

ACTIVE LEARNING TEMPLATE: *Nursing Skill*

STUDENT NAME **Clarissa Rios**

SKILL NAME **Intramuscular medication administration**

REVIEW MODULE CHAPTER _____

Description of Skill

Preparing & administering medications by injection safely & correctly are important components of nursing practice. When preparing & administering medications by injection, keep distractions to a minimum, double check all calculations, avoid shortcuts, and follow the 10 rights of medication administration.

Indications

- Pharmacotherapeutics
- Primary level prevention
- To provide a safe and effective dosage of a drug to relieve pain, fight illness, or aid in the healing process

Outcomes/Evaluation

- Improved outcomes (immunity, pain, illness, healing)
- Reduced risk of prolonged illness or injury
- Reduced risk of infection or contamination

Potential Complications

- Wrong route, medication, dose, time, or patient
- Thrombophlebitis
- Prolonged bleeding
- Allergic reaction

CONSIDERATIONS

Nursing Interventions (pre, intra, post)

- PRE:** introduce, hand hygiene, prep - equipment
- Check pt medication administration record, check pt identity, check for allergies
- INTR:** - mass pt-to optimal site, inspect site for skin, muscle, bone position. Cleanse site with antiseptic and prep syringe. Use 2-needle technique, stabilize inject mass. Dispose of syringe, cover site with bandage
- POST:** place pt in comfortable position, remove & discard pre & equipment in sink, monitor pt for side effects

Client Education

- Explain possible side effects
- Explain purpose of medication
- Monitor for signs of infection or allergic reaction

Nursing Interventions

- Conduct multiple checks on medication, dosage, patient, route, time
- Check expiration dates
- Conduct required documentation
- Assess site prior to injection

Im Learning To Add

Teri D. Mahaney

Im Learning To Add:

I'm Learning Japanese! Christian Galan,2019-10-29 This is a fun and entertaining beginner level children s Japanese language book 9 years old and up that is also appropriate for adults I m Learning Japanese takes a lighthearted approach to the Japanese language by using fun anime style manga characters to teach Japanese The book starts out with the main characters Emily Nico and Teo sitting on the grass after school minding their own business when unbelievable a giant talking fox dressed in a kimono appears Explaining that he knows magic speaks many languages and is respected as a sensei master he wonders if the three kids are ready to learn Japanese from him During the next 128 amusing pages the three friends learn to speak read and write Japanese while also taking breaks to try Japanese hot spring baths sumo wrestling Zen meditation and more Focusing on exactly what the 9 to 14 year old learner wants to know this book is carefully set up to allow them to learn Japanese independently at their own speed without an adult s help Though fun and lighthearted this book is incredibly practical as well An excellent learning resource whether you re 5 or 50 By the end students will master reading and writing the entire Hiragana alphabet Japanese sentence structure and 23 key Kanji characters *I Am...* STEAM LEADERS,2014-09 I am is a set of reflections written during the 1st week of school in the 11th Grade Students were prompted to reflect on past experience and include hopes about deeper learning in the year to come in Biology Humanities Math and Spanish **50**

Learning Songs Sung to Your Favorite Tunes Meish Goldish,2001-09 Contains they lyrics to fifty songs sung to classic tunes which are designed to help children build important skills *How to Personalize Learning* Barbara Bray,Kathleen McClaskey,2016-09-29 HOW to Personalize Learning Create a powerful shift in education by building a culture of learning so every learner is valued This practical follow up to Bray and McClaskey s first book brings theory to practice Discover how to build a shared vision that supports personalized learning using the Universal Design for Learning UDL framework Also included are Tools and templates to get started and go deeper Lesson and project examples that show how teachers can change instructional practice Links to electronic versions of tools templates activities and checklists Learn to Play the Alfred Way Jimmy Miller,1975-06 All Country guitar styles whether solo or accompaniment are based on chords These are by and large the same open position chords you probably already know Perhaps you have only learned to strum these chords with a pick or with your thumb Country Guitar will show you how to break up these chords in various ways and enable you to play the exciting new sounds you hear on hit country records **Innovative Practices in Teacher Preparation and**

Graduate-Level Teacher Education Programs Polly, Drew,Putman, Michael,Petty, Teresa M.,Good, Amy J.,2017-12-15 Educators play a significant role in the intellectual and social development of children and young adults Thus it is important for next generation teachers to have a strong educational background as it serves as the foundation to their understanding of learning processes leadership and best practices in the field of education Innovative Practices in Teacher Preparation and Graduate Level Teacher Education Programs presents critical and relevant research on methods by which future educators in

high level courses are equipped and instructed in order to promote the best experience in academic scholarship Featuring discussion on a diverse assortment of topics such as social justice for English language learners field based teacher education and student satisfaction in graduate programs this publication is directed at academicians students and researchers seeking modern research on the approaches taken by instructors to qualify and engage future educators

