Tibet and the British Raj Alex McKay, 1997 This text explores the diplomatic representatives of the Raj in Tibet Besides being scholars spies and empire builders they also influenced events in Tibet but as well as shaping our modern understanding of that land

Imagining Tibet Thierry Dodin, Heinz Rather, 2001 In the past century the Western view of Tibet has evolved from an exotic Shangri la filled with golden idols and the promise of immortality to a peaceful land with an enlightened society now ravaged by outside aggression How and why did our perception change How accurate are our modern conceptions of Tibet Imagining Tibet is a collection of essays that reveal these Western conceptions Providing an historical background to the West's ever changing relationship with Tibet Donald Lopez Jeffrey Hopkins Jamyang Norbu and other noted scholars explore a variety of topics from Western perceptions of Tibetan approaches to violence monastic life and life as a nation in exile to representations of Tibet in Western literature art environmentalism and the New Age movement

Tibet Paul Christiaan Klieger, 2021-04-22 The history of Tibet has long intrigued the world and so has the dilemma of its future will it ever return to independence or will it always remain part of China How will the succession of the aging and revered Dalai Lama affect Tibet and the world This book makes the case for a fully Tibetan independent state for much of its 2 500 year existence but its story is a complex one A great empire from the seventh to ninth centuries in 1249 Tibet was incorporated as a territory of the Mongol Empire which annexed China itself in 1279 Tibet reclaimed its independence from China in 1368 and although the Manchus later exerted their direct influence in Tibetan affairs by 1840 Tibet began to resume its independent course until communist China invaded in 1950 And since that time Tibetan nationalism has been maintained primarily by over 100 000 refugees living abroad This book is a valuable fascinating account of a region with a rich history but an uncertain future

In the Image of Tibet Clare Harris, 1999 A unique study of the ways in which the idea of Tibet has been imagined by Tibetan artists both in exile in India and in the Tibetan Autonomous Region T A R of the People's Republic of China Based on fieldwork conducted over a six year period during which the author interviewed and photographed Tibetan artists at work in their communities Harris's study explores how Tibet came to be imagined anew provides a fascinating portrait of Tibetan art produced in two parallel but connected worlds the world of Tibetan refugee painters living in exile and the world of Tibetan painters who remain in Tibet Back cover

Tibet Lezlee Brown Halper, Stefan Halper, 2014-04-01 Tibet's enduring myth animated by the tales of Himalayan adventurers British military expeditions and the novel Lost Horizon remains an inspirational fantasy a modern morality play about the failure of brutality to subdue the human spirit Tibet also exercises immense soft power as one of the lenses through which the world views China This book traces the origins and manifestations of the Tibetan myth as propagated by Younghusband Madam Blavatsky Himmler Acheson and Roosevelt The authors discuss how after WW2 Tibet isolated misunderstood and with a tiny elite unschooled in political military realities misread the diplomacy between its two giant neighbours India and China forlornly

hoping London or Washington might intervene China's People's Liberation Army sought nothing less than to deconstruct traditional Tibet unseat the Dalai Lama and absorb this vast region into the People's Republic and Lhasa succumbed to China's invasion in 1950 Drawing on declassified CIA and Chinese documents the authors reveal Mao's collusion with Stalin to subdue Tibet double dealing by Nehru the brilliant diplomacy of Chou en Lai and how Washington saw sawed between the China lobby who insisted there be no backing for an independent Tibet and Presidents Truman and later Eisenhower who initiated a covert CIA programme to support the Dalai Lama and resist Chinese occupation It is an ignoble saga with few if any heroes other than ordinary Tibetans

Magic and Ritual in Tibet Stephan Beyer, 2013-01-01 The real history of man is the history of religion The truth of the famous dictum of Max Muller the father of the History of Religions is nowhere so obvious as in Tibet Western students have observed that religion and magic pervade not only the forms of Tibetan art politics and society but also every detail of ordinary human existence And what is the all pervading religion of Tibet Buddhism of that country has been described to us of course but that does not mean the question has been answered The unique importance of Stephan Beyer's work is that it presents the vital material ignored or slighted by others the living ritual of Tibetan Buddhists The reader is made a witness to cultic proceedings through which the author guides him carefully He does not force one to accept easy explanations nor does he direct one's attention only to aspects that can be counted on to please He leads one step by step without omitting anything through entire rituals and interprets whenever necessary without being unduly obtrusive Oftentimes as in the case of the many hymns to the goddess Tara the superb translations speak directly to the reader and it is indeed as if the reader himself were present at the ritual

