Illustrators Handbook:

The Illustration Handbook Nick Souter, Tessa Souter, 2012-01-16 The Illustration Handbook is a hugely diverse gallery of graphic art created by the world's leading illustrators and proves the value of this art form without doubt. Here are assembled artists of the book and the magazine, designers of posters, reporters and satirists of the social scene, travelers and painter-illustrators. Here too are popular artists as well as more significant artists, minor figures as well as great ones, in short the whole spectrum of image making that comprises the art of illustration. The history of illustration is a fascinating one and this full color flexibound book explores the trends and styles that have become popular over the years and in different cultures and parts of the world. Illustration is a tool for communication for entertainment and for pure enjoyment. Any artist should have this handy pocket sized reference in their library for inspiration and information on the different styles, medium and methods of modern illustration. The Illustrators Handbook MacDonald & Company (Publishers), Limited, 1984-01-01

The Guild Handbook of Scientific Illustration Elaine R. S. Hodges, 1989 The Guild Handbook of Scientific Illustration Second Edition. Sponsored by the Guild of Natural Science Illustrators and written by top illustrators, scientists and industry experts. The Guild Handbook of Scientific Illustration Second Edition is an indispensable reference guide for anyone who produces, assigns or simply appreciates scientific illustration. Offering broad coverage and more than 620 outstanding illustrations, this new edition offers up to date coverage on all aspects of this specialized field from illustrating molecules and 3D modeling to important material and advice on copyright and contractual concerns as well as establishing a freelance business. With step by step instructions in depth coverage of illustrative techniques and related tools and helpful advice on the day to day business of scientific illustrating, it is easy to see why scientific illustrators refer to this book as their bible.
