FOOT REFLEXOLOGY

Reflexology is a holistic therapy that involves applying pressure to specific points on the face, hands, ears, and feet, each linked to different organs and body systems. Facial reflexology improves circulation, reduces tension, and supports skin health, while hand reflexology offers stress relief and pain management through easily accessible points. Ear reflexology, or auriculotherapy, targets nerve-rich points for pain control, stress reduction, and addiction support. Foot reflexology, widely used for relaxation and wellness, stimulates reflex points connected to the entire body. These techniques are closely tied to spinal anatomy, as the spine houses nerves that influence all body functions, making it essential for full-body balance and pain relief.
