**Buchpersonen, Büchermenschen** Heinz Gockel, Gudrun Schury, Martin Götze, 2001 **Im Netz der Zauberer** Marianne Krüll, 1996 **Germany from the Outside** Laurie Ruth Johnson, 2022-09-08 The nation state is a European invention of the 18th and 19th centuries In the case of the German nation in particular this invention was tied closely to the idea of a homogeneous German culture with a strong normative function As a consequence histories of German culture and literature often are told from the inside as the unfolding of a canon of works representing certain core values with which every person who considers him or herself German necessarily must identify But what happens if we describe German culture and its history from the outside And as something heterogeneous shaped by multiple and diverse sources many of which are not obviously connected to things traditionally considered German Emphasizing current issues of migration displacement systemic injustice and belonging *Germany from the Outside* explores new opportunities for understanding and shaping community at a time when many are questioning the ability of cultural practices to effect structural change Located at the nexus of cultural political historiographical and philosophical discourses the essays in this volume inform discussions about next directions for German Studies and for the Humanities in a fraught era *Deaths in Venice* Philip Kitcher, 2013-11-12 Published in 1913 Thomas Mann's *Death in Venice* is one of the most widely read novellas in any language In the 1970s Benjamin Britten adapted it into an opera and Luchino Visconti turned it into a successful film Reading these works from a philosophical perspective Philip Kitcher connects the predicament of the novella's central character to Western thought's most compelling questions In Mann's story the author Gustav von Aschenbach becomes captivated by an adolescent boy first seen on the lido in Venice the eventual site of Aschenbach's own death Mann works through central concerns about how to live explored with equal intensity by his German predecessors Schopenhauer and Nietzsche Kitcher considers how Mann's Britten's and Visconti's treatments illuminate the tension between social and ethical values and an artist's sensitivity to beauty Each work asks whether a life devoted to self sacrifice in the pursuit of lasting achievements can be sustained and whether the breakdown of discipline undercuts its worth Haunted by the prospect of his death Aschenbach also helps us reflect on whether it is possible to achieve anything in full awareness of our finitude and in knowing our successes are always incomplete **The Cambridge Introduction to Thomas Mann** Todd Kontje, 2011 A succinct introduction to the life and works of Thomas Mann addressing both his literary texts and his personal life **Culture in Nazi Germany** Michael H. Kater, 2019-05-21 A fresh and insightful history of how the German arts and letters scene was transformed under the Nazis Culture was integral to the smooth running of the Third Reich In the years preceding WWII a wide variety of artistic forms were used to instill a Nazi ideology in the German people and to manipulate the public perception of Hitler's enemies During the war the arts were closely tied to the propaganda machine that promoted the cause of Germany's military campaigns Michael H Kater's engaging and deeply researched account of artistic culture

within Nazi Germany considers how the German arts and letters scene was transformed when the Nazis came to power With a broad purview that ranges widely across music literature film theater the press and visual arts Kater details the struggle between creative autonomy and political control as he looks at what became of German artists and their work both during and subsequent to Nazi rule **Thomas Mann's World** Todd Curtis Kontje, 2011 A comprehensive reevaluation of Thomas Mann

After the Nazis Michael H. Kater, 2023-09-26 A wide ranging insightful history of culture in West Germany from literature film and music to theater and the visual arts After World War II a mood of despair and impotence pervaded the arts in West Germany The culture and institutions of the Third Reich were abruptly dismissed yet there was no immediate return to the Weimar period's progressive ideals In this moment of cultural stasis how could West Germany's artists free themselves from their experiences of Nazism Moving from 1945 to reunification Michael H Kater explores West German culture as it emerged from the darkness of the Third Reich Examining periods of denial and complacency as well as attempts to reckon with the past he shows how all postwar culture was touched by the vestiges of National Socialism From the literature of G nter Grass to the happenings of Joseph Beuys and Karlheinz Stockhausen's innovations in electronic music Kater shows how it was only through the reinvigoration of the cultural scene that West Germany could contend with its past and eventually allow democracy to reemerge House of Exile Evelyn Juers, 2011-05-10 In 1933 the author and political activist Heinrich Mann and his partner Nelly Kroeger fled Nazi Germany finding refuge first in the south of France and later in great despair in Los Angeles where Nelly committed suicide in 1944 and Heinrich died in 1950 Born into a wealthy middle class family in L

beck Heinrich was one of the leading representatives of Weimar culture Nelly was twenty seven years younger the adopted daughter of a fisherman and a hostess in a Berlin bar As far as Heinrich's family was concerned she was from the wrong side of the tracks In House of Exile Heinrich and Nelly's story is crossed with others from their circle of friends relatives and contemporaries Heinrich's brother Thomas Mann his sister Carla their friends Bertolt Brecht Alfred D blin and Joseph Roth and beyond them the writers James Joyce Franz Kafka and Virginia Woolf among others Evelyn Juers brings this generation of exiles to life with tremendous poignancy and imaginative power In train compartments ship cabins and rented rooms the Manns clung to what was left to them their bodies their minds and their books in a turbulent and self destructive era

*"Escape to Life"* Eckart Goebel, Sigrid Weigel, 2012-05-29 After 1933 New York City gave shelter to many leading German and German Jewish intellectuals Stripped of their German citizenship by the Nazi regime these public figures either stayed in the New York area or moved on to California and other places This compendium adopting the title of a famous volume published by Klaus and Erika Mann in 1939 explores the impact the US and NYC in particular had on these authors as well as the influence they in turn exerted on US intellectual life Moreover it addresses the transformations that took place in the exiled intellectuals thinking when it was translated into another language and addressed to an American audience Among the individuals presented in this volume are such prominent names as T W Adorno H Arendt W Benjamin E Bloch B Brecht S

Kracauer the Mann family S Morgenstern and E Panofsky The authors of the essays in this compendium were free to choose the angle biography theory politics or aspect a single work a personal constellation deemed best to illuminate the given intellectual s work Acclaimed NYC photographer Fred Stein a German Jewish refugee from Dresden produced numerous portraits of exiled intellectuals and artists A selection of these compelling portraits is reproduced in this book for the first time

**Memory Traces** Silke Arnold-de Simine, 2005 This essay collection examines the dynamics of memory organization and the way it varies among different media and modes of discourse in post unification Germany German unification has put the post war period into a historical perspective Such a rupture raises questions concerning the appropriate commemoration preservation and reinterpretation of the past The processes of reorientation after unification influenced the self perception of literary authors as well as the social role position and status of German literature They also affected the way writers viewed the competition in which they found themselves pitted against visual and electronic media as rival windows on the past In the context of several debates on German literature during the 1990s the discussion revolved not only around the adequate aesthetic representation of the historical and cultural heritage but even more so around the role of literature itself in that process The contributions look at different discourses that were and still are concerned with reinterpreting and creating new collective symbols and narrative patterns in relation to Germany s past The volume focuses on the effects of the characteristic discourses of the press literature and its different genres film the internet and memorials on the depiction and performance of memories
