by setting out to articulate the textual and cultural factors that distinctively characterize Middle English works as Middle English and to reveal the role these factors play in editing and interpretation of these works In revealing how the creation of textual criticism affected the transmission of Middle English this book will be of interest and accessible to readers relatively new to both textual criticism and Middle English It will also be of vital importance to specialists in medieval studies Renaissance studies and textual criticism Fire and Iron Richard F. Allen, 2010-11-23 Written in Iceland by an unknown author about 1280 Njals saga has been called the greatest work of vernacular prose fiction from the European Middle Ages Allen s finely written and perceptive study is one of the first in English to offer a critical examination of the text *Essays on Turkish Literature and History* Barbara Flemming, 2017-10-17 In *Essays on Turkish Literature and History* Barbara Flemming makes available essays partly previously published in German They offer insights gained through decades of scholarship Although

the Ottoman period is central a wide range is covered including an early Turkish principality Mamluk and Ottoman Egypt and contemporary southeastern Turkey The essays look into historical and political factors involved in the preoccupation with the world's ending into Muslim Christian dialogue the sultan's prayer before battle and the bilingualism of poets Of particular interest are the sections on female participation in mysticism on an anti Sufi movement in Cairo on the Ottoman capital's appeal to collectors and emigrants Diez S. Critical Theory of Legal Revolutions Hauke Brunkhorst, 2014-06-19 This unique work analyzes the crisis in modern society building on the ideas of the Frankfurt School thinkers Emphasizing social evolution and learning processes it argues that crisis is mediated by social class conflicts and collective learning the results of which are embodied in constitutional and public law First the work outlines a new categorical framework of critical theory in which it is conceived as a theory of crisis It shows that the Marxist focus on economy and on class struggle is too narrow to deal with the range of social conflicts within modern society and posits that a crisis of legitimization is at the core of all crises It then discusses the dialectic of revolutionary and evolutionary developmental processes of modern society and its legal system This volume in the Critical Theory and Contemporary Society by a leading scholar in the field provides a new approach to critical theory that will appeal to anyone studying political sociology political theory and law

Singular Texts/plural Authors Lisa S. Ede, Andrea A. Lunsford, 1992 Why write together the authors ask They answer that question here in the first book to combine theoretical and historical explorations with actual research on collaborative and group writing Lisa Ede and Andrea Lunsford challenge the assumption that writing is a solitary act That challenge is grounded in their own personal experience as long term collaborators and in their extensive research including a three stage study of collaborative writing supported by the Fund for the Improvement of Post Secondary Education The authors urge a fundamental change in our institutions to accommodate collaboration by radically resituating power in the classroom and by instituting rewards for collaborative work that equal rewards for single authored work They conclude with the injunction Today and in the twenty first century our data suggest writers must be able to work together They must in short be able to collaborate

Memory and the Jesus Tradition Alan Kirk, 2018-02-22 Alan Kirk argues that memory theory in its social cultural and cognitive dimensions is able to provide a comprehensive account of the origins and history of the Jesus tradition one capable of displacing the moribund form critical model He shows that memory research gives new leverage on a range of classic problems in gospels historical Jesus and Christian origins scholarship This volume brings together 12 essays published between 2001 and 2016 newly revised for this edition and organized under the rubrics of Memory and the Formation of the Jesus Tradition Memory and Manuscript Memory and Historical Jesus Research and Memory in 2nd Century Gospel Writing The introductory essay written for this volume argues that the old form critical model in marginalizing

memory abandoned the one factor actually capable of accounting for the origins of the gospel tradition its manifestation in oral and written media and its historical trajectory

Romancing Treason Megan Leitch, 2015-01-29 Romancing Treason addresses the scope and significance of the secular literary culture of the Wars of the Roses and especially of the Middle English romances that were distinctively written in prose during this period Megan Leitch argues that the pervasive textual presence of treason during the decades c 1437 c 1497 suggests a way of conceptualising the understudied space between the Lancastrian literary culture of the early fifteenth century and the Tudor literary cultures of the early and mid sixteenth century Drawing upon theories of political discourse and interpellation and of the power of language to shape social identities this book explores the ways in which in this textual culture treason is both a source of anxieties about community and identity and a way of responding to those concerns Despite the context of decades of civil war treason is an understudied theme even with regards to Thomas Malory s celebrated prose romance the Morte Darthur Leitch accordingly provides a double contribution to Malory criticism by addressing the Morte Darthur s engagement with treason and by reading the Morte in the hitherto neglected context of the prose romances and other secular literature written by Malory s English contemporaries This book also offers new insights into the nature and possibilities of the medieval romance genre and sheds light on understudied texts such as the prose Siege of Thebes and Siege of Troy and the romances William Caxton translated from French More broadly this book contributes to reconsiderations of the relationship between medieval and early modern culture by focusing on a comparatively neglected sixty year interval the interval that is customarily the dividing line the no man s land between well but separately studied periods in English literary studies

The Gift of Tongues Christine F. Cooper-Rompato, 2010 The Gift of Tongues examines a wide range of sources to show that claims of miraculous language are much more important to medieval religious culture than previously recognized

The Cansos and Sirventes of the Troubadour, Giraut de Borneil Giraut de Borneil, Ruth Verity Sharman, 1989-08-17 Amongst the troubadour poets Giraut de Borneil was one of the most important and influential This 1989 edition covers Giraut s entire output

Renaissance Fantasies Maria Teresa Micaela Prendergast, 1999 Explores why some early modern writers put their masculine literary authority at risk by writing from the perspective of femininity and effeminacy The text argues that such work promoted alternatives to the dominant patriarchal aesthetics by celebrating unruly female and effeminate male bodies

concepts such as grace and transcendence His work in the comparative history of religion has focused in particular on the problem of scripture as a cross cultural religious phenomenon that is more complex than simply sacred text This invaluable resource will be of primary interest to students of the Islamic tradition especially as regards Qur'anic piety Muslim ritual practice and fundamental structures of Islamic thought and to students of the comparative history of religion especially as regards the phenomenon of scripture and its analogs