Constructivist Learning Environments Brent Gayle Wilson,1996 **The New Attention Deficit Disorder in Adults Workbook** Lynn Weiss,2005-11-01 Her workbook aims to emphasize practical steps for screening out distractions planning and organizing tasks and managing time Dallas Morning News *SuperSleep* Teri D. Mahaney,2002 With practical results orientated techniques that have helped thousands harness the power of their subconscious mind this book will help readers to overcome their obstacles direct personal growth develop positive relationships and achieve success Based on methods both ancient and new SuperSleep teaches readers how to prepare personalised affirmation tapes which when played during sleep reach the brain at its deepest levels and work quickly to dissolve negative self talk at its origins replenishing stores of optimism and self confidence *I'm Talented... Now What?* Michelle Loucadoux,2020-12-15 It is often assumed that successful artists have made it forever when they are discovered by a producer director or agent But the reality is that a career in the arts requires research careful planning networking financial prowess thoughtful specificity and dedication to creating a career with longevity I m Talented Now What helps aspiring performing artists make actionable plans to pursue a successful financially stable career Using dozens of exercises and templates throughout Michelle Loucadoux fosters creativity specificity and practicality through a 16 week workbook suitable for arts courses Topics include how to create a marketing plan presenting a brand specific to goals and building a network of industry related contacts Actors singers dancers musicians and other creatives will find this book useful in becoming entrepreneurial in their approaches

Improving Learning Through Assessment Rubrics: Student Awareness of What and How They Learn Gonsalves, Chahna,Pearson, Jayne,2023-08-14 Assessment by rubrics has emerged as a tool with great potential to guide successful student learning from a competency based approach Rubrics as instruments that make it possible to share the criteria for carrying out learning and assessment tasks with students are excellent roadmaps for student learning largely because they allow students to know what they are expected to do and what they are expected to achieve by carrying out the learning tasks Improving Learning Through Assessment Rubrics Student Awareness of What and How They Learn contributes to the improvement of what is being evaluated by identifying the strengths as well as the weaknesses of the didactic use of rubrics in the assessment of university learning The book also provides a set of theoretical issues methodological elements and practical resources for the assessment of university learning using rubrics Covering topics such as active learning self assessment and teacher identity this reference work is ideal for administrators policymakers researchers scholars academicians practitioners educators and students *Studies in Reflecting Abstraction* Jean Piaget,2014-04-04 This

translation of the French *Recherches sur l'abstraction réfléchissante* 1977 make available in English Piaget's only treatise on reflecting abstraction a process he came to attribute considerable importance to in his later thinking and which he believed to be responsible for many of the advances that take place in human development especially our understanding of mathematics Rich with empirical research on reflecting abstraction at work in the thinking of 4 to 12 year olds the studies in this volume examine its role in many contexts of cognitive development such as reasoning about mathematics forming analogies putting objects in order by size and comparing the resulting series and navigating through a wire maze His theoretical discussions explore the relationships between reflecting abstraction and other central processes in his later theory such as generalization becoming conscious and equilibration as the differentiation of possibilities and their integration into necessities These discussions indicate which aspects of his later theorizing were settled and which require further thought and investigation *Studies in Reflecting Abstraction* will be of interest to developmental and cognitive psychologists educationalists philosophers and anyone who seeks to understand human knowledge and its development *InfoWorld*, 2003-08-25 *InfoWorld* is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers *InfoWorld* also celebrates people companies and projects [Learn Korean - Level 2: Absolute Beginner](#) Innovative Language Learning, KoreanClass101.com, Interactive Effective And FUN Start speaking Korean in minutes and learn key vocabulary phrases and grammar in just minutes more with Learn Korean Level 2 Absolute Beginner a completely new way to learn Korean with ease Learn Korean Level 2 Absolute Beginner will arm you with Korean and cultural insight to utterly shock and amaze your Korean friends and family teachers and colleagues What you get in Learn Korean Level 2 Absolute Beginner 180 pages of Korean learning material 25 Korean lessons dialog transcripts with translation vocabulary sample sentences and a grammar section 25 Audio Lesson Tracks 25 Audio Review Tracks 25 Audio Dialog Tracks This book is the most powerful way to learn Korean Guaranteed You get the two most powerful components of our language learning system the audio lessons and lesson notes Why are the audio lessons so effective 25 powerful and to the point lessons syllable by syllable breakdown of each word and phrase so that you can say every word and phrase instantly repeat after the professional teacher to practice proper pronunciation cultural insight and insider only tips from our teachers in each lesson fun and relaxed approach to learning effortlessly learn from bi lingual and bi cultural hosts as they guide you through the pitfalls and pleasures of South Korea and Korean Why are the lesson notes so effective improve listening comprehension and reading comprehension by reading the dialog transcript while listening to the conversation grasp the exact meaning of phrases and expressions with natural translations expand your word and phrase usage with the expansion section master and learn to use Korean grammar with the grammar section Discover or rediscover how fun learning a language can be with the future of language learning And start speaking Korean instantly *Using Circle Time to Learn About Stories* Craig Deed, Bob Bellhouse, Glenda Johnston, 2007-10-25 Includes CD Rom By combining the traditional classroom activity of reading stories with Circle Time

