gay foreign born or on the margins What results is a broad rethinking of the relationship between film and literature The episteme of cinema the book demonstrates reached the very core of its supposedly highbrow rival while at the same time modern poetry cultivated the technocultural savvy that is found today in slams e poetry and poetic digital hybrids *The Praiser* Bryan Perryman,2007-04 The Official Praiser Get everything you need for every day practice of the Dreg Forget what you know about religion get the Dreg Praiser Today **Sixties Shockers** Mark Clark,Bryan Senn,2025-01-31 This comprehensive filmography provides critical analyses and behind the scenes stories for 600 horror science fiction and fantasy films from the 1960s During those tumultuous years horror cinema flourished proving as innovative and unpredictable as the decade itself Representative titles include Night of the Living Dead The Haunting Carnival of Souls Repulsion The Masque of the Red Death Targets and The Conqueror Worm An historical overview chronicles the explosive growth of horror films during this era as well as the emergence of such dynamic directorial talents as Roman Polanski George Romero Francis Ford Coppola and Peter Bogdanovich Ray Bradbury Jonathan R. duality of these views is explored in many examples The evolutionary origins of the ego and its metamorphosis as it approaches the event horizon are explored Evolutionary theory which relates to the Singularity Archetype through a number of dynamic paradoxes is discussed Many popular books and movies are analyzed as permutations of the Singularity Archetype including Avatar Childhood s End Village of the Damned Powder and 2001 A Space Odyssey The Singularity Archetype is a primordial image of human evolutionary metamorphosis which emerges from the collective unconscious How the Archetype Manifests a Composite Picture A rupture of plane event occurs usually threatening the survival of the individual and or species The event is a shock that disrupts the equilibrium of body physical world and also individual collective psyche It is an ontological shock that will be viewed as the worst thing possible by individual collective ego There is another rupture of plane that may actually be the same rupture as above but seen from a cosmic rather than a personal view The shock is revealed to be a transcendent evolutionary event The revelation of the transcendent aspect will often involve spiral motifs and unusual lights Consciousness and communication metamorphose and with them core aspects ego individuality connection to linear time corporeality gender identification social order etc fundamentally transform There is a vision or actualization of release from some or all limits of corporeal incarnation and the emergence of glorified bodies which have enhanced powers and various degrees of etherialization More visual and telepathic modes of consciousness and communication emerge and this is part of a transformation of individuality into Homo gestalt a new species where individual psyches are networked telepathically The Singularity Archetype may be experienced and even actualized to various degrees by an individual through transcendent and or anomalous experiences such as near death experiences NDEs UFO abduction close encounter experiences kundalini and psychotropic episodes As with encounters with all archetypes individuals and groups attach idiosyncratic material to it such as particular end dates and scenarios Another way of defining the Singularity Archetype in its collective form is as a resonance flowing backward through time of an approaching Singularity at the end of human history The Singularity Archetype relates to both the evolutionary event horizon of the species and for the individual the event horizon of death
