From Sumer To Jerusalem:

From Sumer to Jerusalem John Sassoon, 1993 Tradition says that the Jews are part of the Arab family of nations but this is disputed Archaeology has revealed a very early civilisation in the land known as Sumer in southern Mesopotamia southern Iraq This book argues that the Jews are not Semitic at all but the descendants of this culture the earliest civilization in recorded history

The Origins Miles Augustus Navarr, 2024-02-13 There are many fundamental issues whether scientific cultural religious and even philosophical that we accept as fact or truth simply because our peers have done so Our peers have been wrong before For two thousand years Euclidean geometry and geo centricity was the absolute truth in scientific and religious communities Law of some of these issues concern the origins of our domain Origin of the universe origin of life on earth origin of Homo sapiens origin of what we categorize as civilization and origin of religion particularly monotheistic religions This book has endeavored to investigate these five very fundamental issues in simple and non scientific language as far as conceivable To most people these subject matters have very little or no consequence in their daily lives and for this reason they are not explored nor merit any time contemplating But they are so innate and engrained in our subconscious that most people must have pondered reflected or discussed one or more of these issues at least a few times in their lifetime The remarkable fact is that despite their vital and elemental relevance people simply accept and consent to what the authorities propagate That maybe the most convenient approach but none of the mainline theories regardless of where they came from Charles Darwin Albert Einstein The Pope Carl Sagan Steven Hawking or any other scientists philosophers or religious authorities are simply theories not proven and thus still mysteries worth investigating The book does not try to find answers It simply investigates the flaws inadequacies and weaknesses in some of these theories and where possible to explore other alternatives and options The only purpose and indeed hope in writing this book is to create a fertile domain in the mind of the readers to ask question albeit The Right questions Where there is consciousness there is doubt

Forbidden Theology Miles Augustus Navarr, 2012 Over 75% of the people who live on this planet are followers of one of the three major monotheistic religions They all consider Abraham as the father of their race and religion They all believe in one singular all powerful all knowing benevolent god The Hebrew call him Yahweh the Christians refer to him as Father or Lord and Muslims call him Allah and yet millions and millions of people have been murdered maimed and tortured by the followers of this single entity to prove that their version of this single god is better than the other two versions Sounds ridiculous and yet sadly enough more people have died in the name of religion than any other cause in the history of humanity Each and every one of us at one time or another has asked or thought about such fundamental questions as Is there a God Where did humans come from Why out of millions of species on earth only humans reached this level of sophistication Is there a life after death Is there a purpose to life Why are we here Are the scriptures truly the words of god More importantly is there any way we could find answers to such questions The fact is the answer to most of these questions and many more that we thought unanswerable

have been written down on clay tablets by our ancient ancestors who lived in Mesopotamia over 7000 years ago These records are readily available to those who are willing to step outside the dogmatic belief system of the establishment and are prepared mentally and spiritually to tolerate a totally different rendering of the oldest written historical records about mankind s origin purpose and the truth about god our maker The subject matter of this book is an attempt to investigate the circumstances under which Mankind was made and to trace the beginning and development of such concerns as the emergence of the concept of god and the formation of what later became known as religion This is done primarily by relying on our scriptural texts particularly the Old Testament as well as other ancient manuscripts such as Sumerian Akkadian and Babylonian Creation and Genesis epics The first chapter begins by examining the behaviour commands and instructions given by Yahweh to his chosen people These commands and instructions are then evaluated and compared with basic accepted human rights standards practised and observed by almost all communities and societies past and present The question is then asked How could an entity powerful enough to have created the entire universe issue such cruel and sadistic commands against some of his own creations Furthermore Yahweh s behaviour is decidedly pro Hebrew and shows no regards or thought about non Hebrew masses How could the universal god show such bias towards a tiny fraction of his creatures with total disregard for the rest Finally the characteristics and personalities of Yahweh is analysed by scrutinising his behaviour actions and directives as stated in the Old Testament before examining the god of Christianity In investigating the role and characteristics of God in Christianity the first thing that immediately becomes apparent is the absence of a prominent role for God the Father as we had witnessed in Judaism The Christians or more specifically Saint Paul who was the founder and designer of Christianity as we know it today in order to distance his creation from the Hebrews and religion of Yahweh invented a new Godhead and named him Jesus Christ Ancient Greek I sous Born of a virgin with powers to heal the sick give sight to the blind and even raise the dead who was crucified but resurrected three days later These were all characteristics borrowed from various religions and cults prevalent at the time in the Levant from Mithraism to the cult of Apoll