these activities provide students with opportunities to practise listening expressing ideas asking questions using imagination making predictions experimenting with thinking and learning strategies and collaborating with other students Each of the six stories in this book is linked to a series of key questions games and activities These help the students to explore the stories contexts time and place and patterns plot and choice and to analyze the characters and their own emotional responses All the stories and activities are easily printable from the accompanying CD rom Written for teachers in primary settings this book is linked to the National Literary Strategy and the PSHE curriculum *I'm Sorry I Broke Your Company* Karen

Phelan,2012-12-05 A Globe and Mail Top Business Book of the Year Skewers the mystique of management consultants an entertaining guide for how not to manage a business Publishers Weekly Karen Phelan is sorry She really is She tried to do business by the numbers the management consultant way developing measures optimizing processes and quantifying performance The only problem is that businesses are run by people And people can t be plugged into formulas or summed up in scorecards Phelan dissects a whole range of consulting treatments for unhealthy companies and shows why they re essentially fad diets superficial would be fixes that don t result in lasting improvements and can cause serious damage With a mix of clear eyed business analysis heart wrenching stories and hard won lessons for both consultants and the people who hire them this book is impossible to put down and impossible to ignore Karen Phelan and other consultants may have broken your company but she s eager to make amends Using tragicomic examples drawn from her experience at a consulting firm Karen Phelan shows how fad of the day best practices can translate into C level management malpractice not in the trenches results The Dallas Morning News *The Quick Way to Learn Java GUI with MariaDB and SQLite* Vivian Siahaan,Rismon Hasiholan Sianipar,2020-01-15 This step by step guide to explore database programming using Java is ideal for people with little or no programming experience The goal of this concise book is not just to teach you Java but to help you think like a programmer Each brief chapter covers the material for one week of a college course to help you practice what you ve learned As you would expect this book shows how to build from scratch two different databases MariaDB and SQLite using Java In designing a GUI and as an IDE you will make use of the NetBeans tool In the first chapter you will learn the basics of cryptography using Java Here you will learn how to write a Java program to count Hash MAC Message Authentication Code store keys in a KeyStore generate PrivateKey and PublicKey encrypt decrypt data and generate and verify digital prints In the second chapter you will learn how to create and store salt passwords and verify them You will create a Login table In this case you will see how to create a Java GUI using NetBeans to implement it In addition to the Login table in this chapter you will also create a Client table In the case of the Client table you will learn how to generate and save public and private keys into a database You will also learn how to encrypt decrypt data and save the results into a database In the third chapter you will create an Account table This account table has the following ten fields account_id primary key client_id primarykey account_number account_date account_type plain_balance cipher_balance decipher_balance digital_signature and