Photography and Tibet Clare Harris, 2016-11-15 Magnificent and mysterious Tibet has been a source of fascination for outsiders for centuries and its grand landscapes and vibrant culture have especially captivated photographers But the country is both geographically and politically challenging and access from the outside has never been easy With this book Clare Harris offers the first historical survey of photography in Tibet and the Himalayas telling the intriguing stories of both Tibetans and foreigners who have attempted to document the region's wonders on film Harris combines extensive research in museums and archives with her own fieldwork in Tibetan communities to present materials that have never been examined before including the earliest known photograph taken in Tibet dating to 1863 She looks at the experimental camera work of Tibetan monks including the thirteenth Dalai Lama and the creations of contemporary Tibetan photographers and artists With every image she explores the complex religious political and cultural climate in which it was produced Stunningly illustrated this book will appeal to anyone interested in the dramatic history of Tibet since the mid-nineteenth century and its unique entanglements with aesthetics and modernity

Oral and Literary Continuities in Modern Tibetan Literature Lama Jabb, 2015-06-10 This is the first book-length study to appear in English on the literary cultural and political roots of modern Tibetan literature While existing scholarship on modern Tibetan writing takes the 1980s as its point of birth and presents this period as marking a rupture with traditional forms of literature this book goes beyond such an interpretation by foregrounding instead the persistence of Tibet's artistic past and oral traditions in the literary creativity of the present While acknowledging the innovative features of modern Tibetan literary creation it draws attention to the hitherto neglected aspects of continuity within the new This study explores the endurance of genres styles concepts techniques symbolisms and idioms derived from Tibet's rich and diverse oral art forms and textual traditions It reveals how Tibetan kavya poetics the *mgur* genre life writing the Gesar epic and other modes of oral and literary compositions are referenced and adapted in novel ways within modern Tibetan poetry and fiction It also brings to prominence the complex and fertile interplay between orality and the Tibetan literary text Embracing a multidisciplinary approach drawing on theoretical insights in western literary theory and criticism political studies sociology

and anthropology this research shows that alongside literary and oral continuities the Tibetan nation proves to be an inevitable attribute of modern Tibetan literature

Taxation in Tibetan Societies: Rules, Practices and Discourses Alice Travers, Peter Schwieger, Charles Ramble, 2023-01-23 The study of taxation is fundamental for understanding the construction of Tibetan polities the nature of their power often with a marked religious component and their relationships with their subjects as well as the consequences of taxation for social stratification This volume takes the analysis of taxation in Tibetan societies both under the Ganden Phodrang and beyond it in new directions using hitherto unexploited Tibetan language sources It pursues the dual objective of advancing our understanding of the organisation of taxation from an institutional perspective and of highlighting the ways in which taxpayers themselves experienced and represented these fiscal systems Contributors are Saadet Arslan John Bray Kalsang Norbu Gurung Isabelle Henrion Dourcy Berthe Jansen Diana Lange Nancy E Levine Charles Ramble Isabelle Riaboff Peter Schwieger Alice Travers and Maria M Turek

The Spread of Tibetan Buddhism in China Dan Smyer Yu, 2013-03-01 Focusing on contemporary Tibetan Buddhist revivals in the Tibetan regions of the Sichuan and Qinghai Provinces in China this book explores the intricate entanglements of the Buddhist revivals with cultural identity state ideology and popular imagination of Tibetan Buddhist spirituality in contemporary China In turn the author explores the broader socio cultural implications of such revivals Based on detailed cross regional ethnographic work the book demonstrates that the revival of Tibetan Buddhism in contemporary China is intimately bound with both the affirming and negating forces of globalization modernity and politics of religion indigenous identity reclamation and the market economy The analysis highlights the multidimensionality of Tibetan Buddhism in relation to different religious cultural and political constituencies of China By recognizing the greater contexts of China's politics of religion and of the global status of Tibetan Buddhism this book presents an argument that the revival of Tibetan Buddhism is not an isolated event limited merely to Tibetan regions instead it is a result of the intersection of both local and global transformative changes The book is a useful contribution to students and scholars of Asian religion and Chinese studies