Reign of the Anunnaki Jan Erik Sigdell, 2018-09-11 Reveals the ongoing alien manipulation of humanity and how we can break free Explores how the Anunnaki have maintained invisible surveillance over us and how they control our development through religion secret societies and catastrophes Reveals how they feed off our energies and how this ability has allowed them to remain here on Earth as multidimensional entities enforcing their control invisibly Explains how they established religion to control us and how Gnostic Christianity which came from Christ and not the Anunnaki offers a way out of their matrix of control Cuneiform texts found on clay plates in Mesopotamia tell us about an extraterrestrial race called the Anunnaki who came from space to exploit our planet Through genetic manipulation they created modern humans from existing earthly life forms to serve them as slaves They physically left our planet millennia ago but as Jan Erik Sigdell reveals their influence and control over humanity is still pervasive and significant Sigdell explains how the Anunnaki have maintained

invisible surveillance over us as well as control over how humanity develops setting limits on our evolution and holding back our development by means of manipulation and catastrophes including the deluge immortalized in the Bible and many other ancient myths He shows how they still manipulate our politics and affairs via secret societies such as the Illuminati and the political elite such as the Bilderberg Group Examining ancient descriptions of the Anunnaki as entities that resemble winged reptiles or amphibians the author also explores their diet and how they feed off blood and the energies given off by lower life forms such as humans when they are expressing extreme negative emotions having sex or dying This energy feeding ability has allowed them to remain here on Earth as multidimensional entities enforcing their control invisibly He explains how the Anunnaki established religions as tools for control setting up the major religions with themselves as gods and playing them against each other to keep humanity's attention away from ongoing Anunnaki manipulation They have also hidden from us the existence of the true highest creator who created the cosmos as well as the Anunnaki themselves The author reveals how the highest creator sent a messenger called Jesus to expose the Anunnaki and show us a way out of their matrix of control through a spirituality based on love empathy and sacred sexuality But the god of the Anunnaki defeated this messenger and replaced him with a false Christ This led to the development of Paulinian Christianity under Anunnaki influence as well as other parallel religions such as Islam and the suppression and elimination of the original Christianity Gnostic Christianity With the discovery of hidden Gnostic texts and teachings at Nag Hammadi in 1945 the way is now paved for our release from the reign of the Anunnaki

From Sumer to Rome Richard A. Gabriel, Karen S. Metz, 1991-04-09 This in depth work demonstrates that ancient battles rivaled those of the modern period in size complexity and lethality The organization of armies of the ancient world their performance their military operations and their ability to raise the art of warfare to towering heights are the focus of this carefully documented volume An examination is made of all the major military establishments of the Bronze and Iron Ages Pertinent evidence is gathered from a number of disciplines and integrated into a coherent whole Corroborative evidence is drawn from modern analysis when accepting or rejecting the claims of ancient writers Where that was lacking the authors conducted empirical studies of ancient weapons which led to a better understanding of how ancient battles were really fought The book concludes with description and analysis of the armies of the ancient world placed in a modern perspective From Sumer to Rome provides a detailed portrait of the world's earliest military establishments A number of military innovations and developments that came to fruition in the Iron Age and that remained are traced An empirical analysis of all the major weapons of the ancient armies is made The factors that played dominant roles in outcomes are explored and thorough analysis of military medical care systems is provided This book will be an excellent addition to the libraries of military historians students of ancient warfare and weaponry and the general reader

The Armenian Kingdom in Cilicia During the Crusades Jacob Ghazarian, 2018-10-24 This unique study bridges the history of the Crusades with the history of Armenian nationalism and Christianity To the Crusaders Armenian Christians presented

the only reliable allies in Anatolia and Asia Minor and were pivotal in the founding of the Crusader principalities of Edessa Antioch Jerusalem and Tripoli The Anatolian kingdom of Cilicia was founded by the Roupenian dynasty mid 10th to late 11th century and grew under the collective rule of the Hetumian dynasty late 12th to mid 14th century After confrontations with Byzantium the Seljuks and the Mongols the Second Crusade led to the crowning of the first Cilician king despite opposition from Byzantium Following the Third Crusade power shifted in Cilicia to the Lusignans of Cyprus mid to late 14th century culminating in the final collapse of the kingdom at the hands of the Egyptian Mamluks

Synchronized Chronology Roger Henry, 2003 *Synchronized Chronology* resolves the structural problems of Egyptian chronology and then outlines the correct history of the Middle East and Mediterranean from the time of Abraham and his wandering into the Empire of Alexander the Great Recognizing some overlapping of dates and names in Manetho's List of Kings frees history to place pharaohs and dynasties where archaeology supports their existence This resolves a myriad of discrepancies and unlikely assumptions that historians have been forced to swallow and neatly opens the way to synchronizing Egyptian dynasties with Biblical chronology Several works have appeared in recent years challenging Egyptian chronology none is really successful in fixing the multi layered problems of Biblical chronology because they try to compress Egyptian history without recognizing duplicated dynasties The crisis in Biblical history is reflected in *The Bible Unearthed* Palestinian archaeologist William Dever has just published *What Did the Biblical Writers Know and When Did They Know It* Peter James received wide attention for his *Centuries of Darkness* David Rohl in *Pharaohs and Kings* relies on the recent archaeological work of Beitak at Tel Dab in Egypt The evidence is compelling that the site's population before the Hyksos took over was none other than the Hebrews Rohl's work on the period preceding the Exodus is complementary to *The Synchronized Chronology* Like James however he tries to squeeze the remaining Egyptian dynasties without discarding the duplicates It doesn't work Anyone who enjoys ancient history archaeology or a good mystery will find this an intriguing read The controversial theory is well researched and sure to generate debate