signature_verification In this case you will learn how to implement generating and verifying digital prints and storing the results into a database In the fourth chapter You create a table with the name of the Account which has ten columns account_id primary key client_id primarykey account_number account_date account_type plain_balance cipher_balance decipher_balance digital_signature and signature_verification In the fifth chapter you will create a Client_Data table which has the following seven fields client_data_id primary key account_id primary_key birth_date address mother_name telephone and photo_path In chapter six you will be shown how to create SQLite database and tables with Java In chapter seven you will be taught how to extract image features utilizing BufferedImage class in Java GUI Digital image techniques to extract image features used in this chapter are grayscale sharpening inverting blurring dilation erosion closing opening vertical prewitt horizontal prewitt Laplacian horizontal sobel and vertical sobel For readers you can develop it to store other advanced image features based on descriptors such as SIFT and others for developing descriptor based matching In chapter eight you will be taught to create Java GUI to view edit insert and delete Suspect table data This table has eleven columns suspect_id primary key suspect_name birth_date case_date report_date suspect_status arrest_date mother_name address telephone and photo In chapter nine you will be taught to create Java GUI to view edit insert and delete Feature_Extraction table data This table has eight columns feature_id primary key suspect_id foreign key feature1 feature2 feature3 feature4 feature5 and feature6 All six fields except keys will have a BLOB data type so that the image of the feature will be directly saved into this table In chapter ten you will add two tables Police_Station and Investigator These two tables will later be joined to Suspect table through another table File_Case which will be built in the seventh chapter The Police_Station has six columns police_station_id primary key location city province telephone and photo The Investigator has eight columns investigator_id primary key investigator_name rank birth_date gender address telephone and photo Here you will design a Java GUI to display edit fill and delete data in both tables In chapter eleven you will add two tables Victim and Case_File The File_Case table will connect four other tables Suspect Police_Station Investigator and Victim The Victim table has nine columns victim_id primary key victim_name crime_type birth_date crime_date gender address telephone and photo The Case_File has seven columns case_file_id primary key suspect_id foreign key police_station_id foreign key investigator_id foreign key victim_id foreign key status and description Here you will also design a Java GUI to display edit fill and delete data in both tables Finally this book is hopefully useful and can improve database programming skills for every Java MariaDB SQLite programmer

THE BEST WAY TO LEARN JAVA GUI WITH MYSQL AND SQL SERVER Vivian Siahaan, Rismon Hasiholan Sianipar, 2020-01-13 This hands on tutorial reference guide to MySQL and SQL Server is not only perfect for students and beginners but it also works for experienced developers who aren't getting the most from MySQL and SQL Server As you would expect this book shows how to build from scratch two different databases MySQL and SQL Server using Java In designing a GUI and as an IDE you will make use of the NetBeans tool In the first chapter you will learn How to

install NetBeans JDK 11 and MySQL Connector J How to integrate external libraries into projects How the basic MySQL commands are used How to query statements to create databases create tables fill tables and manipulate table contents is done In the second chapter you will study Creating the initial three table projects in the school database Teacher table TClass table and Subject table Creating database configuration files Creating a Java GUI for viewing and navigating the contents of each table Creating a Java GUI for inserting and editing tables and Creating a Java GUI to join and query the three tables In the third chapter you will learn Creating the main form to connect all forms Creating a project will add three more tables to the school database the Student table the Parent table and Tuition table Creating a Java GUI to view and navigate the contents of each table Creating a Java GUI for editing inserting and deleting records in each table Creating a Java GUI to join and query the three tables and all six In chapter four you will study how to query the six tables In chapter five you will be taught how to create Crime database and its tables In chapter six you will be taught how to extract image features utilizing BufferedImage class in Java GUI In chapter seven you will be taught to create Java GUI to view edit insert and delete Suspect table data This table has eleven columns suspect_id primary key suspect_name birth_date case_date report_date suspect_status arrest_date mother_name address telephone and photo In chapter eight you will be taught to create Java GUI to view edit insert and delete Feature_Extraction table data This table has eight columns feature_id primary key suspect_id foreign key feature1 feature2 feature3 feature4 feature5 and feature6 In chapter nine you will add two tables Police_Station and Investigator These two tables will later be joined to Suspect table through another table File_Case which will be built in the seventh chapter The Police_Station has six columns police_station_id primary key location city province telephone and photo The Investigator has eight columns investigator_id primary key investigator_name rank birth_date gender address telephone and photo Here you will design a Java GUI to display edit fill and delete data in both tables In chapter ten you will add two tables Victim and File_Case The File_Case table will connect four other tables Suspect Police_Station Investigator and Victim The Victim table has nine columns victim_id primary key victim_name crime_type birth_date crime_date gender address telephone and photo The File_Case has seven columns file_case_id primary key suspect_id foreign key police_station_id foreign key investigator_id foreign key victim_id foreign key status and description Here you will also design a Java GUI to display edit fill and delete data in both tables Finally this book is hopefully useful and can improve database programming skills for every Java MySQL SQL SERVER programmer

Java Programming For Developers: The Definitive Guide to Learn JDBC And Database Applications Vivian Siahaan, Rismon Hasiholan Sianipar, 2019-11-28 This step by step guide to explore database programming using Java is ideal for people with little or no programming experience The goal of this concise book is not just to teach you Java but to help you think like a programmer Each brief chapter covers the material for one week of a college course to help you practice what you've learned As you would expect this book shows how to build from scratch two different databases MariaDB and SQLite using Java In designing

a GUI and as an IDE you will make use of the NetBeans tool In the first chapter you will learn the basics of cryptography using Java Here you will learn how to write a Java program to count Hash MAC Message Authentication Code store keys in a KeyStore generate PrivateKey and PublicKey encrypt decrypt data and generate and verify digital prints In the second chapter you will learn how to create and store salt passwords and verify them You will create a Login table In this case you will see how to create a Java GUI using NetBeans to implement it In addition to the Login table in this chapter you will also create a Client table In the case of the Client table you will learn how to generate and save public and private keys into a database You will also learn how to encrypt decrypt data and save the results into a database In the third chapter you will create an Account table This account table has the following ten fields account_id primary key client_id primarykey account_number account_date account_type plain_balance cipher_balance decipher_balance digital_signature and signature_verification In this case you will learn how to implement generating and verifying digital prints and storing the results into a database In the fourth chapter You create a table with the name of the Account which has ten columns account_id primary key client_id primarykey account_number account_date account_type plain_balance cipher_balance decipher_balance digital_signature and signature_verification In the fifth chapter you will create a Client_Data table which has the following seven fields client_data_id primary key account_id primary_key birth_date address mother_name telephone and photo_path In chapter six you will be shown how to create SQLite database and tables with Java In chapter seven you will be taught how to extract image features utilizing BufferedImage class in Java GUI Digital image techniques to extract image features used in this chapter are grascaling sharpening inverting blurring dilation erosion closing opening vertical prewitt horizontal prewitt Laplacian horizontal sobel and vertical sobel For readers you can develop it to store other advanced image features based on descriptors such as SIFT and others for developing descriptor based matching In chapter eight you will be taught to create Java GUI to view edit insert and delete Suspect table data This table has eleven columns suspect_id primary key suspect_name birth_date case_date report_date suspect_status arrest_date mother_name address telephone and photo In chapter nine you will be taught to create Java GUI to view edit insert and delete Feature_Extraction table data This table has eight columns feature_id primary key suspect_id foreign key feature1 feature2 feature3 feature4 feature5 and feature6 All six fields except keys will have a BLOB data type so that the image of the feature will be directly saved into this table In chapter ten you will add two tables Police_Station and Investigator These two tables will later be joined to Suspect table through another table File_Case which will be built in the seventh chapter The Police_Station has six columns police_station_id primary key location city province telephone and photo The Investigator has eight columns investigator_id primary key investigator_name rank birth_date gender address telephone and photo Here you will design a Java GUI to display edit fill and delete data in both tables In chapter eleven you will add two tables Victim and Case_File The File_Case table will connect four other tables Suspect Police_Station Investigator and Victim The Victim table has nine

columns victim_id primary key victim_name crime_type birth_date crime_date gender address telephone and photo The Case_File has seven columns case_file_id primary key suspect_id foreign key police_station_id foreign key investigator_id foreign key victim_id foreign key status and description Here you will also design a Java GUI to display edit fill and delete data in both tables Finally this book is hopefully useful and can improve database programming skills for every Java MariaDB SQLite programmer

Machine Learning for Kids Dale Lane, 2021-02-09 A hands on application based introduction to machine learning and artificial intelligence AI Create compelling AI powered games and applications using the Scratch programming language AI Made Easy with 13 Projects Machine learning also known as ML is one of the building blocks of AI or artificial intelligence AI is based on the idea that computers can learn on their own with your help Machine Learning for Kids will introduce you to machine learning painlessly With this book and its free Scratch based companion website you ll see how easy it is to add machine learning to your own projects You don t even need to know how to code Step by easy step you ll discover how machine learning systems can be taught to recognize text images numbers and sounds and how to train your models to improve them You ll turn your models into 13 fun computer games and apps including A Rock Paper Scissors game that recognizes your hand shapes A computer character that reacts to insults and compliments An interactive virtual assistant like Siri or Alexa A movie recommendation app An AI version of Pac Man There s no experience required and step by step instructions make sure that anyone can follow along No Experience Necessary Ages 12

Enjoying the Tune of Expression: An Emotional Symphony within **Im Learning To Add**

In a world consumed by displays and the ceaseless chatter of quick interaction, the melodic elegance and emotional symphony produced by the published word usually diminish in to the backdrop, eclipsed by the relentless noise and disruptions that permeate our lives. However, situated within the pages of **Im Learning To Add** a stunning fictional treasure brimming with fresh feelings, lies an immersive symphony waiting to be embraced. Crafted by a wonderful musician of language, that fascinating masterpiece conducts readers on an emotional journey, well unraveling the hidden melodies and profound affect resonating within each carefully constructed phrase. Within the depths with this moving analysis, we can investigate the book is main harmonies, analyze its enthralling publishing style, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
